2. Purpose and Reason for Issuance

At its Board of Directors meeting held on January 19, 2022, the Company resolved to introduce a restricted stock compensation plan (hereinafter referred to as the "Plan") as a new compensation system for its directors (excluding directors serving on the Audit & Supervisory Committee and outside directors; hereinafter referred to as "Eligible Directors"). The purpose of this Plan is to provide incentives to the Eligible Directors to continuously enhance the Company's corporate value and to further promote value sharing with shareholders. Furthermore, at the Board of Directors meeting held on September 29, 2025, it was resolved to extend the scope of this Program to include the Company's employees (hereinafter referred to as "Eligible Employees"; collectively, the Target Directors and Eligible Employees are hereinafter referred to as the "Eligible Persons").

At the 52nd Ordinary General Meeting of Shareholders held on September 28, 2022, the Company resolved to provide Directors with a cash payment (hereinafter referred to as "Restricted Stock Compensation") of up to 50 million yen per year as capital for acquiring Restricted Stock under this Program. as compensation for the acquisition of restricted shares. and that the transfer restriction period for the restricted stock shall be from the date of allocation of the Company's common stock pursuant to the restricted stock allocation agreement to be concluded between the Company and the Target Director until the date the Target Director ceases to hold the position of director of the Company or any other position specified by the Board of Directors. Furthermore, after

introducing this system, the Company conducted stock splits of its common stock on July 29, 2023, January 1, 2025, and July 1, 2025, at ratios of 30:1, 2:1, and 3:1, respectively. Consequently, the number of shares of the Company's common stock issued or disposed of to eligible directors under this system on or after these dates has been adjusted according to the split ratio and is limited to 180,000 shares per year.

The outline of this system is as follows.

<Overview of This System>

The Target Person shall pay in all monetary claims provided by the Company under this system as in-kind contributed property and shall receive the issuance or disposition of the Company's common stock. The payment amount per share shall be determined by the Board of Directors based on the closing price of the Company's common stock on the Tokyo Stock Exchange on the business day preceding the date of the respective Board resolution (if no trading occurred on that day, the closing price on the immediately preceding trading day), within the scope that does not constitute an amount particularly favorable to the Target Person subscribing for such common stock.

Furthermore, upon the issuance or disposition of the Company's common stock under this system, the Company and the relevant party shall enter into a restricted stock allocation agreement. The terms of this agreement shall include: (i) the relevant party shall be prohibited from transferring, pledging as collateral, or otherwise disposing of the Company's common stock allocated under the restricted stock allocation agreement to any third party for a specified period; and (ii) the Company shall acquire such common stock without consideration upon the occurrence of certain specified events.

This time, with the aim of further enhancing the motivation of each Target Person, we have decided to grant a total monetary claim of 34,304,424 yen (hereinafter referred to as the "Principal Monetary Claim") and 27,356 shares of common stock.

In this new share issuance, based on this program, the nine target individuals, who are the intended allottees, will pay in all of their principal monetary claims against the Company as in-kind contributed assets and receive the issuance of the Company's common stock (hereinafter referred to as the "Allocated Shares").

Furthermore, when granting shares to eligible employees, the Company will provide each eligible employee with monetary claims for in-kind contributions. Therefore, this new share issuance will not result in a reduction of wages for any eligible employee. Additionally, the Allocated Shares will only be assigned to eligible employees who wish to accept them. If no acceptance application is made, the Principal Monetary Claims will be extinguished.

The outline of the restricted stock allocation agreement (hereinafter referred to as the "Allocation Agreement") to be concluded between the Company and the Target Persons in connection with this new share issuance is as described in "3. Outline of the Allocation Agreement" below.

Furthermore, the Target Employees shall agree to the terms of the management of such accounts.

4. Basis for Calculating the Payment Amount and Specific Details

The issuance of these new shares to the planned allottees will be made using monetary claims paid as restricted stock compensation for the Company's 54th fiscal year under this system as contributed capital. The issue price is set at ¥1,254, which was the closing price of the Company's common stock on the Tokyo Stock Exchange Standard Market on September 26, 2025 (the business day preceding the Board of Directors' resolution date). This price reflects the market share price immediately prior to the Board resolution date and is considered reasonable and not particularly advantageous.

5. Matters Concerning Transactions with Controlling Shareholders

Among the directors eligible to receive an allocation of the new shares, Mr. Koichi Okamura, President and Representative Director of the Company, holds 55.44% of the Company's voting rights (as of June 30, 2025), including shares held by Okamura Co., Ltd., his asset management company. Therefore, the issuance of new shares to Mr. Koichi Okamura constitutes a transaction with a controlling shareholder.

The appropriateness of the content and conditions of this new share issuance was deliberated and resolved

by the Company's Board of Directors. In connection with this Board resolution, the Company obtained opinions dated today from all outside audit committee members, who have no interest in the controlling shareholder, stating that the decision regarding this new share issuance is not disadvantageous to minority shareholders. This opinion was reached after comprehensive consideration from the perspectives of the purpose of the transaction, the appropriateness of procedures, the fairness of consideration, the impact of dilution, and the enhancement of the listed company's corporate value, based on the following reasons:

- (iv) This new share issuance is confirmed to be conducted within the scope of the resolution passed at the 52nd Ordinary General Meeting of Shareholders held on September 28, 2022, and does not deviate from the general terms and conditions, being appropriate.

(3) Compliance with the Corporate Governance Report

The "Guidelines on Measures to Protect Minority Shareholders in Transactions with Controlling Shareholders" disclosed in the Corporate Governance Report on September 29, 2025, are as follows:

"The Company has a policy of fundamentally not engaging in transactions with controlling shareholders. In the unlikely event that the Company enters into a significant transaction with a controlling shareholder that conflicts with the interests of minority shareholders, the Board of Directors will make decisions only after thorough deliberation regarding the reasonableness and appropriateness of the transaction rationale and terms, ensuring that the soundness of the Company's management and the interests of minority shareholders are not harmed. Furthermore, the Board of Directors consists of a majority of outside directors."

This new share issuance was deliberated and resolved at today's Board of Directors meeting, implementing the measures described in the above "(1) Measures to Ensure Fairness and Avoid Conflicts of Interest" and "(2) Opinion Regarding the Absence of Disadvantage to Minority Shareholders."
