According to preliminary figures for October 2025, key performance indicators continued to show steady growth. As of October, the number of new members, marriage meetings, and number of couples (excluding confirmation base) all exceeded the cumulative results of December 2024. This reflects the growing demand for marriage-related services and increased user engagement within the IBJ platform.

Toward the end of the year, the number of successful matches typically increases. Accordingly, we anticipate further improvements in various KPIs and overall business performance as we approach the fiscal year-end.

To achieve the goals outlined in our Medium-Term Management Plan for 2027, we will continue to invest in human capital and business expansion. As a leading company in the marriage support industry, we are committed to achieving sustainable growth.
