Notice Concerning Revisions to Full-Year Financial Results Forecasts

NICHIHA CORPORATION (the "Company") hereby announces revisions to its consolidated earnings forecast for the full fiscal year ending March 31, 2027 (April 1, 2026, to March 31, 2027), originally disclosed on May 13, 2026, as detailed below.

1. Revision of Full-Year Earnings Forecast

(1) Revised consolidated earnings forecast for the fiscal year ending March 2027
(From April 1, 2026, to March 31, 2027)

	Net sales	Operating profit	Ordinary profit	Profit attributable to owners of parent	Basic earnings per share
	millions of yen	millions of yen	millions of yen	millions of yen	yen
Previously announced forecasts (A) (on May 13, 2026)	141,000	9,600	9,800	8,000	240.94
Revised forecasts (B)	141,000	7,700	7,900	6,600	199.82
Change (B-A)	0	(1,900)	(1,900)	(1,400)	-
Change (%)	0	(19.8)	(19.4)	(17.5)	-
(Reference) Actual results for the previous fiscal year (Fiscal year ended March 31, 2026)	143,740	9,355	10,246	2,486	74.31

(2) Reason for the revision of the full-year consolidated earnings forecast

Regarding the full-year consolidated financial forecast, net sales remain unchanged from the previously announced forecast. On the other hand, operating profit, ordinary profit, and profit attributable to owners of parent are expected to fall short of the previously announced forecasts, reflecting the expectation that increases in energy, raw material, and logistics costs, which weighed on earnings in the first half, will persist into the second half.

(3) Dividend forecasts

Despite the downward revision of the earnings forecast, the annual dividend forecast (¥121 per share, including a ¥7 commemorative dividend) remains unchanged, underscoring the Company's commitment to stable dividends.

(Note) These forecasts are based on information available as of the release date of this document. Actual results may differ due to future circumstances.
