### Notice Concerning Revision to the Forecast of the Interim Dividend (Dividend Increase) for the Fiscal Year Ending March 31, 2026

Based on recent business performance trends, Juroku Financial Group, Inc. (hereinafter, “16FG”) hereby announces the revision to the forecast for the interim dividend (dividend of surplus) for the fiscal year ending March 31, 2026, which was originally announced on May 9, 2025, as described below .

The formal decision regarding the interim dividend will be made at the Board of Directors meeting scheduled to be held in mid-November of this year.

#### 1. Revision to the dividend forecast

	Annual dividend per share		
	Second quarter-end	Fiscal year-end	Total
Previous forecast ( announced on May 9, 2025)	¥90.00	¥90.00	¥180.00
Revised forecast	¥100.00	¥90.00	¥190.00
Actual results for the fiscal year ending March 31, 2026	—	—	—
Actual results for the previous fiscal year (Fiscal year ended March 31, 2025)	¥80.00	¥100.00	¥180.00

#### 2. Reasons for the revision

Considering the expectation that the consolidated financial results forecasts for the six months ended September 30, 2025 will exceed the publicly announced forecast, and based on 16FG’s shareholder return policy, 16FG has decided to revise the forecast for the interim dividend for the fiscal year ending March 31, 2026.

Specifically, 16FG will increase the dividend by ¥10 per share from the most recent forecast of a ¥90 ordinary dividend per share, resulting in a forecasted dividend of ¥100 per share.

It should be noted that 16FG aims to achieve the initial full-year financial results forecasts, and the year-end dividend forecast remains unchanged from the most recent prediction. Consequently, the forecasted annual dividend will be ¥190 per share, representing a ¥10 increase.
