**Sumitomo Chemical Announces Variances between its Financial Forecast and Actual Results for the Second Quarter (Interim Period) of the Full Year Ending March 31, 2026, and Revisions to its Financial Forecast for the Full Year Ending March 31, 2026**

Sumitomo Chemical Co., Ltd. (hereinafter, the "Company") announces variances between its consolidated financial forecast, announced by the Company on August 1, 2025, for the second quarter (Interim Period) of the full year ending March 31, 2026, and the actual results for the period announced today. In addition, the Company also announces that, based on recent performance trends, the Company has made revisions to its consolidated financial forecast for the full year ending March 31, 2026, previously announced on May 14, 2025. Details of both the variances and the revisions are provided below.

**1. Variances between Consolidated Financial Forecast and Actual Results for the Second Quarter (Interim Period) of the Full Year Ending March 31, 2026**

(Millions of yen)

	Sales Revenue	Core Operating Income*	Operating Income	Interim Net Income Attributable to Owners of the Parent	Earnings per Share (yen)
Previous forecast (A)	1,100,000	90,000	85,000	25,000	15.28
Actual results (B)	1,095,394	108,716	103,685	39,699	24.26
Variance in amount (B-A)	(4,606)	18,716	18,685	14,699	
Variance in percentage (%)	(0.4)%	20.8%	22.0%	58.8%	
Results for the second quarter (interim period) of the fiscal year ended March 31, 2025	1,241,395	29,476	121,249	(6,527)	(3.99)

\* Core operating income is a gain and loss concept that reflects recurring earning capacity by deducting gains and losses incurred by non-recurring factors from operating income, which includes the share of profits or losses from investments accounted for using the equity method.

**Reasons for the Variance**

For Sumitomo Pharma, in addition to strong sales of ORGOVYX® (therapeutic agent for advanced prostate cancer) in North America, there was a reduction in selling, general and administrative expenses including research and development expenses. Due to these factors, core operating income and operating income exceeded the previous forecast. Not only operating income improved, but there were also gains in foreign exchanges due to a weaker yen and further gains from the reversal of deferred tax liability. As a result, interim net income attributable to owners of the parent also exceeded the previous forecast.

**2. Revisions to Consolidated Financial Forecast for the Full Year Ending March 31, 2026  
(April 1 2025-March 31, 2026)**

(Millions of yen)

	Sales Revenue	Core Operating Income*	Operating Income	Net Income Attributable to Owners of the Parent	Earnings per Share (yen)
Previous forecast (A)	2,340,000	150,000	105,000	40,000	24.44
Revised forecast (B)	2,290,000	185,000	160,000	45,000	27.50
Variance in amount (B-A)	(50,000)	35,000	55,000	5,000	
Variance in percentage (%)	(2.1)%	23.3%	52.4%	12.5%	
Results for the full year ended March 31, 2025	2,606,281	140,519	193,033	38,591	23.59

\* Core operating income is a gain and loss concept that reflects recurring earning capacity by deducting gains and losses incurred by non-recurring factors from operating income, which includes the share of profits or losses from investments accounted for using the equity method.

**Reasons for the Revision**

Regarding the forecast for the full fiscal year ending March 31, 2026, in Essential & Green Materials, the Company anticipates a decline in sales revenue from the previous forecast due to decreased shipments of synthetic resins. On the other hand, in Sumitomo Pharma, the Company anticipates that sales in North America will continue to be strong. Due to these factors, core operating income, operating income, and net income attributable to owners of the parent are expected to exceed the previous forecast. Regarding the partial sale of shares in Petro Rabigh, the Company has incorporated the impact on the profits and losses at each phase. For more information, please see the Company's press release "(Progress of Disclosure Matters) Notice Regarding the Recording of Gain on Sale of a Portion of the Class A Ordinary Shares Sumitomo Chemical Holds in Petro Rabigh, and Associate Accounted for Using the Equity Method and Loss on Valuation of Newly Acquired Petro Rabigh Class B Ordinary Shares in Consolidated Financial Statements, and Extraordinary Losses in Non-Consolidated Financial Statements Pertaining to the Class B Ordinary Shares," which was published on October 22, 2025.

**Cautionary Statement**

Statements made in this document with respect to the Company's current plans, estimates, strategies and beliefs that are not historical facts are forward looking statements about the future performance of the Company. These statements are based on management's assumptions and beliefs in light of the information currently available to it, and involve risks and uncertainties. The important factors that could cause actual results to differ materially from those discussed in the forward-looking statements include, but are not limited to, general economic conditions in the Company's markets; demand for, and competitive pricing pressure on, the Company's products in the marketplace; the Company's ability to continue to win acceptance for its products in these highly competitive markets; and movements of currency exchange rates.
