Reference Documents for the Shareholders' Meeting

Proposals and References

Proposal No. 1: Appropriation of Surplus

The Company proposes to distribute a year-end dividend with due consideration to the operating results to reflect our appreciation of shareholders' continued support.

The annual dividend, therefore, will be ¥144 (equivalent to ¥72 after share split) per share, a year-on-year increase of ¥13 (equivalent to ¥6.5 after share split) per share, including the interim dividend of ¥60 (equivalent to ¥30 after share split) per share already paid.

Meanwhile, to prepare for future business development, the Company proposes to set aside a "Reserve for investment on information technology" of ¥200 million.

1. Matters concerning year-end dividends

(1) Type of property for dividends: Money

(2) Matters concerning allotment of property dividends to shareholders and the total amount thereof

¥84 per share of common shares

Total amount: ¥2,736,364,596

(3) Effective date of distribution from surplus: June 27, 2025

2. Matters concerning appropriation of other surplus

(1) Item and amount of surplus to be decreased

Retained earnings brought forward: ¥200,000,000

(2) Item and amount of surplus to be increased

Reserve for investment on information technology: ¥200,000,000

(Note)

Effective April 1, 2025, the Company conducted a share split of its common shares in the proportion of 1 share into 2 shares. Since the record date for the year-end dividend is March 31, 2025, the dividend will be paid based on the number of shares before such share split.

(retired in June 2024)</p> <p>April 2020 Director and President, Corporate-Pension Business Service Co., Ltd. (retired in March 2024)</p> <p>June 2020 Audit & Supervisory Board Member of the Company</p> <p>April 2024 Representative Director and President, Nissay Business Service Co., Ltd. (current position)</p> <p>June 2024 Director of the Company (current position)</p>
<p>[Reason for nominating as a candidate for Outside Director and overview of expected role] Nobuyuki Soda has abundant expertise and experience nurtured during his tenure as a manager at a leading life insurance company, as well as specialized knowledge regarding finance, accounting, human resources development, personnel and labor management, etc. from his business experience hitherto. Since his assumption of the Director position, he has provided valuable advice and supervision on the management of the Company from an independent and objective standpoint. Going forward, he is expected to continue providing advice and supervision by utilizing his specialized knowledge based on his abundant expertise and experience. The Company reappoints him as a candidate for Outside Director based on its judgment that he qualifies for this position from the viewpoint of ensuring transparent decision making by the Board of Directors and reinforcing the supervisory functions thereon. If his reelection is approved, the Company plans to appoint him as chairperson of the Board of Directors.</p>		
<p>[View on independence] As Nobuyuki Soda satisfies the “Independence Criteria for Outside Director/Outside Audit & Supervisory Board Member” stipulated by the Company, the Company judges that he maintains independence from the Company. Although he concurrently serves as Representative Director and President at Nissay Business Service Co., Ltd., there are no interests including personal, capital and transactional relationships between this company and the Company. He used to work at Nippon Life Insurance Company, but retired from the position of Director of this company in 2019. Although this company holds the Company’s shares, its shareholding ratio is 2.66% (calculated after subtracting treasury shares). Although this company and the Company had transactions such as construction contracts and insurance contracts in fiscal 2024, the respective amount of the relevant transactions did not exceed the amount of payments specified in the aforementioned criteria. (The average transaction amounts between both companies for the past three fiscal years (meaning fiscal 2022 through fiscal 2024, and the same period applies hereinafter) was less than 1% of the three-year average transaction amounts of this company’s consolidated ordinary income or the Company’s consolidated net sales of completed construction contracts for the past three fiscal years.) In addition, he used to work at Corporate-Pension Business Service Co., Ltd., but he retired from the position of Representative Director of this company in 2024. There are no interests including personal, capital and transactional relationships between Corporate-Pension Business Service Co. Ltd. and the Company.</p>

(Notes)

1. Effective April 1, 2025, the Company conducted a share split of its common shares in the proportion of 1 share into 2 shares. The number of shares of the Company held by each candidate is the number of shares after the share split.
2. The number of shares of the Company potentially held states the number of points awarded to the Director through the Board Benefit Trust (BBT), a performance-linked stock-based compensation plan.
3. No material conflict of interest exists between the Company and any of the above candidates for Director.
4. Hirokazu Hikosaka, Nobuyuki Soda, Suga Soejima and Hiramasa Nakata are candidates for Outside Director.
5. For Nobuyuki Soda, the attendance rate is stated for his attendance at the Board of Directors meetings during fiscal 2024 held during his service as Audit & Supervisory Board Member and after his assumption of office as Outside Director in June 2024. For Suga Soejima, the attendance rate is stated for her attendance at the Board of Directors meetings during fiscal 2024 held after her assumption of office as Outside Director in June 2024.
6. The Company has stipulated in its Articles of Incorporation that it can conclude a limited liability agreement with each Director who is not an executive director to limit his/her liability for damages to a certain degree, and has concluded the limited liability agreements with Hirokazu Hikosaka, Nobuyuki Soda and Suga Soejima, respectively. If their appointments are approved, the Company intends to continue the limited liability agreement with each of them.
In addition, if the appointment of Hiramasa Nakata is approved, the Company intends to conclude the said agreement with him.
The outline of the aforementioned limited liability agreement is as follows:
 - In case a Director causes damage to the Company due to his/her negligence of duty, his/her liability for the damage shall be up to the minimum liability amount provided for in laws and regulations when said Director's duty is performed in good faith and with no gross negligence.
7. The Company has entered into a directors and officers liability insurance contract with an insurance company. The said insurance contract will cover damages that may arise due to insured Officers, etc. assuming liability for their execution of duties, or receiving a claim for the pursuit of such liability. If the appointments of the candidates are approved, they will be included among the insured persons under the insurance contract. The said insurance contract is scheduled to be renewed in October 2025 with the same terms and conditions.
8. The Company has notified the Tokyo Stock Exchange of the designation of Hirokazu Hikosaka, Nobuyuki Soda, Suga Soejima and Hiramasa Nakata as Independent Directors as stipulated in the provisions of the Tokyo Stock Exchange.
9. The age of the respective candidates indicated is as of the date of this Annual Shareholders' Meeting.

“Independence Criteria for Outside Director/Outside Audit & Supervisory Board Member”

In order to increase the soundness and transparency of management, the Company has established the following independence criteria for outside directors and outside audit & supervisory board members. Outside directors and outside audit & supervisory board members are considered to be independent unless any of the following criteria applies.

1. Major shareholder¹ of the Company or an executive thereof;
2. Major lender² of the Company or an executive thereof;
3. A party whose major client or supplier is the Company³ or an executive thereof;
4. Major client or supplier of the Company⁴ or an executive thereof;
5. Consultant, accountant or legal professional who receives more than ¥10 million per year in monetary consideration or other property from the Company besides compensation as a Director/Audit & Supervisory Board Member (if the recipient of such property is a corporation, partnership or other entities, a person who belongs to an entity for which the total amount of money and property received from the Company exceeds 2% of its annual gross revenue);
6. Person who receives more than ¥10 million per year in donation from the Company (or executive thereof, if the recipient of such donation is a corporation, partnership or other entities);
7. Person who fell under any of the above-listed items 1. through 6. during the past three years; or
8. Relatives within the second degree of kinship of the person (excluding those who are not significant persons) who fall under any of the following items (1) through (3).
 - (1) Person who falls under any of the above-listed items 1. through 7.;
 - (2) Executive of any subsidiaries of the Company; or
 - (3) Non-executive director of any subsidiaries of the Company.

(Notes)

1. “Major shareholder” refers to a shareholder who holds 10% or more of the voting rights directly or indirectly at the end of the most recent fiscal year.
2. “Major lender” refers to a lender to whom the Company has outstanding borrowings in the amount that exceeded 2% of the consolidated total assets of the Company at the end of the most recent fiscal year.
3. “A party whose major client or supplier is the Company” refers to a party for whom the average amount of payments received from the Company for the past three fiscal years exceeds 2% of the average consolidated net sales of said party for the past three fiscal years.
4. “A major client or supplier of the Company” refers to a party for whom the average amount of payments to the Company for the past three years exceeds 2% of the average consolidated net sales of the Company for the past three fiscal years.

Proposal No. 3: Election of One (1) Audit & Supervisory Board Member

The term of office of Audit & Supervisory Board Member Hiroyuki Matsunaga will expire at the conclusion of this Annual Shareholders' Meeting. Accordingly, the election of one (1) Audit & Supervisory Board Member is proposed.

The Audit & Supervisory Board has given its prior consent to this Proposal.

The candidate is as follows.

Name (Date of birth; Age)	Career summary and positions in the Company and important positions concurrently held at other companies
 <p>Yasuhiro Sato (September 2, 1961; 63) [New appointment]</p> <p>Gender: Male</p> <p>Number of years as Audit & Supervisory Board Member of the Company: —</p> <p>Attendance at the Board of Directors Meetings: —</p> <p>Attendance at the Audit & Supervisory Board Meetings: —</p> <p>Number of shares of the Company actually held: 954</p> <p>Number of shares of the Company potentially held: 0</p>	<p>April 1985 Joined the Company April 2009 President, Taikisha Engineering (M) Sdn. Bhd. April 2014 General Manager, Overseas Engineering Dept., Green Technology System Division January 2016 President, Taikisha Philippines Inc. April 2020 Corporate Officer, President, Taikisha Philippines Inc. April 2021 Corporate Officer, President, Taikisha (Thailand) Co., Ltd. January 2025 Business Development Headquarters April 2025 Assistant to Chief Executive, Corporate Planning Headquarters (current position)</p>
<p>[Reason for nominating as a candidate for Audit & Supervisory Board Member] Yasuhiro Sato has abundant business experience in the Green Technology System Business and overseas business, and has been serving as a Corporate Officer since 2020. The Company newly appoints him as a candidate for Audit & Supervisory Board Member based on its judgment that he qualifies for the duties to audit the execution of duties by Directors because he is well-versed in the actual condition of the Company.</p>	

(Translation)

(Notes)

1. Effective April 1, 2025, the Company conducted a share split of its common shares in the proportion of 1 share into 2 shares. The number of shares of the Company held by the candidate is the number of shares after the share split.
2. No material conflict of interest exists between the Company and the above candidate for Audit & Supervisory Board Member.
3. The Company has stipulated in its Articles of Incorporation that it can conclude a limited liability agreement with each Audit & Supervisory Board Member to limit his/her liability for damages to a certain degree. If the appointment of Yasuhiro Sato is approved, the Company intends to conclude the said agreement with him.
The outline of the aforementioned limited liability agreement is as follows:
 - In case an Audit & Supervisory Board Member causes damage to the Company due to his/her negligence of duty, his/her liability for the damage shall be up to the minimum liability amount provided for in laws and regulations when said Audit & Supervisory Board Member's duty is performed in good faith and with no gross negligence.
4. The Company has entered into a directors and officers liability insurance contract with an insurance company. The said insurance contract will cover damages that may arise due to insured Officers, etc. assuming liability for their execution of duties, or receiving a claim for the pursuit of such liability. If the appointment of Yasuhiro Sato is approved, he will be included among the insured persons under the insurance contract. The said insurance contract is scheduled to be renewed in October 2025 with the same terms and conditions.
5. The age of the candidate indicated is as of the date of this Annual Shareholders' Meeting.

Business Report

(From April 1, 2024, to March 31, 2025)

1. Overview of the Taikisha Group

(1) Business Progress and Results

1) Overview of business

In this fiscal year, the global economy remained unstable due to prolonged geopolitical risks in regions including Eastern Europe and the Middle East, as well as the continued high energy prices and the sense of caution against the tariff policies of the new Trump administration. In the U.S., key interest rates remained high despite the reduction and inflation rates also remained high. On the other hand, economy remained strong due to the increase of personal consumption against a backdrop of the favorable employment and income conditions. In China, the economy slowed down due to sluggish domestic and foreign demand, particularly in the real estate market. In Southeast Asia, the economy remained strong as domestic and foreign demand were recovering with the background of capital investments shifting from China and improvement of labor markets. Japanese economy mildly recovered along with strong personal consumption and inbound demand, despite the ongoing concerns of downward pressures on economy, such as financial policies and geopolitical risks overseas.

Among the market environments of the Taikisha Group, in overseas markets, capital investment by various manufacturers continued to be steady, despite concerns about slowdown in the global economy.

On the other hand, in the domestic market, investments by semiconductor-related and automobile manufacturers, as well as those related to data centers continued, and the demand for the renovations in the metropolitan area was steady.

Under such circumstances, in order to achieve medium- to long-term growth, the Taikisha Group promotes the following initiatives.

Firstly, as an initiative to “improve business operation systems and productivity,” which is stated by the Green Technology System Business in the Mid-Term Business Plan, the Company established the Product Management Dept. in fiscal 2024. This department is promoting the transformation of business processes of onsite operations through front-loading, BIM, human resource development, and expansion of business support.

By actively participating in drawing work and construction planning of large projects from the early designing and construction stages, and utilizing highly accurate BIM models, this department examines construction procedures, costs, and staffing in advance, reflects the plans to actual construction processes, and makes decisions on facilities and specification ahead of time. In addition to reducing on-site workload and improving the accuracy of estimates, these efforts will make it possible to discuss the layout and routes of devices, as well as making proposals on construction in units and design of passage and racks. The Company manages projects from the front-loading perspective, which focuses on such consideration and coordination in the upstream processes to improve the overall quality and efficiency of the project.

As a scrum-based organization, the Product Management Dept. makes prompt response and improvement for diverse tasks, such as BIM, front-loading, and business support with the collaboration of related departments, drives new business flows, and develops people with mindset oriented to digital operations.

Secondly, as an initiative by the Paint Finishing System Business to “establish a firm position in Japan and abroad,” the Company established Taikisha Deutschland GmbH in Germany in June 2024, aiming for business expansion in the European market. As the global automobile markets have recovered to the pre-COVID-19 level and stable demand is expected to continue in future, the Company positions the European market, which plays a key part in market driving technological innovation, as a strategically important market.

Europe is a market where competitors with global top shares in the automobile paint finishing sector have their headquarters. In such a field, the Company will strengthen partnership with key automobile manufacturers and utilize automation technologies to establish a firm position as a supplier who can provide all services related to paint finishing plants. At the same time, the Company will provide solutions

(Translation)

that will contribute to achieving carbon neutrality, by utilizing energy-saving technologies and environmental load reduction technologies that comply with the European regulations.

Currently, the Company is working to obtain an order of a large-scale project from a European automobile manufacturer. Through participation in this construction, the Company aims to deepen its understanding of specification and needs of European manufacturers, so that it will contribute to receive orders from other automobile manufacturers. Moreover, the Company intends to penetrate into aircraft and other diverse industries, by enhancing its automation business. With active participation of national staff members who are well-versed in local affairs, the Company will enhance its presence in the European market, continue contributing to resolution of social issues and clients' issues, and further accelerate its growth in the European market.

Given such circumstances, consolidated orders received increased 5.3% year-on-year to ¥277,403 million, due to an increase overseas, although domestic orders decreased due to the impact of clients' revision of investment timing. This includes orders received overseas, which increased 21.7% year-on-year to ¥140,143 million.

Consolidated net sales of completed construction contracts decreased 5.9% year-on-year to ¥276,212 million, decreasing both in Japan and overseas, mainly due to the reactionary decline of large-scale projects in the previous fiscal year. This includes net sales of completed construction contracts overseas, which decreased 4.5% year-on-year to ¥131,635 million.

In regard to profits, gross profit on completed construction contracts increased ¥1,693 million year-on-year to ¥45,005 million, operating income decreased ¥298 million year-on-year to ¥17,971 million, ordinary income increased ¥85 million year-on-year to ¥19,938 million, and profit attributable to owners of parent decreased ¥4,575 million year-on-year to ¥11,026 million.

Orders received, net sales of completed construction contracts and construction carried forward by each division.

(Millions of yen)

Category		Construction brought forward	Orders received	Total	Net sales of completed construction contracts	Construction carried forward
Green Technology System Division	Building HVAC	39,059	53,795	92,855	36,839	56,015
	Industrial HVAC	104,386	125,402	229,788	132,580	97,208
	Subtotal [Overseas]	143,446 [42,615]	179,197 [60,386]	322,643 [103,002]	169,420 [60,630]	153,223 [42,371]

Earnings by reportable segment (including intersegment transactions)

Green Technology System Division	Consolidated orders received ¥179,197 million (increased 4.2% year-on-year)	Consolidated net sales of completed construction contracts ¥169,443 million (decreased 21.7% year-on-year)
Principal business	Building HVAC: General-purpose HVAC systems for offices, hotels, stores, schools, research institutes, theaters, halls, hospitals, data centers and so forth Industrial HVAC: Industrial HVAC systems, including clean rooms and plant factories, for factories and plants of semiconductors, electronic parts/components, batteries, precision machinery, pharmaceuticals, foods and so forth	

Consolidated orders received increased compared to the previous fiscal year, as orders increased in the building HVAC sector, China, Thailand, and other countries, despite a decline in the industrial HVAC sector in Japan. The consolidated net sales of completed construction contracts decreased compared to the previous fiscal year, mainly due to a reactionary decline from the significant contribution of large-scale projects in the previous fiscal year in the Japanese industrial HVAC sector and Taiwan.

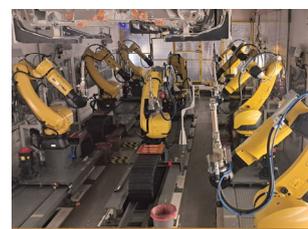

Yamagata plant of TOWA
PHARMACEUTICAL

As a result, consolidated orders received increased 4.2% year-on-year to ¥179,197 million. The breakdown is orders received for building HVAC of ¥53,795 million which increased 48.6% year-on-year and orders received for industrial HVAC of ¥125,402 million which decreased 7.6% year-on-year. Consolidated net sales of completed construction contracts decreased 21.7% year-on-year to ¥169,443 million. The breakdown is sales for building HVAC of ¥36,839 million which decreased 9.6% year-on-year and sales for industrial HVAC of ¥132,603 million which decreased 24.6% year-on-year. Segment profit (ordinary income) decreased ¥1,728 million year-on-year to ¥15,299 million.

Paint Finishing System Division	Consolidated orders received ¥98,205 million (increased 7.2% year-on-year)	Consolidated net sales of completed construction contracts ¥106,956 million (increased 38.8% year-on-year)
----------------------------------------	-----------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------

Principal business Paint finishing systems in factories not only for automobile parts/components such as chassis and bumpers slated for automobile industry but also for construction vehicles, rolling stock, aircraft, general-purpose industrial equipment and the like

Consolidated orders received increased compared to the previous fiscal year, due to increases in India, Korea, and other regions. The consolidated net sales of completed construction contracts increased compared to the previous fiscal year, due to increases in regions such as Japan and North America.

Hungary plant of Suzuki Motor

As a result, consolidated orders received increased 7.2% year-on-year to ¥98,205 million and consolidated net sales of completed construction contracts increased 38.8% year-on-year to ¥106,956 million. Segment profit (ordinary income) increased ¥1,451 million year-on-year to ¥4,256 million.

As for the non-consolidated performance of the Company, orders received decreased 1.7% year-on-year to ¥143,138 million while net sales of completed construction contracts decreased 8.8% year-on-year to ¥144,624 million. Profit of the Company decreased ¥3,358 million year-on-year to ¥10,266 million.

(Translation)

2) Capital expenditures

Major capital expenditures during the fiscal year include the establishment of the Research and Development Center, Taikisha Innovation Site Aikawa (¥3,868 million).

3) Financing

There is nothing of significance to mention for the fiscal year.

(2) Changes in Assets and Income

1) Changes in operating results

(Millions of yen)

	Year ended March 31, 2021 (76th term)	Year ended March 31, 2022 (77th term)	Year ended March 31, 2023 (78th term)	Year ended March 31, 2024 (79th term)	Year ended March 31, 2025 (80th term) This consolidated fiscal year
Orders received	200,469	232,120	288,670	263,549	277,403
Net sales of completed construction contracts	202,548	209,261	214,793	293,556	276,212
Ordinary income	12,287	10,818	13,001	19,852	19,938
Profit attributable to owners of parent	8,279	7,248	7,917	15,602	11,026
Basic earnings per share (Yen)	121.51	106.35	117.31	235.97	169.44
Total assets	228,855	228,159	237,105	266,494	268,448
Net assets	126,311	130,788	131,992	151,562	156,486
Net assets per share (Yen)	1,776.35	1,829.27	1,894.37	2,194.04	2,282.91

(Notes)

1. “Basic earnings per share” is calculated based on the average number of shares outstanding during the year after subtracting treasury shares. “Net assets per share” is calculated based on the total number of issued shares at the end of the year after subtracting treasury shares. The number of treasury shares does not include the number of the Company’s shares held by Custody Bank of Japan, Ltd. (Trust E Account), because of the introduction of the ESOP (Employee Stock Ownership Plan). Meanwhile, the number of treasury shares includes the number of the Company’s shares held by Custody Bank of Japan, Ltd. (Trust E Account), because of the introduction of the BBT (Board Benefit Trust).
2. “Accounting Standard for Revenue Recognition” (ASBJ Statement No. 29, March 31, 2020) and other standards have been applied since the beginning of the 77th term. Changes in assets and income in and after the 77th term represent the figures after applying said accounting standard, etc.
3. The Company conducted a 2-for-1 share split of common share, with an effective date of April 1, 2025. “Basic earnings per share” and “net assets per share” are calculated assuming that the share split was executed at the beginning of the 76th term.

(3) Issues to Be Addressed

1) Basic management policy of the Company

The Taikisha Group will globally expand its business areas and pursue stable and sustainable growth in compliance with the “Customers first” spirit as Taikisha’s corporate philosophy (mission statement), and based on environmentally compliant technologies through our expertise in “Energy, Air and Water” represented by the company name “Taikisha.” To this end, The Taikisha Group will further create an attractive company for all stakeholders and contribute to society.

2) Long-term vision

The Taikisha Group set the long-term vision, “Contribute to a Sustainable Society through Innovative Engineering of Energy, Air and Water” and “Become a global company by combining diverse talents and knowledge, fostering mutual respect.” By realizing these long-term visions, the Taikisha Group aims at increasing its economic value and social value sustainably in a long term.

- a. Contribute to a Sustainable Society through Innovative Engineering of Energy, Air and Water
Innovative Engineering for a Sustainable Society -with energy, air and water-

Though proactively taking on the challenge of solving social issues, in energy-, air- and water-related fields, the Taikisha Group will enhance comprehensive engineering capabilities by trying to achieve technological innovation (tangible aspects), accumulation of knowledge from experience (intangible aspects), intellectual exploration into new domains. The Taikisha Group considers that this will lead to new businesses and new customer development as well as the provision of “solutions for highly specialized customer needs” to existing customers, serving as our differentiation strategy. By differentiating itself from competitors, the Taikisha Group aims to achieve corporate growth as well as the resolution of social issues, that is, contribution to a sustainable society. As an example, the Taikisha Group will make every effort to achieve carbon neutrality in 2050.

(Translation)

- b. Become a global company by combining diverse talents and knowledge, fostering mutual respect
Diversity, Equity & Inclusion as a Global Company

Based on a corporate culture that embraces diversity, which has always been present in the Company, we aim to become a company that can be active in any country as a truly global company where talents working globally with diverse perspectives and insights interact with each other, by respecting the values of each employee and creating a system that allows each employee to demonstrate his or her abilities and generates synergies. Furthermore, the Company considers the creation of new value by combining and fusing diverse human resources and technologies from inside and outside the Company in our business activities, including technological development, as a form of inclusion, and therefore aim to be an inclusive company in these two senses.

3) 10-Year Plan 2035 (FY2025–FY2034)

In the 10-year plan disclosed on May 15, 2025, the Taikisha Group set our goal for 2035: “Be Engineering for a Sustainable Society” (global engineering company dedicated to social sustainability). In response to the demand for progress of production innovation in wide variety of industry sectors and sustainability including decarbonization, the Taikisha Group believes that solving social problems by creating optimal systems by integrating core technologies from various fields is our mission. To realize our goal for 2035, the Taikisha Group has set two strategic policies, “Innovative Engineering” and “Global Inclusion.” In addition, under these two strategic policies, the Taikisha Group set the “eight strategic focal points” for the Company.

a. Two policies

(i) “Innovative Engineering”

The Taikisha Group aims to be a company that contributes to smart and carbon-neutral industrial development by developing systems and mechanisms that provide required functions through combining “element technologies in various engineering fields.”

- Focus on industry sectors

The Taikisha Group will strengthen engineering in advanced industry sectors such as electronics, automotive, pharmaceuticals, and data centers, and demonstrate its uniqueness, which is its “point of origin.”

- Pursuit of “Design, Build & Care”

The Taikisha Group will aim to establish the engineering that creates high value added by providing integrated services from proposal of design to construction and after-sales services.

- Optimization of green transformation (GX) and digital transformation (DX)

The Taikisha Group will promote decarbonization and smartification of production environment of companies that are taking on the challenge of carbon neutrality and digitization, and provide them solutions that utilize cutting-edge technologies.

(ii) “Global Inclusion”

The Taikisha Group will develop businesses that are based on local communities around the world to resolve global environmental and social issues, and aims to be a company that can thrive with industries, societies, and people around the world.

- Global network

The Taikisha Group will strengthen its trusting relationship with industrial communities in Japan and overseas by utilizing the global network across 30 business locations in 20 countries developed over 50 years.

- Global R&D framework

The Taikisha Group will take on the challenge of technology innovation with its five global R&D centers to meet the needs of industrial communities around the world and to provide issue-solving engineering and wide variety of advanced technologies.

- Global and local commitments

The Taikisha Group will contribute to the resolution of global-scale environmental and social issues through business development by people who fully understand the local market needs of various countries around the world.

(Translation)

b. Eight strategic focal points

(i) Active expansion into growth industries

The Taikisha Group will expand its business by focusing on growing industrial markets, such as semiconductors, electronic parts/components, mobility, batteries, biopharmaceuticals, and data centers and responding to technology innovation and market needs. By doing so, the Taikisha Group will provide engineering services that support a sustainable society.

(ii) Global regional strategies

The Taikisha Group will strengthen its global competitiveness by providing required technologies and products and developing strategies that align with the regional characteristics in overseas markets such as North America, India, Europe and ASEAN.

(iii) Development of non-Japanese customers

The Taikisha Group will proceed with the discovery and development of non-Japanese customers that are expected to grow globally through making its technical capability visible and turning its unique technologies into global standard. By doing so, the Taikisha Group aims to transform its Japan-centered customer portfolio.

(iv) Enhancement of intellectual capital

The Taikisha Group will contribute to greening and smartification in a wide variety of industry sectors through the advancement of GX engineering to be achieved by development of new businesses utilizing new technologies that contribute to CO₂ reduction in industries and society and advancement of DX/automation technology to be achieved by advanced factory automation technologies developed in automobile paint finishing system business.

(v) Enhancement of human capital

The Taikisha Group will ensure quantitative and qualitative enhancement of human capital and business process rationalization and efficiency improvement to enhance its ability to address rapidly expanding business opportunities.

(vi) Enhancement of business execution/monitoring structures

The Taikisha Group will strengthen its framework for business promotion and monitoring through various measures, including the establishment of the Growth Strategy Council and the Digital Innovation Committee, strengthening of functions of the Digital Strategy Committee, and group-wide extension of ROIC management.

(vii) Enhancement of global group management infrastructure

The Taikisha Group will strengthen global governance through the initiatives including introduction of the common global IT systems infrastructure, enhancement of IT governance structures, and establishment of the ASEAN Regional Management Dept.

(viii) DX strategy

The Taikisha Group will leverage data analytics and simulations to provide new value, accelerate global collaboration and co-creation, and improve operational efficiency and develop high-profit structures through business process reforms centered on digital infrastructure.

(Translation)

4) Targeted management indices

The financial and non-financial targets under the 10-Year Plan 2035 and the Mid-Term Business Plan are as follows:

(Billions of yen)

Item	Mid-Term Business Plan (March 31, 2028)	Mid-Term Business Plan (March 31, 2031)	Mid-Term Business Plan (March 31, 2035)
Orders received	296.0	–	–
Net sales of completed construction contracts	336.5	400.0	Over 500.0
Ordinary income	22.7	–	–
Profit attributable to owners of parent	15.8	–	–
Return on equity (ROE) (%)	10.3%	11.0%	12.0% or more
Shareholders' equity ratio	40% or more	–	–
Dividend policy (DOE)	4.0%	4.5%	5.0% or more

5) Issues to be addressed preferentially

To realize the long-term vision and our goal for 2035, the Taikisha Group positions the Mid-Term Business Plan starting in the fiscal year ending March 31, 2026 as a three-year period of “restructuring for transformation,” and sets the following as the management issues: implementation of financial strategies, implementation of growth strategies, and development of systems/structures to support growth strategies.

a. Implementation of financial strategies

While considering the optimal capital balance, the Taikisha Group will conduct investment in growth and infrastructure investment to enhance the cash generating power in future, as well as dividend payment as shareholder returns and share buybacks on a steady basis, by utilizing funds from sale of cross-shareholdings, cash flows from operating activities before investment, allocatable funds, and funds from loans.

		(Billions of yen)
Category	Item	Amount
Cash in	Sale of cross-shareholdings	5.0
	Core cash flows (Cash flows from operating activities before investment)	51.5
	Use of allocatable funds (cash and deposits) or loans	16.5
	<u>Total cash in</u>	<u>73.0</u>
Cash out	Business growth investment (R&D, new businesses, etc.)	6.5
	Growth investment	
	Capital allocation (M&A, etc.)*	22.0
	Digital growth investment	7.0
	Human capital investment for growth	2.5
	<u>Investment in growth total</u>	<u>38.0</u>
	Infrastructure investment	3.5
Dividend	16.5	
Share buybacks	15.0	
<u>Total cash out</u>	<u>73.0</u>	

* Regional breakdown of capital allocation

Japan	7.0
North America	7.0
India	5.0
Europe	2.0
ASEAN	1.0
<u>Total</u>	<u>22.0</u>

(Translation)

b. Implementation of growth strategies

(i) Green Technology System Business

As for the market strategy, the Taikisha Group aims to maintain and improve its presence in semiconductor and electronic parts/components markets. In the semiconductor sector, the Taikisha Group will promote enhancement of project structure and offer solutions for precise temperature control in Kyushu and East Asia. In the electric parts/components sector, the Taikisha Group intends to enter into the water treatment business, expand the energy management business, and expand the overseas electrical engineering business. As initiatives to support these, the Taikisha Group will expand and optimize human capital, improve productivity, and strengthen relationships with partner companies in Japan. In ASEAN, the Taikisha Group will establish Management Dept. in Singapore as part of enhancement of the organizational structure, and promote information sharing, human resources enhancement, and establish bases for technology innovation. Furthermore, the Taikisha Group will create a path to carbon neutrality through the development of GX engineering technology, to enhance energy solutions, expand support for resource recycling, and enhance support for environmental compliance.

(ii) Paint Finishing System Business

The Taikisha Group aims to maintain and improve its presence in automotive and non-automotive markets. In the automotive market, the Taikisha Group will promote implementation of dry decoration technology with green factory technologies, proactive marketing to automotive OEMs, advancement of automation with smart factory technologies, and expansion of European customer portfolio. In the non-automotive market, the Taikisha Group will contribute to development of smart industrial HVAC systems by leveraging sales synergy with Green Technology System Business, aiming to apply the painting technologies and the carbon neutral technology it has cultivated in the automotive market to other industries. The Taikisha Group intends to promote smart factories capable of high-mix, low-volume production, explore dry decoration market, use digital twinning technology to provide integrated services from consulting to after-maintenance, and make proposals of GHG reduction solutions as part of factory operation consulting. Especially in the battery industry, the Taikisha Group will create new value by offering new production line development technologies in response to growing demand for battery plant construction, by utilizing technology synergies between the Green Technology System Business and the Paint Finishing System Business.

(iii) New businesses

Under the Business Development Headquarters, the Taikisha Group will create a unified structure capable of integrating all tasks from surveys and R&D to operations and business development, and advance toward our medium- to long-term business creation goals by further strengthening inter-process linkage. In addition to working for enhancement of the business development infrastructure, the Taikisha Group will proceed with exploitation of unknown/undeveloped areas from the three perspectives, technologies, industries, and regions, through convergence of diverse technologies through the internal and external networks. Specifically, the Taikisha Group will promote new businesses that will resolve environmental and social issues, such as processing of heat energy and exhaust gases, contribution to circular economy, and carbon capture, utilization, storage.

c. Development of systems/structures to support growth strategies

- Enhancement of business execution/monitoring structures

In addition to enhancing management resource allocation strategy and digital strategy governance by establishing the Growth Strategy Council and the Digital Innovation Committee, the Taikisha Group will promote the digital strategies by establishing five subcommittees for the following themes under the Digital Strategy Committee: 1) company-wide BIM, 2) global communications, 3) IT governance and information security, 4) proactive utilization of AI, and 5) electronic procurement.

- Strengthening of global governance

The Taikisha Group will strengthen the global governance by introducing systems, including the Group Corporate Officer System to allow top national managers (CEO) of overseas affiliates to participate in the Group management, the new management accounting system to continuously promote long-term investments by enhancing investment incentives, such as growth investment, and the common global IT systems infrastructure.

- Development of global human resources portfolio management

Toward the creation of global human capital portfolio management system, the Taikisha Group will start development and administration of human capital database for overseas affiliates, firstly in the

(Translation)

ASEAN region. The Taikisha Group will seek effective administration through visualization and management using technology record sheets. For new graduates and mid-career recruitments, the Taikisha Group will utilize scholarship programs, partnerships with universities, and conduct scouting to acquire specialized personnel. Furthermore, the Taikisha Group will enhance the human resource development systems for overseas markets, develop attractive evaluation and remuneration systems, and promote measures to improve loyalty and engagement to strengthen the human resources base with global talents.

6) Capital dividend policy

The Company adopted a fundamental policy of implementing steady dividends targeting a consolidated dividend on equity ratio of 3.2%, with profit return to shareholders through dividends as one of our most important measures, from the fiscal year ended March 31, 2023. From the fiscal year ending March 31, 2026, the fundamental policy is to implement steady dividends targeting a consolidated dividend on equity ratio of 4.0%, as stated in the Mid-Term Business Plan (FY2025–FY2027) issued on May 15, 2025. In addition, the Group will flexibly purchase and retire treasury shares in order to improve capital efficiency and promptly implement financial policies.

The amount of treasury shares to be purchased during the period of the Mid-Term Business Plan is ¥5.0 billion per year. For the fiscal year ending March 31, 2026, purchase of treasury shares worth ¥5.0 billion has already been resolved at the Board of Directors meeting held on May 15, 2025.

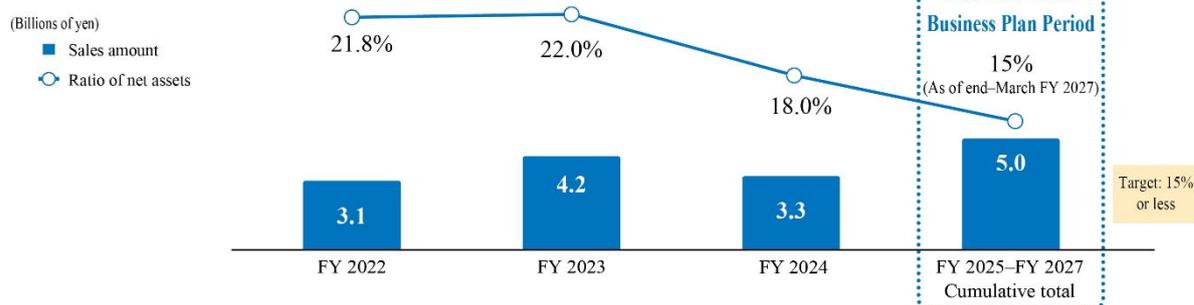

7) Plan to sell cross-shareholdings

In the previous Mid-Term Business Plan, the Taikisha Group set out a plan to reduce cross-shareholdings to less than 20% of net assets by the second year of the Mid-Term Business Plan. Although the target to reduce cross-shareholdings to less than 20% of net assets by the second year of the Mid-Term Business Plan was not achieved affected by rising share prices, in the fiscal year ended March 31, 2025, the final year, the ratio to net assets was 18.0%, achieving the target of less than 20%.

In the new Mid-Term Business Plan starting from the fiscal year ending March 31, 2026, the Group set the sales amount target of ¥5.0 billion in total during the period of the Mid-Term Business Plan and the target of the ratio of cross-shareholdings to net assets of 15% or less as of March 31, 2028, the end of the final year. We will continue to make progress in sale of cross-shareholdings.

	Previous Mid-Term Business Plan Period Actual			New Mid-Term Business Plan Period Plan
	FY 2022	FY 2023	FY 2024	FY 2025–FY 2027
Sales amount	¥3.1 billion	¥4.2 billion	¥3.3 billion	Cumulative total of ¥5.0 billion
Ratio of net assets	21.8%	22.0%	18.0%	15% or less (As of end-March FY 2027)

(Notes)

- For the companies marked with “1,” the percentage of voting rights held by the Company includes the equity investment by the Company’s subsidiaries.
- The company marked with “2” is a “limited liability company” under U.S. laws; the “Capital” is not stated in the table because the concept precisely falling under such “capital” does not exist.
- Although the Company’s equity in the company marked with “3” is less than 50%, this company is included in the category of “consolidated subsidiaries” as the Company substantially controls it.
- The company marked with “4” was newly established in the fiscal year ended March 31, 2025, and is therefore a consolidated subsidiary.
- Token Myanmar Co., Ltd. has been excluded from the scope of consolidation due to the completion of liquidation during the fiscal year ended March 31, 2025.

(5) Principal Business

The Taikisha Group is mainly engaged in the design, supervision and installation of HVAC systems and paint finishing systems in Japan and overseas, as well as in the manufacture and sales of related equipment and materials. Major markets and client fields for each business segment are as follows:

Green Technology System Division	<ul style="list-style-type: none"> • General-purpose HVAC systems for offices, hotels, stores, schools, research institutes, theaters, halls, hospitals, data centers and so forth • Industrial HVAC systems, including clean rooms and plant factories, for factories and plants of semiconductors, electronic parts/components, batteries, precision machinery, pharmaceuticals, foods and so forth
----------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

(Translation)

Paint Finishing System Division	• Paint finishing systems in factories not only for automobile parts/components such as chassis and bumpers slated for automobile industry but also for construction vehicles, rolling stock, aircraft, general-purpose industrial equipment and the like
---------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

(Notes)

- The Company holds 1,006,240 treasury shares but are excluded from the list of major shareholders above. The above treasury shares do not include 149,400 shares of the Company held by Custody Bank of Japan, Ltd. (Trust E Account), because of the introduction of the Board Benefit Trust (BBT).
- The “Percentage of shares held to the total number of issued shares” is calculated by subtracting treasury shares from all issued shares.

(4) Other Share-Related Significant Matters

1) Share split

The Company resolved at a meeting of its Board of Directors held on February 10, 2025 to conduct a 2-for-1 share split of common share, and revise its Articles of Incorporation for the total number of shares authorized in accordance with the provisions of the Article 184, Paragraph 2 of the Companies Act, effective on April 1, 2025.

As a result, the total number of shares authorized and the total number of issued shares were changed to 200,000,000 shares and 67,164,018 shares, respectively, on the effective date of April 1, 2025.

2) Acquisition of treasury shares

The Company has completed the acquisition of treasury shares, which was resolved at the Board of Directors Meeting held on May 15, 2024, as follows.

(1) Total number of shares acquired	396,400 shares
(2) Total price of shares acquired	1,999,670,500 yen
(3) Period of acquisition	From May 16, 2024 to December 31, 2024
(4) Reason for acquisition	To enhance shareholder returns and to increase capital efficiency as well as to enable the Company to implement a flexible capital strategy in response to changes in the business environment.

(Translation)

3) Board Benefit Trust (BBT)

The Company has introduced a Board Benefit Trust (BBT) (hereinafter referred to as the “System”), which is a performance-linked stock-based compensation plan, meant to further clarify the link between the compensation of Executive Directors and the Company’s operating performance and stock value, thereby enhancing their motivation to contribute to the improvement of operating performance in the medium and long term and to boost corporate value. On April 1, 2023, Corporate Officers were added to those eligible for stock benefits under the System.

Under this System, in accordance with the Director Stock Benefit Rules and Corporate Officer Stock Benefit Rules established in advance by the Company, Executive Directors and Corporate Officers of the Company who satisfy certain requirements can receive the Company’s shares after their retirement. The said shares including the future portion are acquired in advance, through money designated to the trust, and are managed separately as trust assets.

3. Share Subscription Rights (Shinkabu Yoyakuken) of the Company, etc.

Not applicable.

(2) Outline of limited liability agreement

The Company has concluded limited liability agreements respectively with all Directors who are not executive directors and all Audit & Supervisory Board Members to limit their liability for damages under Article 423, Paragraph 1 of the Companies Act, in accordance to the provision of Article 427, Paragraph 1 of the Act.

The liability for damages both for such Directors and Audit & Supervisory Board Members pursuant to the agreements is up to the minimum liability amount provided for in laws and regulations.

(3) Outline of directors and officers liability insurance contract

The Company has entered into a directors and officers liability insurance contract with an insurance company. The said insurance contract will cover damages that may arise due to insured Officers, etc. assuming liability for their execution of duties, or receiving a claim for the pursuit of such liability. All Directors, Audit & Supervisory Board Members and Corporate Officers, etc. of the Company and its subsidiaries are insured under the said insurance contract. The insurance premiums are fully borne by the Company. Also, the Company takes the following measure to prevent the appropriateness of duty execution by Officers, etc. from being compromised: the insurance contract does not cover personal damages, etc. of the Officer arising from his/her criminal acts, or acts committed with the knowledge that they violate the law.

(4) Compensation, etc. of Directors and Audit & Supervisory Board Members in the fiscal year

- 1) Matters regarding policy for determining details of compensation, etc. of individual Directors and Audit & Supervisory Board Members

a. Policy

The Company has determined the policy concerning the amount of compensation to Directors and Audit & Supervisory Board Members and the calculation method thereof, and the details of the policy are as follows.

(i) Basic views on the system of compensation

The compensation to Executive Directors (Directors who concurrently serve as Corporate Officers) is composed of basic compensation, which is fixed compensation, and bonus and stock-based compensation, which are performance-linked compensation. The amount of bonus and stock-based compensation fluctuates in close correlation with evaluations of the financial indicators (consolidated ordinary income) and the non-financial indicators (initiatives for long-term strategies (including sustainability, investment in human capital and intellectual property, etc.) and strengthening of governance) to serve as an incentive for achieving their performance goals. Compensation to Non-Executive Directors (Outside Directors and Directors who do not concurrently serve as Corporate Officers; hereinafter the same applies) and Audit & Supervisory Board members is limited to basic compensation and no bonus and stock-based compensation shall be paid.

(Translation)

(ii) Compensation structure

a. Compensation to Directors and Audit & Supervisory Board Members is composed of basic compensation, which is fixed compensation, and bonus and stock-based compensation, which are performance-linked compensation. The types of compensation applicable according to officer classification are as follows:

- Executive Directors: Basic compensation, bonuses, stock-based compensation
- Non-Executive Directors: Basic compensation
- Audit & Supervisory Board Members: Basic compensation

b. The ratio of fixed compensation to performance-linked compensation (total bonus and stock-based compensation) within the total compensation paid to Executive Directors shall be approximately 5:5 based on the standard payment amount, and shall change depending on the “(iii) Performance-linked compensation scheme” below.

(iii) Performance-linked compensation scheme

Performance-linked compensation is composed of bonus and stock-based compensation, with an amount equivalent to 50% paid as bonus and 50% as stock-based compensation. Performance-linked compensation is evaluated based on financial indicators (consolidated ordinary income) and non-financial indicators (initiatives for long-term strategies (including sustainability, investment in human capital and intellectual property, etc.) and strengthening of governance), with the evaluation ratio being 70% for financial indicators and 30% for non-financial indicators. For the 30% portion of the non-financial indicators, the payment rate will fluctuate within the range of 70% to 130%, depending on the degree of target achievement.

Consolidated ordinary income is one of the key KPIs in the Company’s Mid-Term Business Plan, and is thus selected as a financial indicator for the calculation of performance-linked compensation. In addition to the base payment amount equal to a fixed percentage of consolidated ordinary income, if consolidated ordinary income exceeds a certain amount, an amount obtained by multiplying the base payment by the ratio of excess performance shall be paid as an extra payment, which is expected to serve as an incentive for achieving numerical targets in the Mid-Term Business Plan, thereby further improving the Company’s operating performance. In addition, a fixed percentage (30%) of the total amount will be evaluated based on these non-financial indicators in order to provide an incentive to further strengthen initiatives for sustainability, investment in human capital and intellectual property, and governance as part of the long-term strategy.

The bonus is paid in cash after the Company’s operating performance is finalized. For stock-based compensation, points are granted after the Company’s operating performance is finalized. The points granted will be provided, in principle, to Executive Directors at the time of their retirement in the form of the Company’s shares or cash equivalent to the fair value thereof.

(iv) Level of compensation

The Compensation Advisory Committee verifies the level of compensation by analyzing and comparing compensation data of industry peer companies from survey data compiled by a third-party organization.

b. Methods for decisions on compensation

Based on “a. Policy (i) Basic views on the system of compensation” above, the Representative Director, President, delegated by the Board of Directors, determines the system and level, etc. of Directors’ compensation upon consultation with the Compensation Advisory Committee, which is chaired by an Outside Director. The compensation details thus determined are reported to the Compensation Advisory Committee. In this manner, the Company improves the objectivity and transparency of the process for determining compensation.

c. Methods for decisions on policy

The policy for compensation, etc. of Directors and Audit & Supervisory Board Members is determined by the Board of Directors upon consultation with the Compensation Advisory Committee.

(Translation)

2) Matters regarding resolution of Shareholders' Meeting for compensation, etc. of Directors and Audit & Supervisory Board Members

	Type of compensation		Recipient	Date of resolution
Directors	Fixed compensation	Basic compensation	All Directors	June 27, 2024 Within ¥540 million per year (Of which that for Outside Directors to be within ¥70 million per year; excluding employee salaries for Directors concurrently serving as employees)
	Performance-linked compensation	Bonus	Executive Directors	
		Stock-based compensation	Executive Directors	June 27, 2019 Within ¥450 million for every three fiscal years
Audit & Supervisory Board Members	Fixed compensation	Basic compensation	All Audit & Supervisory Board Members	June 27, 2024 Within ¥90 million per year

3) Matters regarding delegation of decisions regarding details of compensation, etc. of individual Directors

At the Company, based on the resolution of delegation by the Board of Directors, the Representative Director, President can decide the specific details of compensation, etc. of individual Directors within the scope of the policy and scheme stated in "1) a. Policy," on the premise that the decisions are in accordance with the compensation amount approved at a Shareholders' Meeting, and he fully respects recommendations from the Compensation Advisory Committee. For the fiscal year ended March 31, 2025, the Representative Director, President Masashi Osada has decided the details.

Such decisions are delegated to the Representative Director, President as the Company has deemed that he is the most suitable person to determine the individual compensation of each Director, since the Representative Director, President conducts evaluations of the duties and responsibilities that each Director is in charge of, based on the overall operating results of the Taikisha Group.

Upon consultations with and reports on results to the Compensation Advisory Committee by the Representative Director, President, the Company improves the objectivity and transparency of the decision-making process regarding compensation. Therefore, the Board of Directors has deemed that the details of compensation of individual Directors are in accordance with the Company's policy for determining compensation.

4) Total amount, etc. of compensation, etc. to Directors and Audit & Supervisory Board Members

Category	Total amount of compensation, etc.	Total amount of compensation, etc. by type			Number of persons
		Fixed compensation	Performance-linked compensation		
		Basic compensation	Bonus	Stock-based compensation	
Directors (excluding Outside Directors)	¥546 million	¥208 million	¥169 million	¥169 million	5
Outside Directors	¥57 million	¥57 million	–	–	5
Audit & Supervisory Board Members (excluding Outside Audit & Supervisory Board Members)	¥47 million	¥47 million	–	–	2
Outside Audit & Supervisory Board Members	¥40 million	¥40 million	–	–	5

(Notes)

- The amounts of compensation, etc. to Directors include ¥169 million in bonuses expected to be paid and ¥169 million in stock-based compensation expected to be paid relating to the fiscal year.
- Details of the performance indicators selected as the basis for calculating the amount of performance-linked compensation, reasons for selecting the said performance indicators and the calculation method of the amount of performance-linked compensation are stated in "4. (4) 1) a. (iii) Performance-linked compensation scheme." The trend of consolidated ordinary income, including this fiscal year, is stated in "1. (2) Trends of assets and income and losses" (available only in Japanese).

5. Accounting Auditor

(1) Designation of the Accounting Auditor

A&A Partners

(2) Accounting Auditor's Compensation, etc., Pertaining to the Fiscal Year Ended March 31, 2025

A&A Partners	Amount of compensation, etc.	¥82 million
	Cash and other profits payable by the Company and its subsidiaries to the Accounting Auditor	¥82 million

(Notes)

1. The Audit & Supervisory Board of the Company examined the status of executed duties for the preceding fiscal years, the grounds for calculating the estimated compensation and other factors with required materials and reports, which were obtained and/or heard from the Directors, relevant in-house departments/sections and the Accounting Auditor. As a result, judging that the compensation amounts above are fair and reasonable, the Audit & Supervisory Board has given its consent, as set forth in Article 399, Paragraph 1, of the Companies Act, with regard to compensation, etc., to the Accounting Auditor.
2. Under the audit agreement between the Company and the Accounting Auditor, compensation to audits pursuant to the Companies Act and audits pursuant to the Financial Instruments and Exchange Act are not strictly separated and otherwise cannot be substantially distinguished from each other. Consequently, the above amount reflects total compensation.
3. The Company's overseas subsidiaries are audited by Certified Public Accountants or audit corporations (including those with comparable qualifications abroad) other than the Company's Accounting Auditor.

(3) Non-Audit Services

Not applicable.

(4) Policy regarding Determination of Dismissal or Non-Reappointment of Accounting Auditor

In the event that the Accounting Auditor is deemed to have fallen under any of the grounds set forth in the items of Article 340, Paragraph 1, of the Companies Act, and his or her dismissal is judged to be appropriate, the Audit & Supervisory Board shall decide such dismissal subject to the unanimous consent of Audit & Supervisory Board Members. In that case, the dismissal of said Accounting Auditor and reasons therefor will be reported by an Audit & Supervisory Board Member designated by the Audit & Supervisory Board at the first shareholders' meeting to be convened after the dismissal.

In addition, should the Accounting Auditor be deemed unable to perform an audit properly, the Audit & Supervisory Board shall decide the details of a proposal for the dismissal or non-reappointment of the Accounting Auditor to be submitted to the shareholders' meeting, based on the provisions stipulated in Article 344 of the Companies Act.

6. The Company's Systems to Ensure Proper Execution of Business, as well as Operational Status of Said Systems

(1) Systems to Ensure Proper Execution of Business

The Board of Directors of the Company has determined its basic policy for the systems to ensure proper execution of business (the internal control system), which is set forth in the Companies Act and the Ordinance for Enforcement of the Companies Act, as follows (partially revised on March 28, 2024):

[Objectives]

The Company shall provide for the basic policy for improvement and operation of the internal control system of the Company and the Taikisha Group as follows, pursuant to the Companies Act and the Ordinance for Enforcement of the Companies Act, in order to familiarize and thoroughly carry out execution of observance of the laws and regulations, and to ensure proper and efficient business operation.

[Specific contents]

1. The System to Ensure the Appropriateness of Operations in the Taikisha Group

- (1) The Company shall provide for Mission Statement "Customers First", Corporate Philosophy, and Management Vision, as well as remind all persons involved about and realize them.
- (2) The Company shall appoint appropriate and diverse Directors who can contribute to realization of materiality which the Taikisha Group shall address, assess them properly, and establish the Director compensation system which provides a strong incentive. In order to ensure transparency in appointment of Directors and the Director compensation system, the Nomination Advisory Committee and the Compensation Advisory Committee shall be established, which are chaired by an Outside Director.
- (3) The Board of Directors shall resolve policies and measures for improving and establishing the optimal governance system to the Company and the Taikisha Group, and monitor its operation status on a regular basis. Through consultation on the resolutions with the Governance Committee which is chaired by an Outside Director and composed mainly of Outside Officers, the governance system shall be further optimized.
- (4) The Internal Control Committee composed of Executive Directors shall, as an executive body on the executive side, implement measures for improving and establishing the optimal governance system on the basis of resolutions by the Board of Directors.
- (5) The Board of Directors shall recognize the risks and opportunities concerning about the Sustainability of the Company and the Group, resolve measures to address such risks and opportunities, and monitor its operation status on a regular basis. Through consultation on the resolutions with the Sustainability Committee which is chaired by an Outside Director and composed of Outside Officers and Executive Directors, the governance system shall be further optimized.
- (6) The Company shall provide for the Affiliate Management Rules to establish management systems of the group companies including an improvement of the reporting system to the Company, make operations of the group companies appropriate, and improve management efficiency of the entire Taikisha Group.
- (7) The Company shall carry out audits for the Company and group companies by the Internal Audit Department on a regular basis in accordance with the Internal Audit Rules. As a result of the internal audits, when a risk of loss for the Company and group companies is found, Directors, Audit & Supervisory Board Members, and other responsible departments shall be so reported and immediately take appropriate measures.
- (8) The Company shall set the Basic Rules for Internal Control, and improve a system for ensuring appropriateness and reliability concerning financial reports.
- (9) As a Company with an Audit & Supervisory Board, the Company shall establish the audit system set forth in 6 to 7 of this basic policy. With said system, Audit & Supervisory Board Members shall audit improvement and operation status of the internal control system of the Company and group companies on a regular basis.

2. The System to Ensure Execution of Duties in Conformity with Laws and Regulations, and the Articles of Incorporation

- (1) The Company shall establish the Taikisha Ltd. Code of Conduct, make all Directors and employees aware of legal compliance, and promote the improvement of the compliance system. At the Compliance Committee chaired by the Representative Director, President, issues on compliance in the entire business shall be considered and dealt with, and a status of compliance shall be verified.
- (2) The Company shall, as the Whistle-blowing System, have in place an internal reporting system reporting to the Corporate Compliance Department and an external reporting system reporting to an

(Translation)

independent outside attorney. If a risk such as legal violation is found in the Company and group companies, appropriate measures shall be taken immediately.

- (3) In the event of signs of a significant event, the Corporate Compliance Committee consisting of all officers, the General Manager of the Corporate Compliance Department, and the General Manager of the Internal Audit Department shall be convened promptly in order to deal with such event.
- (4) The Company shall refuse any involvement of Anti-Social Forces in its business, reject any requirement from them, and prohibit all Directors and employees of the Company and group companies to have any relationship with them in order to thoroughly exclude Anti-Social Forces.

3. The System regarding Risk Management

(Under usual condition)

- (1) The Company shall establish the Risk Management Rules and, at the Risk Management Committee, identify risks of the Company and group companies in an integrated fashion and implement effective and efficient risk management.
- (2) Depending on risks identified by the Risk Management Committee, each department shall formulate and implement specific countermeasures. Progress and results shall be reported to the Board of Directors via the Risk Management Committee.

(In a contingency)

- (3) For the purpose of response to exposed potential major risks (hereinafter referred to as crisis) and management thereof, the Company shall establish the Crisis Management Committee. In the event that crisis breaks out, the Company shall, in accordance with the basic policy of crisis management, establish the crisis management team or the crisis task force to respond to the crisis under the supervision of the Crisis Management Committee. The Company shall also establish a business continuity plan to restore the damage caused by the crisis.

4. The System regarding the Storage and Management of Information Related to the Execution of Duties

- (1) Information and documents related to execution of duties shall be handled pursuant to internal rules and regulations, especially the Information Security Rules and Document Management Rules, and shall be appropriately stored, managed and disposed of.
- (2) The Company shall have in place a system to disclose information concerning corporate activities in a timely and appropriate manner in accordance with laws and regulations, as well as the disclosure requirements of Tokyo Stock Exchange, etc.

5. The System to Ensure the Efficient Execution of Duties

- (1) Based on the Board of Directors Rules, Rules for Managerial Approval, and other internal rules, the Board of Directors shall resolve and monitor important matters. In relation to matters submitted to the Board of Directors, adequate materials shall be delivered in advance, and enough time for deliberation shall be ensured. The criteria for submission to the Board of Directors shall be appropriately checked and reviewed.
- (2) With a corporate officer system, responsibilities and authorities of corporate management and duty execution shall be clarified, aiming for revitalization of the Board of Directors and promotion of rapid decision making.
- (3) The Management Meeting, mainly consisting of the Executive Directors, shall carry out sufficient deliberations and prompt decision making on management issues and specific matters of the Company and the Taikisha Group delegated by the Board of Directors.
- (4) With the Company's Corporate Philosophy as a foundation, each departmental headquarters and business divisions, after the Policy Review Meeting, shall establish an appropriate annual policy and annual target, and shall work in order to achieve those targets.

6. The System regarding Reporting to the Audit & Supervisory Board Members

- (1) When finding the following matters, Directors and employees shall immediately report to Audit & Supervisory Board Members.
 - i) Matters which may cause serious harm to the Company and group companies
 - ii) Significant violation of laws and regulations or internal rules concerning execution of duties by the Company and group companies
 - iii) Violation of laws and regulations and the Articles of Incorporation by Directors and employees or facts that may lead to such violations
- (2) The manager of the responsible department of the Company who received a report from group

(Translation)

companies shall make a report at a meeting at which the Audit & Supervisory Board Members are present or as necessary to the Audit & Supervisory Board Members of the Company in accordance with the Affiliate Management Rules.

- (3) The Internal Audit Department shall report an internal audit plan and audit results to the Audit & Supervisory Board Members on a regular basis.
- (4) The Corporate Compliance Department shall report operation status of the Whistle-blowing System, matters reported, and contents of consultations to the Audit & Supervisory Board Members on a regular basis.
- (5) Internal approval documents and proceedings of important meetings, etc. shall be always available for the Audit & Supervisory Board Members.
- (6) The Corporate Compliance Department shall, at the request of the Audit & Supervisory Board, monitor and supervise the situation so that the person who made a report is not treated in a disadvantageous manner because he or she made such report.

7. System to Ensure the Effective Implementation of Audits by Audit & Supervisory Board Members

- (1) Other than the Board of Directors meeting, Audit & Supervisory Board Members may attend the Management Meeting, and other important meetings to express opinions.
- (2) Directors and employees shall, upon request from Audit & Supervisory Board Members, explain matters concerning business execution.
- (3) The Representative Director, the Chief Executive of the Administrative Management Headquarters, and the General Manager of the Internal Audit Department shall arrange meetings and consultations in order to thoroughly discuss and examine the improvement of the environments for audits conducted by Audit & Supervisory Board Members, and shall ensure the effectiveness of such audits.
- (4) Audit & Supervisory Board Members may make requests for improvement of the audit system and other related matters in order to ensure the effectiveness of audits conducted by them.
- (5) The Company shall establish the Audit & Supervisory Board Members Office under the Audit & Supervisory Board Members and appoint employees who shall assist with the Audit & Supervisory Board Members' duties.
- (6) Consent from Audit & Supervisory Board Members shall be required for appointment, dismissal and transfer of those employees from positions and personnel evaluation, and the Company shall ensure that they are independent of Directors and instructions to them are effective.
- (7) Audit & Supervisory Board Members may request that any expenses incurred with respect to the execution of duties be paid in advance or reimbursed in accordance with the provisions of the Audit & Supervisory Board Rules.

(2) Summary of Operational Status of the Systems to Ensure Proper Execution of Business

The operational status of the internal control system for the fiscal year ended March 31, 2025, was as follows:

1) Compliance-related Initiatives

During the fiscal year, 12 Compliance Committee meetings were held to examine and discuss the compliance-related issues of the Taikisha Group and verify the status of compliance with laws and regulations.

To raise the awareness of compliance among officers and employees, the Company took several measures such as transmitting information via its intranet, posting posters for enlightenment, holding workshops to explain compliance manuals and training officers and employees (e.g., e-learning and staff training at various locations). The Corporate Compliance Department disseminated regularly the internal reporting systems via its intranet and posters.

2) Risk Management-related Initiatives

Two Risk Management Committee meetings were held to examine and discuss basic policies on the risk management of the Taikisha Group. In addition to identifying risks for the Company and the Taikisha Group in an integrated manner and conducting effective and efficient risk management, regarding risks associated with departmental operations, pursuant to the basic policy on risk management, each department identified risks, drafted and implemented specific measures against the risks, and reported their status to the Risk Management Committee.

3) Initiatives to Ensure the Appropriateness and the Efficiency of the Execution of Duties by Directors

Fifteen Board of Directors meetings were held for decision making of the Taikisha Group's management policies and important management issues, as well as for monitoring the execution of

(Translation)

duties by Directors with reference to reports on their business execution.

Twenty-six Management Meetings were held to deliberate and make decisions on important execution of business entrusted by the Board of Directors and the matters to be submitted to the Board of Directors.

4) Initiatives to Ensure the Appropriateness of Operations Conducted by the Taikisha Group

Regarding the important matters stipulated in the Affiliate Management Rules, we received reports from subsidiaries. In addition, we regularly checked compliance with the Affiliate Management Rules by subsidiaries.

5) Initiatives to Ensure the Effectiveness of Reporting to Audit & Supervisory Board Members and the Audits by Audit & Supervisory Board Members

Audit & Supervisory Board Members attended the meetings of the Board of Directors, the Management Meeting and other important meetings to understand the execution of duties by directors, and collected information and received reports from the directors, employees and other relevant personnel regarding performance of their duties.

The Internal Audit Department timely reported the results of its internal audits within the Group to the Board of Directors and reported the executed status of the audit plan and internal audits, the results of audits and other related matters to the Audit & Supervisory Board Members.

## Notes to Consolidated Financial Statements

### [Notes regarding the Basis for Preparing Consolidated Financial Statements]

#### 1. Scope of consolidation

|                                     |                                                                                                                                                                                                                                                                                                                                                                                        |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Number of consolidated subsidiaries | 32                                                                                                                                                                                                                                                                                                                                                                                     |
| Names of significant subsidiaries   | San Esu Industry Co., Ltd.<br>Taikisha USA, Inc.<br>Taikisha (Thailand) Co., Ltd.<br>WuZhou Taikisha Engineering Co., Ltd.<br>From this consolidated fiscal year, the newly established Taikisha Deutschland GmbH has been included in the scope of consolidation. In addition, the Group has excluded Token Myanmar Co., Ltd. from the scope of consolidation due to the liquidation. |

#### 2. Application of the equity method

##### (1) Number and names of associates subject to the equity method

|                      |                                                                                                         |
|----------------------|---------------------------------------------------------------------------------------------------------|
| Number of associates | 2                                                                                                       |
| Names of associates  | FreDelish Co., Ltd.<br>Tianjin Dongchun-Taiki Metal Finishing & Conveyor System Manufacturing Co., Ltd. |

##### (2) Name of associate not subject to the equity method

|                                           |                                                                                                                                                                                                                                                                                                                                                                             |
|-------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Name of associate                         | Makiansia Engineering (M) Sdn. Bhd.                                                                                                                                                                                                                                                                                                                                         |
| Reason for not applying the equity method | The associate not subject to the equity method is excluded from the scope of application of the equity method because even if it is excluded from the scope of application of the equity method, it has minor impact on net income (proportionate to equity holdings), retained earnings (proportionate to equity holdings), etc., in the consolidated financial statement. |

#### 3. Accounting policies

##### (1) Standards and methods for valuation of significant assets

|                                                                    |                                                                                                                                                                                                                                                                  |
|--------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Securities                                                         |                                                                                                                                                                                                                                                                  |
| Held-to-maturity debt securities                                   | Amortized cost method (straight-line method)                                                                                                                                                                                                                     |
| Shares of associates                                               | Stated at cost using the moving average method                                                                                                                                                                                                                   |
| Available-for-sale securities                                      |                                                                                                                                                                                                                                                                  |
| Securities other than shares, etc. that do not have a market price | Stated at fair value based on the market prices at the end of the fiscal year. (Valuation difference is reported as a separate item in net assets at net-of-tax amount. The cost of securities sold is stated at cost, determined by the moving average method.) |
| Shares, etc. that do not have a market price                       | Stated at cost using the moving average method                                                                                                                                                                                                                   |
| Derivatives                                                        | Stated at fair value                                                                                                                                                                                                                                             |
| Inventories                                                        |                                                                                                                                                                                                                                                                  |
| Costs on uncompleted construction contracts                        | Stated at cost using the specific identification method                                                                                                                                                                                                          |
| Raw materials and supplies                                         | Stated at cost determined by the moving average method (The amounts stated in the balance sheets are calculated by writing down the book value based on the decline in profitability.)                                                                           |

(Translation)

(2) Depreciation method for principal depreciable assets

Property, plant and equipment  
(excluding leased assets)

The declining-balance method is mainly applied. However, the straight-line method is applied to buildings (excluding facilities attached to buildings) acquired on or after April 1, 1998, and is applied to facilities attached to buildings and structures acquired on or after April 1, 2016. Certain overseas consolidated subsidiaries apply the straight-line method. The useful lives and residual values of depreciable assets are estimated mainly in accordance with the Corporation Tax Act.

Intangible assets  
(excluding leased assets)

The straight-line method is applied. However, computer software for internal use is amortized by the straight-line method over the estimated internal useful life (5 years). Customer-related assets are amortized by the straight-line method over the effective period (10 years).

Leased assets

Leased assets under finance leases that do not transfer ownership of the leased assets to the lessee are depreciated by the straight-line method over the lease period with a residual value of zero.

(3) Standards of accounting for principal allowance and provisions

Allowance for doubtful accounts

In order to prepare for losses due to bad debts such as accounts receivable from completed construction contracts and other, the allowance for doubtful accounts is provided at the estimated amount of uncollectable debt. For receivables classified as “normal,” it is provided based on a historical default ratio. For receivables classified as “doubtful” etc., it is provided based on individual assessment on the probability of collection.

Provision for warranties for completed construction

In order to prepare for the costs of repairs for damages related to completed construction work for which the Company and its consolidated subsidiaries (collectively, the “Companies”) are responsible, the provision is provided based on past warranty experience.

Provision for loss on construction contracts

In order to prepare for future losses related to the construction contracts in process, the provision is provided based on estimated amount which will probably be incurred and which can be reasonably estimated.

Provision for directors’ bonuses

In order to prepare for directors’ bonuses, the provision is provided based on the estimated payment of the fiscal year.

Provision for directors’ retirement benefits

In order to prepare for directors’ retirement benefits, domestic consolidated subsidiaries recognize the provision for accrued retirement benefits to directors at 100 percent of the amount required by their internal policies for retirement benefits.

Provision for shared awards

In order to prepare for shared-based remuneration to corporate officers upon their retirements, the estimated amount of provision for share-based obligation as of the fiscal year end is provided based on the Corporate Officer Stock Benefit Rules.

Provision for share awards for directors

In order to prepare for share-based remuneration to executive directors upon their retirements, the estimated amount of provision for share-based obligation as of the fiscal year end is provided based on the Director Stock Benefit Rules.

(4) Accounting standards for revenues and expenses

The details of the main performance obligations in the major businesses related to revenue from contracts with the Taikisha Group's customers and the timing at which the Company typically satisfies these performance obligations (when it typically recognizes revenue) are as follows:

1) Construction contracts, etc.

In the Green Technology System business and the Paint Finishing System business, performance obligations for construction contracts, etc. mainly involving design, supervision, and installation are deemed to be satisfied over time, and revenue is recognized based on progress toward complete satisfaction of a performance obligation.

The progress of satisfaction of performance obligations in revenue recognition over time is measured by the ratio of incurred costs to estimated total costs (input methods). In addition, revenue is recognized by cost recovery method in case incurred costs are expected to be recoverable though the progress of satisfaction of performance obligations cannot be reasonably measured.

2) Sales of equipment and materials

In the green technology system business and the paint finishing system business, performance obligations for sales of equipment and materials are deemed to be satisfied at a point in time, and revenue is recognized when products are delivered.

(5) Other important matters for presenting the Consolidated Financial Statements

Important methods of hedge accounting

1) Method of hedge accounting

Accounted for using the deferral method of accounting. With regard to forward exchange contracts that meet the requirements for deferral hedge accounting, deferral hedge accounting is applied.

2) Hedging instruments and hedged items

Hedging instruments      Forward exchange contracts, non-deliverable forwards (NDF)

Hedged items              Foreign currency receivables, foreign currency payables, future transactions in foreign currency and interest-rate trading for loans payable

3) Hedging policy

The Companies use forward exchange contracts not for the purpose of speculation but for hedging future risks of fluctuation of foreign currency exchange rates.

4) Assessment of hedge effectiveness

As forward exchange contracts in the same currency are used for forward exchange transactions, the correlation to subsequent exchange rate fluctuations is completely ensured. Accordingly, evaluation of hedge effectiveness is omitted.

Accounting procedure for retirement benefits

1) Method of attributing the projected benefit obligations to periods of service

In calculating the retirement benefit obligations, the benefit formula basis is used to allocate the projected retirement benefits to the years of service up to the end of the fiscal year.

(Translation)

2) Amortization method for actuarial differences and prior service costs

Actuarial differences are amortized using the straight-line method over a certain period of time (10 years) within the average remaining service period of employees from the following fiscal year of accrual.

Prior service costs are amortized using the straight-line method over a certain period of time (10 years) within the average remaining service period of employees from the fiscal year of accrual.

Amortization method and period for goodwill Goodwill is amortized by the straight-line method over the effective period not exceeding 20 years. However, an immaterial goodwill is recognized as expenses in the fiscal year of accrual.

**[Notes regarding Accounting Estimates]**

1. Estimate of percentage of completion in construction contracts, etc. in which revenue is recognized over time

(1) Amount recorded on Consolidated Financial Statements for this consolidated fiscal year

Net sales of completed construction contracts ¥249,920 million

(2) Information on details of important accounting estimates concerning items identified

At the Taikisha Group, of the construction contracts as of the consolidated fiscal year-end, if the percentage of completion can be reasonably estimated for specific construction contracts, etc. in which revenue is recognized over time, revenue is recorded according to the said percentage of completion.

The percentage of completion is measured by the ratio of cost incurred as of the fiscal year-end to estimated total costs based on the working budget for the construction contract (input methods).

Regarding the total estimated cost for the construction contract until its completion, as changes may occur in line with the progress, etc. of the construction contract, the Taikisha Group shall continuously review the said estimates and assumptions.

The total estimated cost is calculated based on various types of information, including the details of the said construction contract, etc., the specifications, and the actual cost incurred in similar contracts in the past, for each contract. In particular, regarding projects undertaken by the Taikisha Group, specifications of the contract and details of the work are determined based on the customer's requests, and the details of each contract differ greatly from other contracts. If hindrances to the project's progress that were not foreseen at the initial stage of the contract occur, additional assessments and estimates may be required regarding the altered conditions and the extent of each component in the emergency response.

In addition, the total estimated cost may increase due to factors such as soaring prices of equipment and materials as a result of global circumstances.

As the predictions of such assumptions come with a high level of uncertainty depending on changes in each individual project's conditions, if there is an impact on the total estimated cost and as a result the actual figure differs greatly from the estimate, there may be a material impact on the amount of future income on the consolidated financial statements.

2. Valuation of goodwill and intangible assets

(1) Amount recorded on the consolidated financial statements for this consolidated fiscal year

Goodwill ¥715 million

Impairment loss ¥3,337 million

(2) Information on details of important accounting estimates concerning items identified

Regarding goodwill and customer-related assets as of the consolidated fiscal year-end, after verifying the presence of signs of impairment, the Taikisha Group assesses if the recognition and measurement of an impairment will be necessary.

In conducting the recognition and measurement of impairment loss, assumptions will be made regarding the discount rate and future cash flows mainly based on the business plan and then applied.

As a result of reviewing of the business plans, etc. of a consolidated subsidiary, Nicomac Taikisha Clean Rooms Private Limited, based on the current economic environment, an impairment loss on goodwill and customer-related assets of ¥3,337 million was recognized for this fiscal year.

These assumptions are determined at the discretion of management based on the best estimates. However, as they may be affected by the results of fluctuations, etc. of uncertain economic conditions in the future, if they have to be reviewed, there may be a material impact on the consolidated financial statements.

**[Notes to Consolidated Balance Sheet]**

1. Of notes receivable, accounts receivable from completed construction contracts and other, receivables from contracts with customers and contract assets are as follows:

|                                                           | (Millions of yen) |
|-----------------------------------------------------------|-------------------|
| Notes receivable                                          | 4,308             |
| Accounts receivable from completed construction contracts | 71,946            |
| Contract assets                                           | 75,644            |

2. Pledged assets

- (1) The following assets are pledged as collateral for loans payable at subsidiaries and associates.

| (Millions of yen)                                  |            |                                                        |
|----------------------------------------------------|------------|--------------------------------------------------------|
| Asset pledged as collateral                        | Book value | Secured obligations corresponding to the asset at left |
| Cash and deposits                                  | 335        | 157                                                    |
| Machinery, vehicles, tools, furniture and fixtures | 33         | 24                                                     |

- (2) The following assets are pledged as collateral for security deposits at subsidiaries and associates.

Cash and deposits ¥66 million

- (3) The following assets are pledged as collateral for overdraft facilities of subsidiaries and associates.

Cash and deposits ¥23 million

- (4) The following assets are pledged as collateral for bank guarantee, etc. of subsidiaries and associates.

Buildings and structures ¥56 million

Land ¥33 million

3. Guarantee obligations

The Company guarantees loans payable, etc., made by its associates under agreements concluded with financial institutions.

Tianjin Dongchun-Taiki Metal Finishing & Conveyor System Manufacturing Co., Ltd.

¥240 million

**[Notes to Consolidated Statement of Income]**

1. Revenue from contracts with customers

With regard to net sales of completed construction contracts, the Company does not disaggregate revenues from contracts with customers and other sources of net sales of completed construction contracts. The amount of revenue from contracts with customers is presented in “(Notes regarding Revenue Recognition) 1. Information on revenue from contracts with customers” in Notes to Consolidated Financial Statements.

2. Provision for loss on construction contracts included in the cost of sales of completed construction contracts is ¥112 million.

**[Notes to Consolidated Statement of Changes in Net Assets]**

1. Type and total number of issued shares as of the consolidated fiscal year end

Common shares

33,582,009 shares

(Notes) 1. The total dividends resolved at the Annual Shareholders' Meeting held on June 27, 2024 include dividends of ¥12 million paid on the Company's shares held by Custody Bank of Japan, Ltd. (Trust E Account) as the trust assets of Board Benefit Trust (BBT).

2. The total dividends resolved at the Board of Directors Meeting held on November 11, 2024 include dividends of ¥8 million paid on the Company's shares held by Custody Bank of Japan, Ltd. (Trust E Account) as the trust assets of Board Benefit Trust (BBT).

### (2) Dividends whose record date is during the fiscal year, but whose effective date is after the end of the fiscal year

The following matters concerning the dividends of common shares are proposed at the Annual Shareholders' Meeting held on June 26, 2025.

|                               |                |
|-------------------------------|----------------|
| 1) Total dividends            | ¥2,736 million |
| 2) Dividend per share         | ¥84.00         |
| 3) Shareholders' cut-off date | March 31, 2025 |
| 4) Effective date             | June 27, 2025  |

Retained earnings are planned to be used as the source of dividends.

(Note) The total dividends include dividends of ¥12 million to be paid on the Company's shares held by Custody Bank of Japan, Ltd. (Trust E Account) as the trust assets of Board Benefit Trust (BBT).

## [Notes regarding Financial Instruments]

### 1. Status of Financial Instruments

#### (1) Policies on financial instruments

The Companies invest their temporary surplus funds in financial assets that are highly secure and procure their short-term working capital in the form of borrowings from financial institutions and so on. The Companies utilize derivatives only to hedge their exposure to the risks as described below and do not enter into such transactions for speculative purposes.

#### (2) Description of financial instruments, related risks and risk management system

Notes receivable, accounts receivable from completed construction contracts and other, which are trade receivables, are exposed to the credit risk of the respective customers. As for the credit risk of customers, the Companies' management system allows us to monitor the credit standing of major customers at any time on a timely basis based on the maturity and balance control by customer. Meanwhile, trade receivables denominated in foreign currencies, which originate from global business operations, are exposed to the risk of exchange rate fluctuations and are partly hedged by utilizing forward exchange contracts.

Securities and investment securities are those of companies with which the Companies have business relations and money trusts, etc. for the investment of temporary surplus funds. Although they are exposed to the risk of fluctuations in market price and credit risk, the Companies continuously monitor through regular checks of the fair value and financial positions of the issuers.

Notes payable, accounts payable for construction contracts and other, which are trade payables, generally mature within one year. While some of them are denominated in foreign currencies for the purpose of importing machinery and equipment and raw materials, etc. and are exposed to the risk of exchange rate fluctuations, the amount of those items are invariably less than the balance of accounts receivable from completed construction contracts, which are similarly denominated in foreign currencies.

Income taxes payable are imposed on the taxable income of the Companies for the fiscal year, and they all mature within one year.

(Translation)

Both short-term and long-term loans payable are fund-raising means associated with business transactions. Short-term loans payable with variable interest rates are exposed to the risk of interest-rate fluctuations. However, long-term loans payables, which are procured at fixed interest rates, in principle, are hedged against interest-rate fluctuation risk.

Derivative transactions consist of forward exchange contracts and NDFs aimed at hedging the risk of fluctuations in exchange rates for exports and imports in the course of ordinary business operations, as well as interest rate swaps aimed at hedging the risk of fluctuations in the interest rates for loans payable. Forward exchange contracts and NDFs are executed and managed in accordance with the relevant guideline regarding foreign exchange control issued by the Chief Executive of the Administrative Management Headquarters. This guideline clearly stipulates regulations for the management policies on derivative transactions, the regulating division and department in charge of risk management, purposes of use, scope of utilization, reporting system. As for interest rate swaps, only those that meet the requirements for the application of special treatment are executed. Derivative transactions are executed only with financial institutions with high credit ratings to reduce the credit risk.

Although trade payables and loans payable are exposed to liquidity risk, the Companies strive to control the liquidity risk such as by having each Group company prepare a monthly cash management plan.

(3) Supplementary explanation on fair value of financial instruments, etc.

The contractual amounts, etc., with regard to derivative transactions in “2. Fair Value of Financial Instruments” below only indicate nominal contractual or notional principal amounts in derivative transactions, and they do not indicate risk amounts in connection with the corresponding derivative transactions.

2. Fair Value of Financial Instruments

The following table indicates the book value, the fair value and the differences thereof as of March 31, 2025.

|                                                                                           | (Millions of yen) |            |            |
|-------------------------------------------------------------------------------------------|-------------------|------------|------------|
|                                                                                           | Book value        | Fair value | Difference |

| Total                                                                                 | 190,009         | 9,452                               | —                                   | —             |

3. Fair value information by level within the fair value hierarchy

The fair value of financial instruments is classified into the following three levels according to the observability and materiality of inputs used to measure fair value.

Level 1 fair value: Fair value measured using (unadjusted) quoted prices in active markets for the same assets or liabilities.

Level 2 fair value: Fair value measured using directly or indirectly observable inputs other than Level 1 inputs.

Level 3 fair value: Fair value measured using unobservable material inputs.

If multiple inputs that have a significant impact on the fair value measurement are used, fair value is classified to the level with the lowest priority in the fair value measurement among the levels to which each of those inputs belongs.

(1) Financial instruments measured at fair value

(Millions of yen)

| Category                      | Fair value |         |         |        |

(Translation)

(Note) Description of valuation techniques and inputs used in the fair value measurements

Assets

(1) Notes receivable, accounts receivable from completed construction contracts and other:

The fair value of these assets is determined based on the present value calculated by applying discount rates, which take into account the remaining period prior to maturity and the credit risk, for receivables individually segmented by certain duration, and their fair value is classified as Level 2.

(2) Investment securities:

As for the calculation of the fair value of these assets, listed stocks are valued using quoted prices. As listed stocks are traded in active markets, their fair value is classified as Level 1.

1) The differences between the book value and acquisition cost are as follows:

Available-for-sale securities with fair value (as of March 31, 2025)

(Millions of yen)

| Category                                                   | Book value | Acquisition cost | Difference |
|------------------------------------------------------------|------------|------------------|------------|
| Securities whose book value exceeds their acquisition cost |            |                  |            |
| Stocks                                                     | 25,162     | 8,246            | 16,916     |
| Total                                                      | 25,162     | 8,246            | 16,916     |

2) Sales of available-for-sale securities in the fiscal year amounted to ¥3,350 million and the total gain on sales amounted to ¥2,388 million.

3) The “Acquisition cost” in the table above is the book value after deducting impairment losses. The Companies recognize an impairment loss when the fair value of stocks falls 50% or more compared with the acquisition cost and there is no evidence to indicate that the fair value will recover to the book value within one year. When the fair value falls by 30% or more but less than 50% compared with the acquisition cost, the Companies recognize a necessary amount of impairment loss after considering the market prices in the past year and the possibility of recovery.

Liabilities

(3) Notes payable, accounts payable for construction contracts and other, and (4) Short-term loans payable

The fair value of these liabilities is determined based on the present value calculated by applying discount rates, which take into account the remaining period prior to maturity or repayment and the credit risk, for payables individually segmented by certain duration. The fair value is classified as Level 2.

(5) Long-term loans payable

With regard to floating rate loans, the book value approximates the fair value because the market interest rate is reflected in the interest rate within a short period of time and the credit risk did not fluctuate significantly after borrowing. Therefore, the book value is used as the fair value and classified as Level 2. With regard to fixed rate loans, the fair value is determined based on the present value of the total principal and interest discounted by an interest rate to be applied to similar new loans, and classified as Level 2.

(6) Derivative transactions

Fair value of derivative transactions is determined based on the prices and other data submitted by counterparty financial institutions, and classified as Level 2.

1) Derivative transactions not subject to hedge accounting

For derivative transactions to which hedge accounting is not applied, contractual amounts or the notional principal amounts specified in the derivative contracts, fair value and gain (loss) on valuation as of the consolidated fiscal year end by type of target transaction, as well as the calculation method of said fair value, are as follows:

| Sales to customers                    | 169,420                          | 106,792                         | 276,212 |

2. Useful information in understanding revenue from contracts with customers

The Taikisha Group is engaged in construction contracts, etc. mainly involving design, supervision, and installation and sales of equipment and materials.

(1) Construction contracts, etc.

The Taikisha Group determines that control over assets is transferred to the customer over a certain period of time because performance of a construction contract or other contract results in creation of an asset or an increase in the value of an asset, and the customer gains control over the asset as the asset is created or the value of the asset increases. Therefore, revenue is recognized based on the degree of progress made in satisfying performance obligations as of the end of the fiscal year.

Degree of progress is measured by the ratio of the cost incurred to the total estimated cost (input methods), since it is possible to make a reasonable estimate of the total estimated cost based on the execution budget. When the degree of progress toward satisfying performance obligation cannot be reasonably estimated, but it is probable that the costs incurred will be recovered, revenue is recognized on a cost recovery basis.

(2) Sales of equipment and materials

The Taikisha Group determines that control over equipment and materials is transferred to the customer and the performance obligation is satisfied at the time of delivery of a product, taking into account indicators related to the transfer of control, such as physical possession of the equipment and materials, and transfer status of significant risks and the economic value associated with ownership to the customer, and recognizes revenue at the time of delivery.

For these performance obligations, the Taikisha Group provides warranties such as free repair for defects that occur within a certain period of time after delivery, which provide assurance to the customer that the product will function as intended in accordance with the specifications agreed upon with the customer. Expected future expenditures for warranties are estimated by considering historical performance rates and recognized as a provision for warranties for completed construction.

In addition, terms of payment for these performance obligations are general and do not include a significant financial component.

(Translation)

3. Information on the relationship between satisfaction of performance obligations for contracts with customers and cash flow from these contracts, and information on the amount and timing of revenue expected to be recognized in the subsequent consolidated fiscal years from contracts with customers existing at the end of this consolidated fiscal year

(1) Contract assets and liabilities outstanding, etc.

|                                                                                                        | (Millions of yen) |
|--------------------------------------------------------------------------------------------------------|-------------------|
| Accounts receivable from completed construction contracts (balance at the beginning of current period) | 60,243            |
| Accounts receivable from completed construction contracts (balance at the end of current period)       | 71,946            |
| Contract assets (balance at the beginning of current period)                                           | 59,596            |
| Contract assets (balance at the end of current period)                                                 | 75,644            |
| Contract liabilities (balance at the beginning of current period)                                      | 13,899            |
| Contract liabilities (balance at the end of current period)                                            | 19,668            |

In the Consolidated Balance Sheet, accounts receivable from completed construction contracts and contract assets are included in notes receivable, accounts receivable from completed construction contracts and other, while contract liabilities are presented as advances received on uncompleted construction contracts.

The amount of revenue recognized in this consolidated fiscal year that was included in the contract liability balance at the beginning of the period was ¥13,675 million. In addition, the amount of revenue recognized in this consolidated fiscal year from performance obligations that were satisfied (or partially satisfied) in prior periods was not material.

(2) Transaction prices allocated to remaining performance obligations

The total transaction price allocated to unfulfilled performance obligations and the time frame the Company expects to recognize the amount as revenue are as follows:

(Millions of yen)

|          | Reportable segment               |                                 | Total   |
|----------|----------------------------------|---------------------------------|---------|
|          | Green Technology System business | Paint Finishing System business |         |
| Region   |                                  |                                 |         |
| Domestic | 110,851                          | 18,347                          | 129,199 |
| Overseas | 42,371                           | 68,300                          | 110,671 |
| Total    | 153,223                          | 86,648                          | 239,871 |

The transaction value allocated to unfulfilled performance obligations in the “Green Technology System business” and “Paint Finishing System business” segments is expected to be recognized as net sales of completed construction contracts primarily within two years, based on the progress of construction.

**[Notes regarding Per-Share Information]**

1. Net assets per share ¥2,282.91  
2. Basic earnings per share ¥169.44

(Note)

Effective April 1, 2025, the Company conducted a share split in the proportion of 1 common share into 2 common shares. Net assets per share and basic earnings per share are calculated assuming that the share split was conducted at the beginning of the fiscal year ended March 31, 2025.

**[Note regarding Significant Subsequent Events]**

(Share split and corresponding partial amendment to the Articles of Incorporation)

The Company resolved at a meeting of its Board of Directors held on February 10, 2025 to implement a share split and partial amendment to the Articles of Incorporation corresponding to the share split.

(1) Purpose of the share split

By implementing the share split, the Company aims to reduce the minimum investment price for the Company's shares, to increase the liquidity of the shares, and to further expand the investor base.

(Translation)

(2) Overview of the share split

1) Split method

The Company will split the shares of common share owned by all recorded shareholders as of March 31, 2025, in the proportion of 1 share into 2 shares.

2) Number of shares increased through share split

|                                                     |                    |
|-----------------------------------------------------|--------------------|
| Total number of shares issued before share split    | 33,582,009 shares  |
| Number of shares increased through share split      | 33,582,009 shares  |
| Total number of shares issued after share split     | 67,164,018 shares  |
| Total number of shares authorized after share split | 200,000,000 shares |

3) Schedule

|                                      |                |
|--------------------------------------|----------------|
| Date of public notice of record date | March 14, 2025 |
| Record date                          | March 31, 2025 |
| Effective date                       | April 1, 2025  |

4) Impact on per share information

The impact on per share information is presented in “[Notes regarding Per-Share Information].”

(3) Partial Amendment to the Articles of Incorporation

1) Reason for the amendment

In accordance with the provisions of the Article 184, Paragraph 2 of the Companies Act, the Company will change the total number of shares authorized stipulated in Article 6 of the Articles of Incorporation as of April 1, 2025, in response to the implementation of the share split.

2) Details of amendment (Amended parts are underlined)

| Current Articles of Incorporation                                                                                                                                        | Amendments                                                                                                                                                               |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (Total Number of Shares Authorized)<br>Article 6 The total number of shares the Company is authorized to issue shall be <u>one hundred million (100,000,000)</u> shares. | (Total Number of Shares Authorized)<br>Article 6 The total number of shares the Company is authorized to issue shall be <u>two hundred million (200,000,000)</u> shares. |

3) Schedule

|                                                              |               |
|--------------------------------------------------------------|---------------|
| Effective date of amendment of the Articles of Incorporation | April 1, 2025 |
|--------------------------------------------------------------|---------------|

(4) Other

1) Change in share capital

The above share split shall not change the Company’s share capital.

2) Dividends

As the effective date of the share split is April 1, 2025, year-end dividends for the fiscal year ended March 2025, to all shareholders with a record date of March 31, 2025, will be implemented based on the number of shares issued prior to the share split.

**[Other Notes]**

(Introduction of a Board Benefit Trust (BBT) for Executive Directors, etc.)

Based on the resolution of the 74th Annual Shareholders’ Meeting held on June 27, 2019, the Company has introduced a Board Benefit Trust (BBT) (hereinafter referred to as the “System”), which is a performance-linked stock-based compensation plan for Executive Directors of the Company from the previous consolidated fiscal year.

At the Board of Directors meeting held on March 30, 2023, it was resolved to establish the Corporate Officer Stock Benefit Rules with an effective date of April 1, 2023, and to add Corporate Officers (excluding non-residents of Japan, hereinafter referred to as “Executive Directors, etc.” together with Executive Directors) to those eligible for stock benefits under the System.

The purpose of the System is to further clarify the link between the compensation of Executive Directors, etc. and the Company’s operating performance and stock value and enhancing their motivation to contribute to the improvement of operating performance in the medium and long term and to boost corporate value by sharing not only the benefit of stock price increases but also the risk of stock price decreases with shareholders.

In accordance with the Practical Solution on Transactions of Delivering the Company’s Own Stock to Employees, etc., through Trusts (ASBJ PITF No. 30, March 26, 2015), the gross method has been applied for the accounting treatment under the System.

(Translation)

(1) Outline of the System

The System is a performance-linked stock-based compensation plan whereby the Company's shares are acquired through a trust using money contributed by the Company (hereinafter, the trust established pursuant to the System is referred to as the "Trust") as funds, and the Company's shares and the amount of money equivalent to the value of the Company's shares calculated based on market value are distributed through the Trust to Executive Directors, etc. as compensation in accordance with the Director Stock Benefit Rules and Corporate Officer Stock Benefit Rules (hereinafter referred to as the "Director, etc. Stock Benefit Rules") established by the Company.

The Company's shares, etc. shall be granted to Executive Directors, etc. upon their retirement, in principle.

(2) The Company's shares that remain in the Trust

The Company's shares remaining in the Trust are recognized as treasury shares under net assets at the book value of the Trust (excluding ancillary expenses). The book value and number of treasury shares as of the consolidated fiscal year-end are ¥510 million and 149,400 shares, respectively.

| Held-to-maturity debt securities                                   | Amortized cost method (straight-line method)                                                                                                                                                                                                                     |
| Shares of subsidiaries and associates                              | Stated at cost using the moving-average method                                                                                                                                                                                                                   |
| Available-for-sale securities                                      |                                                                                                                                                                                                                                                                  |
| Securities other than shares, etc. that do not have a market price | Stated at fair value based on the market prices at the end of the fiscal year. (Valuation difference is reported as a separate item in net assets at net-of-tax amount. The cost of securities sold is stated at cost, determined by the moving average method.) |
| Shares, etc. that do not have a market price                       | Stated at cost using the moving-average method                                                                                                                                                                                                                   |

###### Derivatives

Stated at fair value

###### Inventories

Costs on uncompleted construction contracts

Stated at cost using the specific identification method

Raw materials and supplies

Stated at cost determined by the moving average method (The amounts stated in the non-consolidated balance sheets are calculated by writing down the book value based on the decline in profitability.)

##### (2) Depreciation method for non-current assets

|                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                           |
|---------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Property, plant and equipment (excluding leased assets) | The declining-balance method is applied. However, the straight-line method is applied to buildings (excluding facilities attached to buildings) acquired on or after April 1, 1998, and is applied to facilities attached to buildings and structures acquired on or after April 1, 2016. The useful lives and the residual values of depreciable assets are estimated mainly in accordance with the Corporation Tax Act. |
| Intangible assets (excluding leased assets)             | The straight-line method is applied. However, computer software for internal use is amortized by the straight-line method over the estimated internal useful life (5 years).                                                                                                                                                                                                                                              |
| Leased assets                                           | Lease assets related to finance lease transactions that do not transfer ownership of the leased property to the lessee are depreciated on the straight-line method, assuming the lease period as the useful life and no residual value.                                                                                                                                                                                   |

##### (3) Standards of accounting for allowance and provisions

|                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Allowance for doubtful accounts                     | In order to prepare for losses due to bad debts such as accounts receivable from completed construction contracts and other, the allowance for doubtful accounts is provided at the estimated amount of uncollectable debt. For receivables classified as "normal," it is provided based on a historical default ratio. For receivables classified as "doubtful," etc., it is provided based on individual assessment on the probability of collection. |
| Provision for warranties for completed construction | In order to prepare for the costs of repairs for damages related to completed construction work for which the Company is responsible, the provision is provided based on past warranty experience.                                                                                                                                                                                                                                                      |
| Provision for loss on construction contracts        | In order to prepare for future losses related to the construction contracts in process, the provision is provided based on estimated amount which will probably be incurred and which can be reasonably estimated.                                                                                                                                                                                                                                      |

(Translation)

Provision for directors' bonuses

In order to prepare for directors' bonuses, the provision is provided based on the estimated payment of the fiscal year.

Provision for retirement benefits

In order to prepare for employees' retirement benefits, the provision is provided based on estimated benefit obligations and the fair value of plan assets at the end of fiscal year.

1) Method of attributing the projected benefit obligations to periods of service

In calculating the retirement benefit obligations, the benefit formula basis is used to allocate the projected retirement benefits to the years of service up to the end of the fiscal year.

2) Amortization method for actuarial differences and prior service costs

Actuarial differences are amortized using the straight-line method over a certain period of time (10 years) within the average remaining service period of employees from the following fiscal year of accrual.

Prior service costs are amortized using the straight-line method over a certain period of time (10 years) within the average remaining service period of employees from the fiscal year of accrual.

Provision for share awards

In order to prepare for share-based remuneration to corporate officers upon their retirements, the estimated amount of provision for share-based obligation as of the fiscal year end is provided based on the Corporate Officer Stock Benefit Rules.

Provision for share awards for directors

In order to prepare for share-based remuneration to executive directors upon their retirements, the estimated amount of provision for share-based obligation as of the fiscal year end is provided based on the regulation of share-based remuneration for directors.

#### (4) Accounting standards for revenues and expenses

The details of the main performance obligations in the major businesses related to revenue from contracts with customers and the timing at which the Company typically satisfies these performance obligations (when it typically recognizes revenue) are as follows:

1) Construction contracts, etc.

In the green technology system business and the paint finishing system business, performance obligations for construction contracts, etc. mainly involving design, supervision, and installation are deemed to be satisfied over time, and revenue is recognized based on progress toward complete satisfaction of a performance obligation.

The progress of satisfaction of performance obligations in revenue recognition over time is measured by the ratio of incurred costs to estimated total costs (input methods). In addition, revenue is recognized by cost recovery method in case incurred costs are expected to be recoverable though the progress of satisfaction of performance obligations cannot be reasonably measured.

2) Sales of equipment and materials

In the green technology system business and the paint finishing system business, performance obligations for sales of equipment and materials are deemed to be satisfied at a point in time, and revenue is recognized when products are delivered.

(5) Other important matters for presenting the Non-consolidated Financial Statements

Methods of hedge accounting

1) Method of hedge accounting

Accounted for using the deferral method of accounting. With regard to forward exchange contracts that meet the requirements for deferral hedge accounting, deferral hedge accounting is applied.

2) Hedging instruments and hedged items

Hedging instruments      Forward exchange contracts, and non-deliverable forwards (NDF)

Hedged items              Foreign currency receivables, foreign currency payables and future transactions in foreign currency

3) Hedging policy

The Company uses forward exchange contracts not for the purpose of speculation but for hedging future risks of fluctuation of foreign currency exchange rates.

4) Assessment of hedge effectiveness

As forward exchange contracts in the same currency are used for forward exchange transactions, the correlation to subsequent exchange rate fluctuations is completely ensured. Accordingly, evaluation of hedge effectiveness is omitted.

Accounting procedure for retirement benefits

Accounting procedures for unrecognized actuarial differences and unrecognized prior service costs relative to retirement benefits differ from those applied in the consolidated financial statements.

**[Notes regarding Accounting Estimates]**

1. Estimate of percentage of completion in construction contracts, etc. in which revenue is recognized over time

(1) Amount recorded on Non-consolidated Financial Statements for this fiscal year

|                                               |                  |
|-----------------------------------------------|------------------|
| Net sales of completed construction contracts | ¥142,441 million |
|-----------------------------------------------|------------------|

(2) Information on details of important accounting estimates concerning items identified

This note is omitted, as the same information has been stated in “Notes regarding Accounting Estimates” in Notes to Consolidated Financial Statements.

2. Valuation of shares of subsidiaries and associates

(1) Amount recorded on Non-consolidated Financial Statements for this fiscal year

|                                                            |                 |
|------------------------------------------------------------|-----------------|
| Shares of subsidiaries and associates                      | ¥12,482 million |
| Loss on valuation of shares of subsidiaries and associates | ¥4,932 million  |

(2) Information on details of important accounting estimates concerning items identified

In the valuation of shares of subsidiaries and associates that do not have market prices, the Company recognizes impairment losses when the real value of such shares declines significantly due to deterioration in the financial condition of the subsidiaries and associates, and when the recoverability of such shares is not sufficiently supported by consideration of the business plans of the subsidiaries and associates.

For shares acquired reflecting excess earning power, the actual value reflects such excess earning power, and if excess earning power is determined to have decreased as a result of consideration of the business plans, the actual value reflects such decrease.

As a result of the valuation of shares of subsidiaries and associates in accordance with the policy above, losses on valuation of shares of subsidiaries and associates of ¥4,286 million and ¥645 million were recognized for the consolidated subsidiaries, Nicomac Taikisha Clean Rooms Private Limited and Taikisha Korea Ltd., respectively, for this fiscal year.

Certain assumptions are made regarding the business plans of subsidiaries and associates with respect to the market environment and other factors of each company. These assumptions are determined at the discretion of management based on the best estimates. However, as they may be affected by the results of fluctuations, etc. of uncertain economic conditions in the future, if they have to be reviewed, there may be a material impact on the Non-consolidated Financial Statements.

| Total deferred tax liabilities                             | <u>(7,960)</u> |
| Net deferred tax liabilities                               | <u>(4,705)</u> |

2. Revision of deferred tax assets and deferred tax liabilities due to changes in corporate tax rate, etc.

As the “Act for Partial Amendment of the Income Tax Act” (Act No. 13 of 2025) was enacted by the National Diet on March 31, 2025, imposition of the “Defense Special Corporate Tax” will start in the fiscal year beginning on or after April 1, 2026.

Accordingly, deferred tax assets and deferred tax liabilities related to temporary differences, which are expected to be resolved in the fiscal years beginning on or after April 1, 2026, are calculated by revising the effective tax rate from 30.62% to 31.52%.

The impact of this change is minimal.

[Audit & Supervisory Board Audit Report]

## **Audit Report** (English Translation)

Regarding the performance of duties by the Directors for the 80th fiscal year from April 1, 2024, to March 31, 2025, the Audit & Supervisory Board hereby submits its Audit Report, which has been prepared upon careful consideration based on the audit report prepared by each Audit & Supervisory Board Member.

1. Summary of Auditing Methods by the Audit & Supervisory Board Members and Audit & Supervisory Board

- (1) The Audit & Supervisory Board established auditing policies, allocation of duties, and other relevant matters for the fiscal year ended March 31, 2025, and received reports from each Audit & Supervisory Board Member regarding his or her audits and results thereof, as well as received reports from the Directors, other relevant personnel and the Accounting Auditor regarding performance of their duties, and requested explanations as necessary.
- (2) Each Audit & Supervisory Board Member complied with the audit standard stipulated by the Audit & Supervisory Board, followed the auditing policies, allocation of duties and other relevant matters for the fiscal year, communicated with the Directors, the Internal Audit Department, other employees and any other relevant personnel by utilizing means such as telephone lines and the internet, and made efforts to prepare the environment for information collection and audits, and conducted the audit in the following manners.
  - 1) Each Audit & Supervisory Board Member attended the meetings of the Board of Directors and other important meetings, received reports from the Directors, employees and other relevant personnel regarding performance of their duties, requested explanations as necessary, examined important authorized documents and associated information, and studied the operations and financial positions of the head office, as well as of principal branch offices, branches and business offices.  
With respect to subsidiaries, each Audit & Supervisory Board Member communicated and exchanged information with Directors, Statutory Auditors and other relevant personnel of several major subsidiaries, and received reports as necessary from major subsidiaries, including those overseas, on their operations.
  - 2) With respect to the contents of resolutions of the Board of Directors regarding the improvement of the system stipulated in Article 100, Paragraphs 1 and 3 of the Ordinance for Enforcement of the Companies Act, which is considered necessary pursuant to the System to Ensure that Directors and Employees of the Company Conform to Laws and Regulations and Articles of Incorporation and the System to Ensure the Appropriateness of Operations conducted by the Corporate Group Consisting of the Company and its Subsidiaries in the Business Report, as well as to the systems (internal control system) that have been improved based on such resolutions, each Audit & Supervisory Board Member received regular reports from Directors, employees and other relevant personnel with regard to the improvement and operational status of said systems, requested explanations as necessary and expressed opinions, in accordance with the “Audit Standards for Audit & Supervisory Board Members Regarding the Internal Control System” and the “Checklist for the Internal Control System Audit,” which were stipulated through consultations among all the Audit & Supervisory Board Members.
  - 3) Each Audit & Supervisory Board Member monitored and verified whether the Accounting Auditor maintained their independence and implemented appropriate audits, as well as received reports from the Accounting Auditor regarding the performance of their duties and requested explanations as necessary. In addition, each Audit & Supervisory Board Member received notice from the Accounting Auditor that the “system for ensuring that duties are performed properly” (matters set forth in each item of Article 131 of the Ordinance for Corporate Accounting) had been prepared in accordance with the “Product Quality Management Standards Regarding Audits” (issued by the Business Accounting Council) and other relevant standards, and requested explanations as necessary. Regarding key audit matters, each Audit & Supervisory Board Member held discussions with the Accounting Auditor, received reports regarding the state of implementation of the audit, and requested explanations as necessary.

Based on the above methods, we examined the Business Report and the accompanying supplementary schedules, Non-consolidated Financial Statements (Non-consolidated Balance Sheet, Non-consolidated Statement of Income, Non-consolidated Statement of Changes in Net Assets, and Notes to Non-consolidated Financial Statements) and the accompanying supplementary schedules, as well as the Consolidated Financial Statements (Consolidated Balance Sheet, Consolidated Statement of Income, Consolidated Statement of Changes in Net Assets and Notes to Consolidated Financial Statements), all of which pertain to the fiscal year.

2. Results of Audit

(1) Results of Audit of Business Report and Other Relevant Documents

- 1) In our opinion, the Business Report and the accompanying supplementary schedules are in accordance with the related laws, regulations and the Articles of Incorporation, and fairly present the Company's condition.
- 2) We have found no evidence of wrongful action or material violation of related laws and regulations, nor of any violation with respect to the Articles of Incorporation, related to performance of duties by the Directors.
- 3) In our opinion, the contents of the resolutions of the Board of Directors related to the internal control system are fair and reasonable. In addition, we have found no matters on which to remark regarding the description in the Business Report and the performance of duties by the Directors related to such internal control system.

(2) Results of Audit of Non-consolidated Financial Statements and the Accompanying Supplementary Schedules

In our opinion, the methods and results employed and rendered by A&A Partners are fair and reasonable.

(3) Results of Audit of Consolidated Financial Statements

In our opinion, the methods and results employed and rendered by A&A Partners are fair and reasonable.
