During the fiscal year ended February 28, 2025, the Japanese economy began to show signs of normalization and a gradual recovery in economic activities. Amid such an environment, in BizRobo!, AUTORO, RoboRobo and PRESCO, OPEN Group, Inc. (the “Company”) and its subsidiaries (collectively, the “Group”) focused on continuing to serve the existing customers while also expanding business with them and gaining new customers. Meanwhile, upfront investment continued to be implemented, mainly for RoboRobo product development.

c. Policy for determining the details of remuneration for officers

At the Board of Directors meeting held on May 27, 2022, the Company passed a resolution on the policy for determining the details of individual remuneration for Directors. Prior to the resolution at the Board of Directors meeting, the Board of Directors consulted with the Remuneration Advisory Committee regarding the contents of the resolution and received a report from the committee.

(a) Basic policy on officer remuneration

Our remuneration system is positioned as a system to encourage the realization of this corporate mission. It is designed to incentivize Directors toward medium- to long-term growth, and remuneration for individual Directors is set at appropriate levels based on their job responsibilities. The process is intended to be objective and transparent as seen by our stakeholders, starting with our shareholders and employees.

Based on this basic policy, at levels that are competitive enough to allow us to attract excellent human resources in the market, individual Director remuneration reflects overall corporate performance, individual roles and contributions to results, and the level of embodiment of the Company's basic philosophy, with the goal of creating a clearly defined remuneration system. Furthermore, with the goal of increasing awareness of creating corporate value and sharing interests our shareholders, we are introducing a share-based remuneration system.

Moreover, regarding the remuneration for our founders and major shareholders Representative Director Takahashi and Director Osumi, our policy is to pay them only fixed remuneration.

(b) Approach to remuneration levels

To achieve levels that are competitive compared to industry standards, we have set our Director remuneration levels referencing the median value of the remuneration levels of the top 25% of a group of companies with a similar market capitalization in the 2021 officer remuneration survey performed by Deloitte Tohmatsu Consulting LLC (companies listed on the First Section of the Tokyo Stock Exchange with a market capitalization of between ¥10–¥50 billion).

(c) Summary of remuneration structure

Director remuneration is composed of fixed remuneration and variable remuneration. Variable remuneration for Directors is remuneration in which the amount of payments varies based on the Company's stock price.

Regarding remuneration for Outside Directors and Directors who are Audit and Supervisory Committee Members, from the standpoint of ensuring the independence of management, and premised on a remuneration system that is not influenced by performance, we have used the same remuneration system as that for Directors.

(Fixed remuneration)

Fixed remuneration is based on the roles and responsibilities of each officer with the goal of encouraging the execution of duties based on job responsibilities.

(Variable remuneration: restricted share-based remuneration)

Variable remuneration paid to officers is based on the roles and responsibilities of each officer, and in addition to encouraging the execution of duties based on job responsibilities, is intended to increase awareness of creating corporate value and sharing interest with shareholders. It takes the form of restricted share-based remuneration that varies based on the Company's stock price. When shares are allotted, a number of shares corresponding to 10% of the total remuneration are allotted. The final amount of remuneration for each officer is set based on the fluctuations in the stock price until the restrictions are lifted (in principle when the officer retires), forming a remuneration

structure that encourages the Group's sustainable growth and medium- to long-term increases in our stock price.

d. Items related to the delegation of the individual remuneration, etc. of Directors

The Company has the Remuneration Advisory Committee. The Remuneration Advisory Committee shall deliberate on the remuneration plan, remuneration level, etc. for the fiscal year, and receive advice and recommendations from members who are independent Outside Directors. A majority of the members of the Remuneration Advisory Committee are Independent Outside Directors, and the Chairperson is an Outside Director, ensuring independence.

Individual amounts of remuneration for Directors (excluding Directors who are Audit and Supervisory Committee Members) are determined at the Board of Directors within the limits of remuneration for Directors determined at the General Meeting of Shareholders based on a report from the Remuneration Advisory Committee. Individual amounts of remuneration for Audit and Supervisory Committee Members are determined through discussion by the Audit and Supervisory Committee Members within the limits of remuneration determined at the General Meeting of Shareholders.

In terms of the activities of the Board of Directors in the decision-making process for remuneration, etc. of the Company's officers in the fiscal year under review, at a meeting of the Board of Directors held on May 28, 2024, the individual amounts of remuneration for Directors were decided based on a report from the Remuneration Advisory Committee. Additionally, to introduce objective perspectives from outside the Company and expertise related to officer remuneration systems, we hired outside remuneration consultants. With their support, we are evaluating remuneration levels and our remuneration system while considering external data, the economic environment, industry trends, the state of the Company's management, and our corporate culture.
