## Notice Concerning Anonymous Partnership Investment (Tokumei Kumiai Investment)

Remixpoint, Inc. (the “Company”) hereby announces that the Board of Directors of the Company resolved, at the meeting held today, to make anonymous partnership investment in NC Pioneer LLC (3-2-5 Kasumigaseki, Chiyoda-ku, Tokyo, Japan; Representative Partner: General Incorporated Association NCP; Executive Manager: Satoshi Chichii) which engages in acquisition, development, ownership, operation, etc. of grid-scale battery storage, as described below.

### 1. Reasons for anonymous partnership investment

In the storage batteries business run by our Electricity Storage Solution Business Division, growing demand for battery storage and high profitability are expected due to promotion of green transformation (GX) policies in Japan. Under such circumstances, to respond to the rapid market expansion of grid-scale battery storage which is indispensable for stabilizing the power grid due to emergence of renewable energy as main power sources, we are actively promoting capital investment in grid-scale battery storage and business development. Also, due to the transition from FIT (fixed feed-in tariff) to FIP, adjustment of power supply using battery storage will be indispensable for power operators to secure profit that better aligns with the market price. Therefore, we intend to further strengthen the FIP conversion business in the future.

As described above, the market for grid-scale battery storage, which is indispensable for stabilizing the power grid due to emergence of renewable energy as main power sources, is rapidly expanding, and early market entry and participation in large-scale projects are the key to business growth. To respond to this urgent demand while making maximum use of limited funds, we judged that, in addition to capital investment and business development, making strategic use of the anonymous partnership investment scheme to invest in high-quality grid-scale battery storage projects will further accelerate growth of our

Electricity Storage Solution Business, and that securing profit in a more stable manner while diversifying risk will lead to improvement of our corporate value. We therefore decided to make anonymous partnership investment of 2 billion yen.
