#### Consolidated Financial Forecast

There are numerous uncertain factors, including the impact of tariffs in the United States, the resulting effects on the global economy, exchange rate trends, geopolitical risks. Overall, it is expected that the situation will remain unpredictable.

As for the consolidated financial forecast for the fiscal year ending March 2026, we plan to carefully assess the impact of tariffs in the United States and other factors, and promptly disclose the forecast once a reasonable calculation becomes feasible.

#### **Annual Dividend**

\*\*On April 1, 2023, the Company performed a 1-to-5 stock split of common share. Calculated on the assumption that the split was made at the beginning of FY 2020.

## AI Thermal Displacement Compensation Received "Japan Society for Precision Engineering Technology Award"

The thermal displacement compensation technology has received "Japan Society for Precision Engineering Technology Award 2024"

The improved evaluation and recognition of thermal displacement compensation technology will contribute to the expansion of AI thermal displacement compensation sales.

Overseas expansion will be promoted by leveraging domestic achievements.

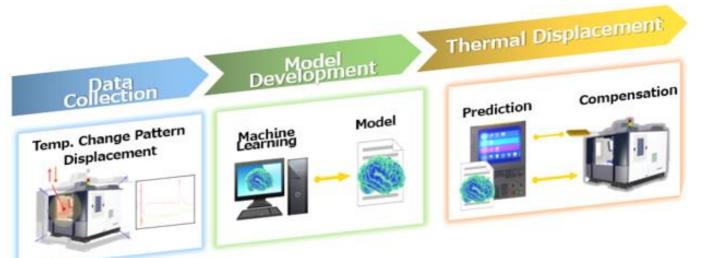

The thermal displacement of machine tools is compensated using AI.

High-accuracy compensation

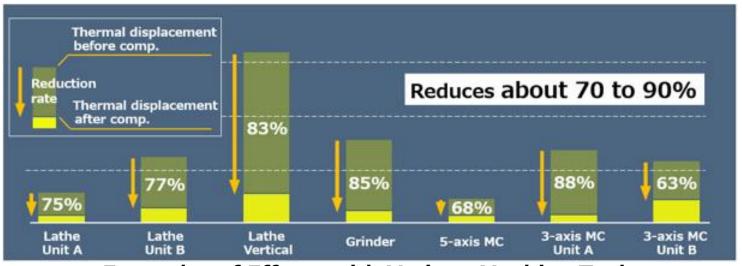

Reduction environmental impact

Applicable various machine tools

- Responds to short-term temperature changes using AI
- Achieves reduced warm-up time and relaxed factory temperature control
- Applicable to a wide range of machine tools, including machining centers and lathes

Overview of Thermal Displacement Compensation System

**Examples of Effects with Various Machine Tools** 

April 23, 2025

#### IMTEX 2025 Exhibition Report (1/4)

#### **Overview**

#### International Machine Tool and Manufacturing Technology Exhibition

Date Jan. 23 - Jan. 29

Venue Bangalore International Exhibition Centre

Companies 1,100 (991 in 2023)

Machine tools 458 (303 in 2023)

Visitors 133,166 (139% compared with 2023)

- The largest machine tool exhibition in growing India market.
- With around 90,000 sqm of exhibition space, the largest ever, the event was lively with many visitors.
- New products and key function for the Indian market were well received.

#### IMTEX 2025 Exhibition Report (2/4)

#### FA

- Showcased key products through various demonstrations for the Indian market where both production and consumption of machine tools are growing.
- New function package's ease of use allowing visitors to operate it themselves were wellreceived.
- Showcased newly ai-D series SERVO, along with the CNCs lineup, AI features, and IoT.

Attracted interest in the optimization of machining processes utilizing FANUC's digital twin.

#### IMTEX 2025 Exhibition Report (3/4)

#### **ROBOT**

- 12 robots were exhibited, showing hands-on demonstrations of collaborative robots CRX and various applications such as bolt tightening and bin picking.
- A concept of next generation factory, where a collaborative robot CRX on AMR loads and unloads to/from ROBODRILL, ROBOCUT and inspection system, received positive feedback.
- Drilling holes on a metal part with high accurate and high rigid robot R-2000iC/270F was demonstrated to expand into a new market.

 New robot controller R-50iA with cybersecurity certificate and new lightweight teach pendant were also exhibited, emphasizing technological advancement.

#### IMTEX 2025 Exhibition Report (4/4)

#### ROBOMACHINE

- 4x ROBODRILLs and 2x ROBOCUTs were exhibited.
- ROBODRILL: A wide variety of applications, including dry running of automotive, aerospace and medical components and real machining of scroll part were well received.
- ROBOCUT: Appealing to high precision market by demonstration of motor core mold for EV.
- Automated machining and inspection line of medical parts with Collaborative robot, ROBODRILL, ROBOCUT and CMM was proposed.

#### TIMTOS 2025 Exhibition Report (1/4)

#### **Overview**

#### **Taipei International Machine Tool Show**

Date Mar. 3 – Mar. 8

Venue Taipei Nangang Exhibition Center

Companies 1,038 (1,032 in 2023)

Machine tools 505 (492 in 2023)

Visitors 30,058 (66% compared with 2023)

- The machine tool exhibition in Taiwan, one of the major production areas for machine tools
- Many manufacturers in Taiwan being reluctant to invest in equipment, total number of visitors decreased, while oversea visitors increased.
- The highest number of overseas visitors were from India.
- FANUC's comprehensive capabilities including an AI exhibit common to both FA & Robot, appealed to many visitors.

#### TIMTOS 2025 Exhibition Report (2/4)

#### FA

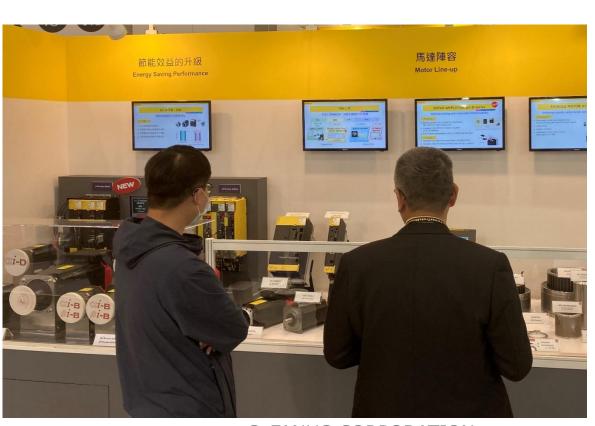

- Exhibits appealing to Taiwanese manufacturers aiming to produce high-value-added machine tools were well-received.
- An easy-to-understand display on digital twins and AI thermal displacement correction attracted attention.
- Appealing to both machine manufacturers and users by emphasizing added value.

• The new products 500i-A and ai-D series SERVO were exhibited for the first time in Taiwan to

drive future expansion.

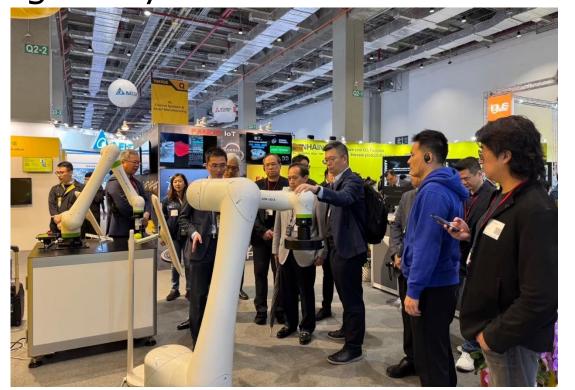

#### TIMTOS 2025 Exhibition Report (3/4)

#### **ROBOT**

- 6 robots were exhibited, showing hands-on demonstrations of collaborative robot CRX, and applications such as precision parts assembly and loading/unloading. Promoting easy-to-use robots through hands-on demonstrations of CRX series, even for first-time users.
- Machine tending by CRX with Marker Runtime Offset and Force Control was demonstrated appealing its practical and easy implementation to machine tool builders.
- Visitors paid attention to parts handling of cast parts from a deep basket with M-710/50-26D of 50kg payload, 3D vision, and Palletizing Mode which enables the robot to operate without a consideration of singularity.

#### TIMTOS 2025 Exhibition Report (4/4)

#### ROBOMACHINE

- 5x ROBODRILLs, 1x ROBOSHOT, 1x ROBOCUT were exhibited.
- ROBODRILL: Applications for new markets such as composite machining with turning functions and demonstration of FSW were showcased.
- ROBOSHOT: Molding and machining line with Robot, ROBODRILL and ROBOSHOT impressed as an example of automation.
- ROBOCUT: Long-hours operation using an automated workpiece exchange system with Collaborative Robot was introduced.

26

#### **ESG** Ratings

FANUC maintains its highest ratings in MSCI and CDP Climate Change, and earns the first gold medal from EcoVadis.
