IRISO ELECTRONICS CO., LTD (the “Company”) hereby announces that, based on the recent business performance, the Company has revised its full-year consolidated earnings forecast initially announced on May 7, 2025. At the board meeting held on November 5, 2025, the Company resolved to revise its dividend forecast, raising dividend and 60th anniversary commemorative dividend).

2. Reasons for Forecast Revision

During the six months ended September 30, 2025, business performance exceeded expectations announced on August 4, 2025, as in the infotainment market, demand for high-speed transmission floating BtoB connector remains robust, helped by increased data volumes handled by vehicles, while in the xEVs (EV, FCHV, PHV, HEV) powertrain market, strong sales performance continued in China.

Given this situation, net sales in the full-year consolidated earnings forecast are expected to exceed the previous estimate.

Ordinary profit is also expected to increase from the previous estimate, helped by foreign exchange gains resulting from weaker yen than expected, while net income attributable to owners of the parent is also expected to exceed previous forecast, helped by state subsidy income.

Note: The above forecast is based on information available as of the date of this announcement. Given a range of factors expected ahead, actual results may differ from the forecast.

2. Dividend Forecast Revision

(1) Revised Year-End Dividend Forecast for the Fiscal Year Ending March 2026

To commemorate this milestone and to show our gratitude to our shareholders, we have decided to issue a commemorative dividend of ¥40 per share as part of the year-end dividend for the fiscal year ending March 2026. As a result, the year-end dividend is expected to increase to ¥150 per share, consisting of ordinary dividend of ¥110 and commemorative dividend of ¥40.

This proposal will be submitted for approval at the Annual General Meeting of Shareholders scheduled to be held in June 2026.
