*This document updates the material titled “Preliminary Report on Performance Values First Quarter of Fiscal Year 2025” published by Nidec on July 24, 2025, based on events including the adjusting events after the reporting period for the first quarter of the fiscal year ending March in the financial statement summary for the first quarter of the fiscal year ending March 2026 published by Nidec on November 14, 2025. Therefore, relevant figures in this document differ from those disclosed on July 24, 2025. The figures in this document do not take into account the impact on the consolidated financial statements from the ongoing investigation by the third-party committee and other internal investigations, and may be revised based on the results of the investigation..

Disclaimer Regarding Forward-looking Statements

These presentation materials and the related discussions contain forward-looking statements including expectations, estimates, projections, plans and strategies. Such forward-looking statements are based on management’s targets, assumptions and beliefs in light of the information currently available. Certain risks, uncertainties and other factors could cause actual results to differ materially from those discussed in the forward-looking statements. Such risks and uncertainties include, but are not limited to, changes in customer circumstances and demand, exchange rate fluctuations, and the Nidec Group’s ability to design, develop, mass produce and win acceptance of its products and to acquire and successfully integrate companies with complementary technologies and product lines. Please see other disclosure documents filed or published by the Nidec Group companies, including the Japanese securities report, for additional information regarding such risks and uncertainties. Nidec undertakes no obligation to update the forward-looking statements unless required by law.

The first page features a new product that incorporates scroll compressor technology obtained through our acquisition of Xecom, now added to Embraco’s product lineup. This will allow us to enter the air conditioning and heat pump market and strengthen our presence in the refrigerator field.

Topics of Q1

Nidec's HDD Motors Product Mix Improvement

High selling price, high-value-added nearline product ratio is increasing, accounting for over 80% of sales by value

9

Water Cooling Modules: Trial Operation of In-Row Type CDU for Full-Scale Introduction

Data center construction plans are increasing in Japan as well with the rise of AI, leading to a growing adoption of water cooling over conventional air cooling

MC Digital Realty NRT 12 data center located in Inzai, Chiba will start trial operation of Nidec's In-Row type CDU in August 2025.

Above photos depict In-Row type CDUs manufactured by Nidec which will achieve highly efficient IT infrastructure with its large-scale cooling system per data hall.

10

M&A: Acquisition of Xecom, a Chinese Scroll Compressor Manufacturer

Expanding into new areas of air conditioning and heat pump markets driven by the acquisition of Xecom's scroll compressors in addition to Embraco's reciprocating compressors

<Outline of the acquired company>

New Company Name	Nidec Scroll Technology (Changzhou) Co., Ltd. (Former Changzhou Xecom Energy Technologies Co., Ltd.)
Address	Floor 1, Building No. 2, No. 1 Xinsi Road, Xinbei District, Changzhou City, Jiangsu Province, China
Foundation	2021
New Director Chairman	Alberto Casnati
Principal Businesses	Design and production of high performance scroll compressors for air conditioning, heat pump and refrigeration
Number of employees	Approx. 75 as of December 2024
Net sales	RMB 123 million (approx. JPY 2.5 billion) for the fiscal year ended December 31, 2024

New Mid-Term Management Plan Conversion 2027

■ Mid-Term Management Plan (Goals and Policies) <Repost>

This slide includes forward-looking statements. See Disclaimer on Page 2.

Aiming to improve profitability through drastic reform including business restructuring, site consolidation, personnel cuts, etc.

<Mid-Term Management Plan>

(Billion yen)	FY24 (Actual)		FY27 (Forecast)
Net Sales	2,607.8	...	2,900
Operating Profit	237.8	...	350
Operating Profit Ratio	9.1%	...	12%
ROIC	7.1%	...	12%

<Policy> Three “Conversions”

1. “Convert” to high profit structure

- Business restructuring, reorganization, personnel cuts, etc.
- Improve operation process, systematizing, digital transformation

2. “Convert” to 5 Business Pillars to support the future growth (planned for FY26)

- Create a growth strategy across the boundaries of the businesses
- Consolidate and reinforce our business based on functional axes such as technology and manufacturing

3. “Convert” to truly global system

- Shift to global and lean organization including executive officer structure
- Establish global headquarter functions in FY25

13

■ “Convert” to High Profit Structure (Progress Update): ¥100 Billion Variable Cost Improvement

Reviewing non-profitable and non-core business as first step to cut ¥100 billion in variable cost

<Conversion2027 Corporate Policy>

- Sales with OPM Over 15% → Expansion
- Sales with OPM 10 to 15% → Expansion
- Sales with OPM 10% or lower → Downsizing
- Sales with OPM 5 to 10% → Downsizing
- Sales with OPM 5% or lower → Drastically downsizing/withdrawal

14

■ MOEN's High-Profit Energy Business: Tight Demand Lead by Alternators

High growth and profit energy area, a key driver for MOEN's growth contributing to company wide product mix improvement

<Quarterly Sales of MOEN>

<Addressing the strong demand day and night for North American data centers>

Performance Trends & Product Group Overview

Sales by Product Group (Apr-Jun FY2025)

Small Precision Motors: Sub-Segment Performance and Year-on-Year Changes

While the demand for IT-related products is slow,
new business shoots are emerging in the areas of generative AI and data center

<Sales by sub-segments of Small Precision Motors>

<Changes of sales and operating profit of Small Precision Motors>

This slide includes forward-looking statements. See Disclaimer on Page 2.

21

Small Precision Motors: Quarterly Performance

Strongly promoting initiatives to sow the seeds for mid-term growth and transform business portfolio

*TAM: Total Addressable Market

22

Automotive: Wide Variety of Products Ranging from Motors to Other Components

Aiming to become No.1 automotive system company
by anticipating the strong electrification demand boosted by CASE* mobility trends

<Sales portfolio of Automotive business>
