Notice Regarding Large Order Received by Subsidiary

TESS Holdings Co., Ltd. (the “Company”) hereby announces that the Company’s consolidated subsidiary, TESS Engineering Co., Ltd., resolved at its Board of Directors meeting held today to accept a large order for EPC (Engineering, Procurement, and Construction) of power storage plants for power grids, as described below.

1. About the order

The Group, under the management philosophy of “Total Energy Savings & Solutions,” for realizing a sustainable society, focuses on the areas of “renewable energy as main power source,” “energy-efficiency maximization,” and “intelligent- energy infrastructure.” Based on this, we operate two businesses: (1) the Engineering Segment, which provides EPC services for energy plants and utility equipment, and (2) the Energy Supply Segment, which includes ownership, operation, and electricity sales of renewable energy power plants, operation and maintenance (O&M), electricity retailing, and resource recycling biomass fuel supply. We offer comprehensive solutions to solve the challenges facing various customers in the industrial sector, such as environmental measures, energy conservation, and energy cost reductions. Additionally, as announced in the TESS Group medium-term management plan (2025–2030), titled “TX2030 TESS Transformation 2030” on August 14, 2024, we identified “power-storage system-related business” as a new priority area and have been actively pursuing initiatives such as the “development of power storage plants for power grids” and “FIP conversion of FIT solar power plants + storage battery co-location.”

Regarding the large order, the Company’s consolidated subsidiary, TESS Engineering Co., Ltd., accepts an order for EPC of power storage plants for power grids, and this is part of the initiatives to develop power storage plants for power grids under the business alliance between the Company and Daiwa Energy & Infrastructure Co. Ltd., announced on February 5, 2025.

2. Details of the order

(1) Order received from	DEI Battery Fund Beta LLC (Investment through Daiwa Energy & Infrastructure Co. Ltd.)
(2) Orders received	EPC of power storage plants
(3) Amount of orders received	Approximately 13.0 billion yen
(4) Delivery date	April 2028 (planned)

(Note) In the event that the development requirements are not met for the construction contract regarding this order (the “Contract”), there is a possibility that the Contract will be terminated.

3. Future outlook

Income from this large order is scheduled to be recorded over time, in accordance with revenue recognition standards, from the fiscal year ending June 30, 2026 through the fiscal year ending June 30, 2028, and the impact on the consolidated financial results for the fiscal year ending June 30, 2026 is expected to be minimal.

Should the impact on consolidated financial results become significant in the future, the relevant information is expected to be disclosed in a timely manner.
