1. Qualitative information on results for the Six months ended June 30, 2025

(1) Overview of operating results

The BASE Group operates with the mission of “Payment to the People, Power to the People.”

Our businesses include the BASE Business, which offers the online shop creation service “BASE” and the buyer-focused shopping service “Pay ID”; the PAY. JP Business, which provides the online payment service “PAY. JP”; the YELL BANK Business, which offers financing services such as “YELL BANK”; and the want.jp Business, which provides cross-border e-commerce services through “want.jp.”

Through these services, we are dedicated to empowering individuals and small teams, as well as supporting startup companies.

According to the “FY2023 Survey on Electronic Commerce” conducted by Japan’s Ministry of Economy, Trade and Industry, the domestic BtoC e-commerce market in the goods category continued to grow steadily in 2023, albeit at a moderate pace compared to the COVID-19-affected years of 2020 and 2021. Sales via smartphones grew at a higher rate than the overall average.

The domestic service category also exhibited robust growth, with the 2023 market size exceeding pre-pandemic levels.

We recognize that these trends continued during the current consolidated fiscal period, contributing to the sustainable growth of our BASE Business, which is centered on physical goods e-commerce, and our PAY. JP Business, where a certain proportion of merchants operate in the services sector.

In this business environment, the BASE Business continued to strengthen its products with the aim of maintaining its overwhelmingly preferred position among a wide range of individuals and small teams and achieving sustainable mid- to long-term growth.

The PAY. JP Business focused on enhancing its product offering by making its online payment functions even simpler and easier to implement and operate, targeting startup and venture companies, thereby supporting the growth of existing merchants and acquiring new ones.

In the YELL BANK Business, we remained committed to solving cash flow challenges for all of our merchants by providing low-risk financing solutions.

Additionally, in the want.jp Business, operated by want.jp, Inc., which became a consolidated subsidiary in August 2024, we provide cross-border e-commerce services that facilitate Japanese e-commerce operators’ access to local sales networks around the world.

As a result, for the six months ended June 30, 2025, the BASE Group recorded Net Sales of ¥9,144 million (up 24.8% year on year), Operating Profit of ¥570 million (up 12.2% year on year), Ordinary Profit of ¥579 million (up 12.5% year on year), and Net Income Attributable to Owners of Parent of ¥446 million (down 1.0% year on year).

Please note that beginning of the previous fiscal year, we added the “want.jp Business” as a new reporting segment following the consolidation of want.jp, Inc. In addition, we changed the name of the segment previously referred to as “Other Businesses” to the “YELL BANK Business.”

The performance of each segment is outlined below.

A) BASE Business

During the six months ended June 30, 2025, the GMV (Gross Merchandise Volume) of the BASE Business increased largely in line with expectations year on year, supported by growth in both the number of active merchants and the monthly average GMV per merchant.

As a result, GMV for the second quarter totaled ¥80,572 million on an order basis and ¥77,584 million on a payment basis (up 9.9% and 11.7% year on year, respectively). Net Sales for the segment were ¥4,938 million (up 16.5% year on year), and Segment Profit was ¥593 million (up 41.2% year on year).

In order to improve the profitability of the BASE Business, we introduced a paid subscription model for the Pay ID shopping app starting July 1.

During the six months ended June 30, 2025, we focused on planning and development of product enhancements and marketing initiatives in preparation for this change. (*)

(*) For details on the expected impact of this transition on the results for the fiscal year ending December 31, 2025, please refer to the disclosure titled “Notice Regarding the Introduction of Sales Commission on the Pay ID App” released on May 8

B) PAY.JP Business

During the six months ended June 30, 2025, the GMV of the PAY. JP Business increased largely in line with expectations year on year. The gross profit margin also improved due to a lower cost of sales ratio.

As a result, GMV for the second quarter was ¥111,151 million (up 15.2% year on year). Net Sales were ¥3,067 million (up 14.1% year on year), and Segment Profit was ¥169 million (up 41.4% year on year).

C) YELL BANK Business

During the six months ended June 30, 2025, the YELL BANK Business continued to grow steadily, driven by the expansion of the YELL BANK service, in line with expectations year on year.

As a result, Net Sales for the second quarter were ¥523 million (up 30.8% year on year), and Segment Profit was ¥239 million (up 52.9% year on year).

D) want.jp Business

During the six months ended June 30, 2025, Net Sales of the want.jp Business were ¥618 million, and Segment Loss was ¥13 million.

Development of the cross-border e-commerce functionality for BASE shops, which is being advanced jointly with the BASE segment, continues to progress as planned.

(2) Overview of financial position

(Assets)

Total assets as of June 30, 2025 were ¥42,785 million, a decrease of ¥3,502 million from the end of the previous fiscal year. This was mainly due to decreases of ¥6,496 million in cash and deposits and ¥569 million in accounts receivable - trade, which offset an increase of ¥3,477 million in other current assets.

(Liabilities)

Total liabilities as of June 30, 2025 were ¥29,371 million, a decrease of ¥3,316 million from the end of the previous fiscal year. This was mainly due to decreases of ¥3,024 million in accounts payable - trade and ¥232 million in other current liabilities.

(Net assets)

Net assets as of June 30, 2025 were ¥13,414 million, a decrease of ¥186 million from the end of the previous fiscal year. This was mainly due to a decrease of ¥999 million resulting from the acquisition of treasury shares, which offset an increase of ¥446 million in retained earnings resulting from the recording of profit attributable to owners of parent, and increases of ¥112 million in capital stock and ¥112 million in capital surplus resulting from the issuance of new shares as restricted stock-based compensation.

(Cash flows status)

Cash and cash equivalents (hereinafter, "cash") as of June 30, 2025 were ¥19,233 million, a decrease of ¥6,496 million from the end of the previous fiscal year. The respective statuses of cash flows during the six months ended June 30, 2025 and their contributing factors are as follows:

(Cash flows from operating activities)

Net cash used in operating activities amounted to ¥2,099 million (¥521 million used in the same period of the previous fiscal year). The main reasons for the cash increase were increases of ¥579 million in profit before income taxes and ¥562 million in accounts receivable - other. The main reasons for the cash decrease were a decrease of ¥3,024 million in accounts payable - trade and ¥206 million in income taxes paid.

(Cash flows from investing activities)

Net cash used in investing activities amounted to ¥3,382 million (¥9 million used in the same period of the previous fiscal year). The main reasons for the cash decrease were ¥3,326 million in purchase of shares of subsidiaries resulting in change in scope of consolidation and ¥6 million in purchase of property, plant, and equipment.

(Cash flows from financing activities)

Net cash used in financing activities amounted to ¥1,007 million (¥4 million provided in the same period of the previous fiscal year). The main reasons for the cash decrease were ¥999 million in purchase of treasury shares and ¥20 million in repayments of long-term borrowings.

(3) Overview of forecast of operating results including consolidated financial results

The mid-term management policy remains unchanged, aiming for EBITDA growth by balancing top-line expansion through the enhancement of existing products and profitability improvements. Additionally, to drive inorganic growth, the focus will be on expanding the target customer base through proactive M&A and partnerships while implementing BASE Group's unique value creation initiatives to maximize corporate value.

Based on this approach, the management policy and consolidated earnings forecast for the fiscal year ending December 2025 are as follows.

In the BASE Business, efforts will be made to boost mid-term GMV growth rates by refocusing on new shop acquisitions, while take rate improvements will be pursued through the monetization of Pay ID, scheduled for the second half of the fiscal year.

In the PAY.JP Business, gross profit growth will be driven by GMV expansion, supported by the addition of new payment methods and enhanced sales and marketing efforts to strengthen new merchant acquisition.

In the YELL BANK Business, in order to maintain a sustainable operational foundation, fine-tuning of YELL BANK will be implemented following its rapid growth in 2024, with the primary driver of gross profit growth continuing to be the expansion of YELL BANK.

In the want.jp Business, efforts will be made for an early turnaround of existing operations while continuing collaboration with the BASE Business to accelerate the launch of cross-border EC functionalities.

Based on the above, consolidated net sales are projected to reach JPY 19,600 million (+22.6% YoY), and consolidated gross profit is expected to be JPY 9,085 million (+26.8% YoY). Selling, general, and administrative expenses are expected to reach JPY 8,085 million (+26.5% YoY), primarily due to increased promotional investments in BASE and Pay ID, as well as the full-year consolidation impact of want.jp. This includes approximately JPY 300 million in strategic investments for mid-to-long-term growth, though delays or partial underutilization may occur.

As a result, operating profit is expected to be JPY 1,000 million (+29.4% YoY).

It should be noted that the impact of the planned acquisition of Estore Corporation in July 2025 is not included in the above FY2025 earnings forecast.

2. Information on changes in reportable segments, etc.

Beginning of the previous fiscal year, “want.jp Business” was added as a reportable segment as a result of making want.jp Inc. a consolidated subsidiary. In addition, the former “Other Business” segment was renamed as “YELL BANK Business.” This change in segment name has no impact on segment information. The segment information for the previous six months ended June 30, 2024, is also presented under the new name.

(Significant subsequent events)

At the meeting of its Board of Directors held on December 26, 2024, the Company resolved to enter into a share transfer agreement (the “Share Transfer Agreement”) with JG27 Inc. (“JG27”) to acquire from JG27 all issued shares of Estore Corporation (“Estore”) (the “Share Acquisition”) as part of a series of transactions aimed at making Estore a wholly owned subsidiary of the Company (the “Full Subsidiarization”), including a public tender offer for common shares of Estore by JG27. The Share Transfer Agreement was executed with JG27 on the same date.

Following the completion of all necessary procedures for the Share Acquisition including the Full Subsidiarization, the Company has acquired all issued shares of Estore on July 18, 2025, and Estore has consequently become a wholly owned subsidiary of the Company.

(2) Purpose

Estore Corporation has been providing comprehensive support for e-commerce through services such as “Estore Shopserve” (Note), which embodies the essence of the internet’s peer-to-peer nature and focuses on D2C since its inception.

Our growth strategy is built on three key pillars. The first pillar is balancing GMV growth and profitability through the enhancement of existing products such as “BASE,” “PAY. JP,” “Pay ID,” and “YELL BANK.” The second pillar is accelerating growth by creating synergies among existing products. The third pillar focuses on achieving the Group’s inorganic growth through M&A and strategic alliances. While continuing to prioritize the growth of existing products, we aim to expand our target customer base through proactive M&A and other initiatives for the Group’s inorganic growth.

The services we offer include “BASE,” which enables individuals and small teams to integrate payment solutions into their own online stores and easily operate them; “PAY. JP,” which allows startups to seamlessly integrate payment solutions into their services; “YELL BANK,” a funding service; “Pay ID,” a shopping service for customers making purchases through “BASE”; and “want.jp,” which supports cross-border e-commerce for Japanese merchants. These services excel in addressing challenges related to e-commerce, payments, and financial solutions. By leveraging these strengths, alongside the strengths of services provided by Estore, we determined we can further enhance the value Estore delivers to its “Estore Shopserve” merchants. and therefore we have resolved the Share Acquisition.
