# (Correction/Numeric data correction) Regarding partial correction of "Summary of Consolidated Financial Results for the Fiscal Year Ended March 31, 2025 (Under Japanese GAAP)"

We would like to inform you that there have been some matters that need to be revised in the "Summary of Consolidated Financial Results for the Fiscal Year Ended March 31, 2025 (Under Japanese GAAP)" published on May 15, 2025.

#### 1. Reason for correction

- (1) After the announcement, due to the determination of the formal amount payable at the time of filing a lawsuit at the tax court by our consolidated subsidiary, UMC Electronics Mexico, S.A. de C.V., we revised the recorded amount of "Tax amount paid due to determinations of corporate tax, etc." from 3,291 million yen to 3,178 million yen.
- (2) We discovered a partial shortfall in the reversal of deferred tax assets and recorded an expense of 28 million yen.
- (3) 1. Overview of Business Results, etc. We have made corrections to the sales figures by business product category as it has become clear that there were transfers between product categories.

#### 2. Content of the correction

The corrected sections are displayed with \_\_\_ lines. Furthermore, as there are numerous corrections, only the full text after corrections is provided.

#### 1. Overview of Business Results

#### (1) Overview of Business Results for this Fiscal Year

During the consolidated fiscal year under review, the environment surrounding our Group was sluggish in the automotive-related sector due to the impact of sluggish demand in the Chinese market, while there were signs of recovery in semiconductor-related capital investment and the office automation equipment market. However, the future remains uncertain due to factors including ongoing global monetary tightening, concerns about a downturn in overseas economies, high energy and resource prices, geopolitical risks, fluctuations in financial and capital markets, and the impact of trends in U.S. tariff policies.

Under such circumstances, the net sales for this consolidated fiscal year amounted to 131,938 million yen (an increase of 0.5% compared to the same period of the previous year). In terms of profit and loss, operating income was 2,149 million yen (an increase of 5.2% compared to the same period of the previous year), and ordinary profit was 1,646 million yen (an increase of 33.5% compared to the same period of the previous year). UMC Electronics Mexico, SA de CV, a consolidated subsidiary of the Company, recorded a tax payment of 3,178 million yen due to the revision and determination of corporate taxes, etc., following the receipt of a resolution from the Mexican tax authorities ordering the company to reassess its declared income for the fiscal year 2020 and pay tax in accordance with Mexican federal tax law. As a result, the company's net loss attributable to owners of the parent was 2,508 million yen (net income attributable to owners of the parent of 1,021 million yen in the previous consolidated fiscal year).

We are engaged in the EMS business and other businesses. Since most of our business is with EMS, segment information is omitted.

Net sales of EMS business by product and of other businesses are shown as in the following. The amount of net sales is based on figures after eliminating consolidated offsets.

#### i) EMS Business

Net sales of the EMS business, which is our major business, have been 131,180 million yen (an increase of 0.5% compared to the same period of the previous year). The results by product category are outlined below.

#### (Automotive Equipment)

Although parts for electric compressors and parts for hybrid cars performed well, the impact of sluggish demand in the Chinese market continued, resulting in sales of  $\underline{69,834}$  million yen (a decrease of  $\underline{7.6}$ % compared to the same period of the previous year).

#### (Industrial Equipment)

Despite an increase in sales due to a recovery in demand for semiconductor capital investment, sales decreased due to a slump in demand for inverters and other control equipment products, resulting in sales of 20,682 million yen (a decrease of 15.1% compared to the same period of the previous year).

#### (Office Automation Equipment)

Production of products for Multifunction printer and laser printers was robust, resulting in sales of 40,326 million yen (an increase of 34.2% compared to the same period of the previous year).

#### (Others)

Consumer products and development for amusement are the main business activities, with net sales of 337 million yen (a decrease of 38.2% compared to the same period of the previous year).

#### ii) Other Businesses

Net sales for the staffing business have been 757 million yen (an increase of 0.4% compared to the same period of the previous year).

#### (2) Overview of Financial Condition for this Fiscal Year

Assets, liabilities, and net assets

Total assets at the end of this consolidated fiscal year were <u>73,626</u> million yen (a decrease of <u>5,388</u> million yen from the end of the previous consolidated fiscal year). This was mainly due to an increase in cash and deposits, while inventories and accounts receivable decreased.

Liabilities were 58,308 million yen (a decrease of 988 million yen from the end of the previous consolidated fiscal year). This was mainly due to a decrease in short-term loans payable and long-term loans payable, despite an increase in income taxes payable.

Net assets were  $\underline{15,317}$  million yen (a decrease of  $\underline{4,399}$  million yen from the end of the previous consolidated fiscal year). This was mainly due to decreases in retained earnings, capital surplus and foreign currency translation adjustments.

#### (3) Overview of Cash Flow for this Period

Cash and cash equivalents on a consolidated basis for the current consolidated fiscal year amounted to 11,559 million yen.

#### (Cash Flow through Sales Activities)

Cash flow through operating activities has amounted to 10,352 million yen income (8,660 million yen income in the previous consolidated fiscal year). This was mainly due to a decrease in inventories.

#### (Cash Flow through Investment Activities)

Cash flows through investing activities has amounted to 3,652 million yen expenditure (4,744 million yen expenditure in the previous consolidated fiscal year). This was mainly due to the acquisition of property, plant and equipment.

#### (Cash Flow through Financial Activities)

Cash flows through financing activities amounted to 5,567 million yen expenditure (3,454 million yen expenditure in the previous consolidated fiscal year). This was mainly due to the repayment of short-term borrowings and the acquisition of treasury stock.

#### (4) Future Perspectives

The global economy is expected to continue to recover slowly, although some regions are showing signs of slowing down. On the other hand, the future is expected to remain uncertain due to factors including the continuation of global monetary tightening, concerns about a downturn in overseas economies, high energy and resource prices, geopolitical risks, fluctuations in financial and capital markets, as well as the impact of trends in U.S. tariff policies.

In line with this, each of the customer companies of the EMS business, which is the Group's main business, is also anticipating the expansion of the electronic components market due to the increasing demand for in-vehicle equipment, semiconductors, and capital investment, such as the electrification of in-vehicle equipment, advances in autonomous driving technology, and higher performance through the introduction of digital technology.

In such a management environment, the forecast for the next period is a consolidated sales of 115,000 million yen (a 12.8% decrease compared to the current consolidated fiscal year), an operating profit of 1,800 million yen (a 16.2% decrease compared to the current consolidated fiscal year), an ordinary profit of 1,500 million yen (an 8.9% decrease compared to the current consolidated fiscal year), and a net profit attributable to the parent company shareholders of 1,000 million yen (compared to a net loss attributable to the parent company shareholders of 2,508 million yen in the current consolidated fiscal year). Now, the assumed exchange rate for the US dollar is 140 yen.

#### 2. Basic Concept Regarding Accounting Standard Selection

We are inclined to elaborate on consolidated financial statements based on Japanese standards for the time being as period comparability of consolidated financial statements and comparability between companies are taken into account.
