[Additional Information]

[Application of revised generally accepted accounting principles in the United States (US-GAAP) at foreign affiliates]

Some of our foreign affiliates that adopt US GAAP has applied “Financial Services - Insurance” (Topic944) (ASU2018-12, ASU2019-09, ASU2020-11) from the beginning of the consolidated accounting period for the six months ended September 30, 2025.

The revised accounting standard pertains to the accounting treatment of liabilities related to future insurance benefits, etc. In accordance with this application, certain insurance liabilities of the affiliates were evaluated using a new calculation method, which included a change in discount rate and a review of insurance assumptions.

The revised accounting standard was applied retrospectively, and the consolidated financial statements for the six months ended September 30, 2024 and for the consolidated fiscal year ended March 31, 2025 were presented using figures after retrospective application. The cumulative effect of applying the revised accounting standard was added to or deducted from the net assets at the beginning of the consolidated fiscal year ended March 31, 2025.

As a result, profit attributable to owners of parent decreased by ¥27 million and income taxes (deferred) increased by ¥27 million for the six months ended September 30, 2024. Also, for the fiscal year ended March 31, 2025, the balance of securities increased by ¥93,933 million, other liabilities decreased by ¥8,329 million, deferred tax liabilities increased by ¥27 million, retained earnings decreased by ¥8,486 million, valuation difference on available-for-sale securities increased by ¥6,067 million, foreign currency translation adjustments decreased by ¥10,662 million and debt value adjustments of foreign subsidiaries and affiliates decreased by ¥5,514 million. Policy value adjustments of foreign subsidiaries and affiliates of ¥(3,618) million and valuation difference on policy reserves of foreign subsidiaries and affiliates of ¥124,448 million were newly recorded.

The impact on earnings per share is minor.
