

## FOR IMMEDIATE RELEASE

Lasertec Corporation  
2-10-1 Shin-yokohama, Kohoku-ku, Yokohama  
(Code 6920 / Tokyo Stock Exchange Prime Market)

### **Notice Regarding Share Buyback (Share Buyback Pursuant to Article 165, Paragraph 2 of the Companies Act)**

**Yokohama, August 7, 2025** - Lasertec Corporation announced today that its Board of Directors resolved as follows on the matters related to share buyback pursuant to Article 156 of the Companies Act, as applied pursuant to Article 165, Paragraph 3 of the Companies Act.

#### 1. Purpose of share buyback

Our priority of capital allocation is to provide working capital for operations to meet market demand and make investments for medium- to long-term growth. Additionally, our guideline for dividend payout ratio is 35% on a consolidated basis. In this background, we have decided to buy back shares for the purpose of increasing enterprise value and shareholder returns after comprehensively considering various factors including business environment, growth opportunities, current capital efficiency, financial health, and stock price.

We are considering using the treasury shares to be repurchased in this buyback for future M&As and other initiatives that will contribute to increasing our enterprise value.

We will consider repurchasing shares flexibly as a means of shareholder returns, in addition to following our existing dividend policy, while taking into account our needs for growth investment and working capital as well as stock price.

#### 2. Details of share buyback

(1)	Class of shares subject to buyback	Common stock
(2)	Total number of shares to be repurchased	Up to 1,000,000 shares (1.1 % of the total number of issued shares, excluding treasury shares)
