Notice Concerning Change in Specified Subsidiary

Mitsubishi Corporation (the "Company") has been considering an organizational restructuring in connection with its review of the ownership structure for the LNG Canada project, in which the Company participates. Today, all conditions relating to the operation of the project following the restructuring were satisfied, and the operating structure was finalized. As a result, the stated capital of DT LNG Canada Partnership ("DTP"), a consolidated subsidiary of the Company, has become equivalent to 10% or more of the Company's stated capital, and DTP has therefore become a specified subsidiary of the Company. The Company hereby announces the details as follows.

1. Overview of the subsidiary subject to change
