Notice concerning Acquisition of Shares of Newly Established Company for the Purpose of Acquiring Part of Resonac Corporation's Mobility Business

MORIROKU COMPANY, LTD. (hereinafter the "Company") resolved, at a Board of Directors meeting held today, to acquire all shares of Preparatory Company for Molded Components Split, Inc. and make it our subsidiary (hereinafter referred to as the "Share Acquisition"). Preparatory Company for Molded Components Split, Inc. (hereinafter referred to as the "New Company") will be newly established by Resonac Corporation (Head office: Minato-ku, Tokyo; President and CEO: Hidehito Takahashi; hereinafter referred to as "Resonac"), and the purpose of the Share Acquisition is to acquire part of Resonac's mobility business.

We hereby announce that after the Share Acquisition, the New Company and its subsidiaries—Resonac Automotive Products Corporation and Resonac Automotive Products (Thailand) Co., Ltd.—will become consolidated subsidiaries of the Company.

Notice

1. Reason for the Share Acquisition

Under the "CREATE NEW VALUE" long-term vision for 2035, the Company aims to achieve sustainable growth and enhance corporate value based on our mission of providing valuable solutions to society by fully leveraging our manufacturing technologies and the power of chemistry.

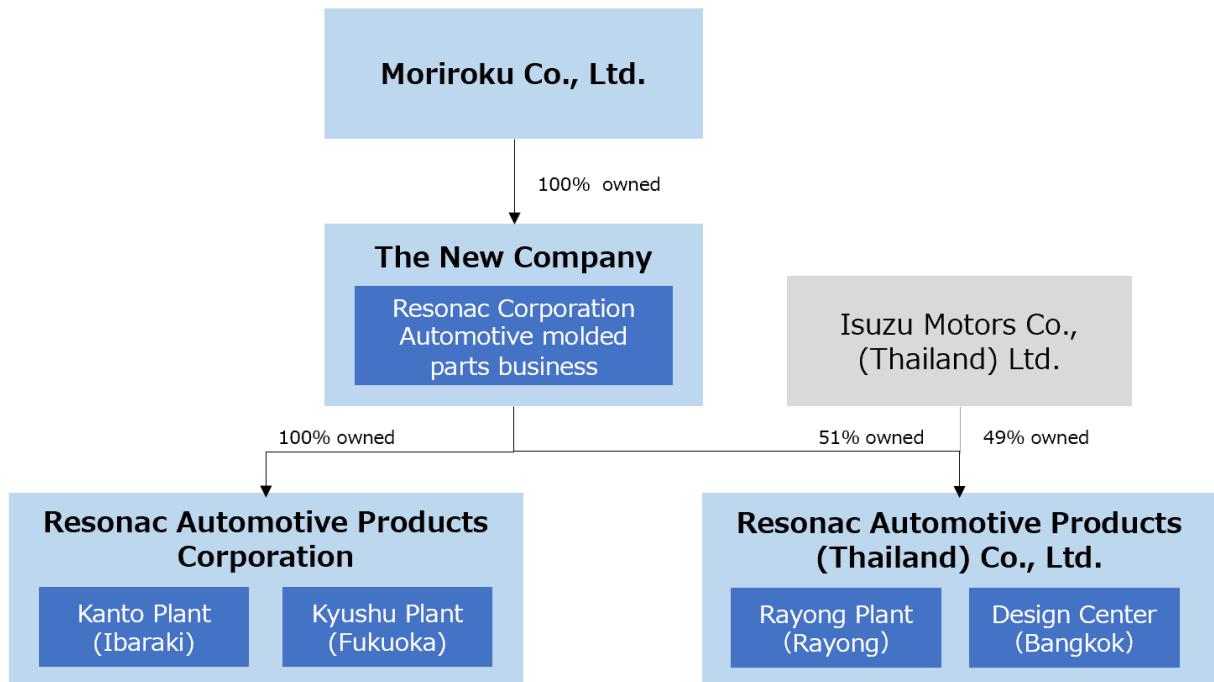

The Company will take over the business (hereinafter referred to as the "Target Business") of the New Company (the entity that succeeded to Resonac's automotive molded parts business through a company split), the Kanto Plant (Ibaraki Prefecture) and Kyushu Plant (Fukuoka Prefecture) of Resonac Automotive Products Corporation (a subsidiary of Preparatory Company for Molded Components Split, Inc.), as well as Resonac Automotive Products (Thailand) Co., Ltd.

The Target Business focuses on manufacturing and sales of exterior resin components. By utilizing its proprietary technologies, it provides various high-value-added products, such as Japan's first resin backdoors and the world's first exterior foam-molded resin components. It also has a solid foundation to meet industry needs, including weight reduction and modularization.

Through this acquisition, the Company will create highly competitive products and solutions by combining the decorative, electrical, and lightweight technologies we have cultivated to date with the exterior foam-molded and modularization technologies of the Target Business. By accelerating our growth strategy and further strengthening our competitiveness through the synergies generated through this transaction, we aim to realize our 2035 vision and continually enhance our corporate value.

The organizational chart after the Share Acquisition is shown on the next page.

After the Share Acquisition, the Company plans to change the trade names of the New Company, Resonac Automotive Products Corporation, and Resonac Automotive Products (Thailand) Co., Ltd.; however, the new trade names have yet to be determined.

2. Outline of the subsidiaries subject to reassignment

(i) The New Company

(1) Name	Preparatory Company for Molded Components Split, Inc. (planned)	
(2) Address	1-9-1 Higashi-Shimbashi, Minato-ku, Tokyo, Japan (planned)	
(3) Title and name of representative	Tomohiro Hirata, Representative Director (planned)	
(4) Business	Manufacturing and sales of molded resin interior and exterior components for automobiles	
(5) Capital	1 yen (planned)	
(6) Date of establishment	September 25, 2025 (planned)	
(7) Major shareholders and shareholding ratio	Resonac Corporation 100.0%	
(8) Relationship between the listed company and the company concerned	Capital relationship	Not applicable
	Personal relationship	Not applicable
	Business relationship	Not applicable
