### Notice Regarding the Expansion of the Shareholder Benefit Program

We hereby announce that our Board of Directors has resolved to expand our shareholder benefits program as follows today.

#### 1. Reasons for the expansion

To encourage broader and longer-term support from our shareholders, we have decided to enhance the appeal of our shareholder benefits and introduce a new program that rewards long-term ownership.

#### 2. Details of the expansion

##### (1) Date of change

The revised program will take effect for shareholders recorded in the shareholder register as of the record date, **September 30, 2025**.

##### (2) Continuous holding period conditions

Shareholders who qualify as holding shares continuously for 3 years or more are those who, starting from the record date of September 30, 2025, have been listed under the same shareholder number for 7 or more consecutive record dates (March 31 and September 30 each year), while consistently holding at least the minimum number of shares required for their respective category (300, 500, 1,000, or 10,000 shares) on each of those dates.

Therefore, **long-term ownership for 3 years or more will be determined based on the number of shares held by shareholders as of the record date of September 30, 2028, and the determination of the continuous holding period will commence at that time.**
