### Reasons for the revision

Operating revenue is expected to exceed substantially the initial forecast mainly due to the increase in revenue from live events and revenue from sales of merchandise related to large-scale concert tours by artists such as SOUTHERN ALL STARS and Gen Hoshino.

In addition, operating profit, ordinary profit, and profit attributable to owners of the parent are revised upward due to the increase in operating revenue mentioned above.

The revisions to the financial forecasts have not caused any changes to the announced interim and year-end dividend forecasts.

The Company does not guarantee that the forecasts will be achieved. Actual performance may differ substantially from these forecasts owing to a wide range of factors.
