■ Number of Members: Quarterly Transition

■ Franchise Stores ■ Directly Operated Stores

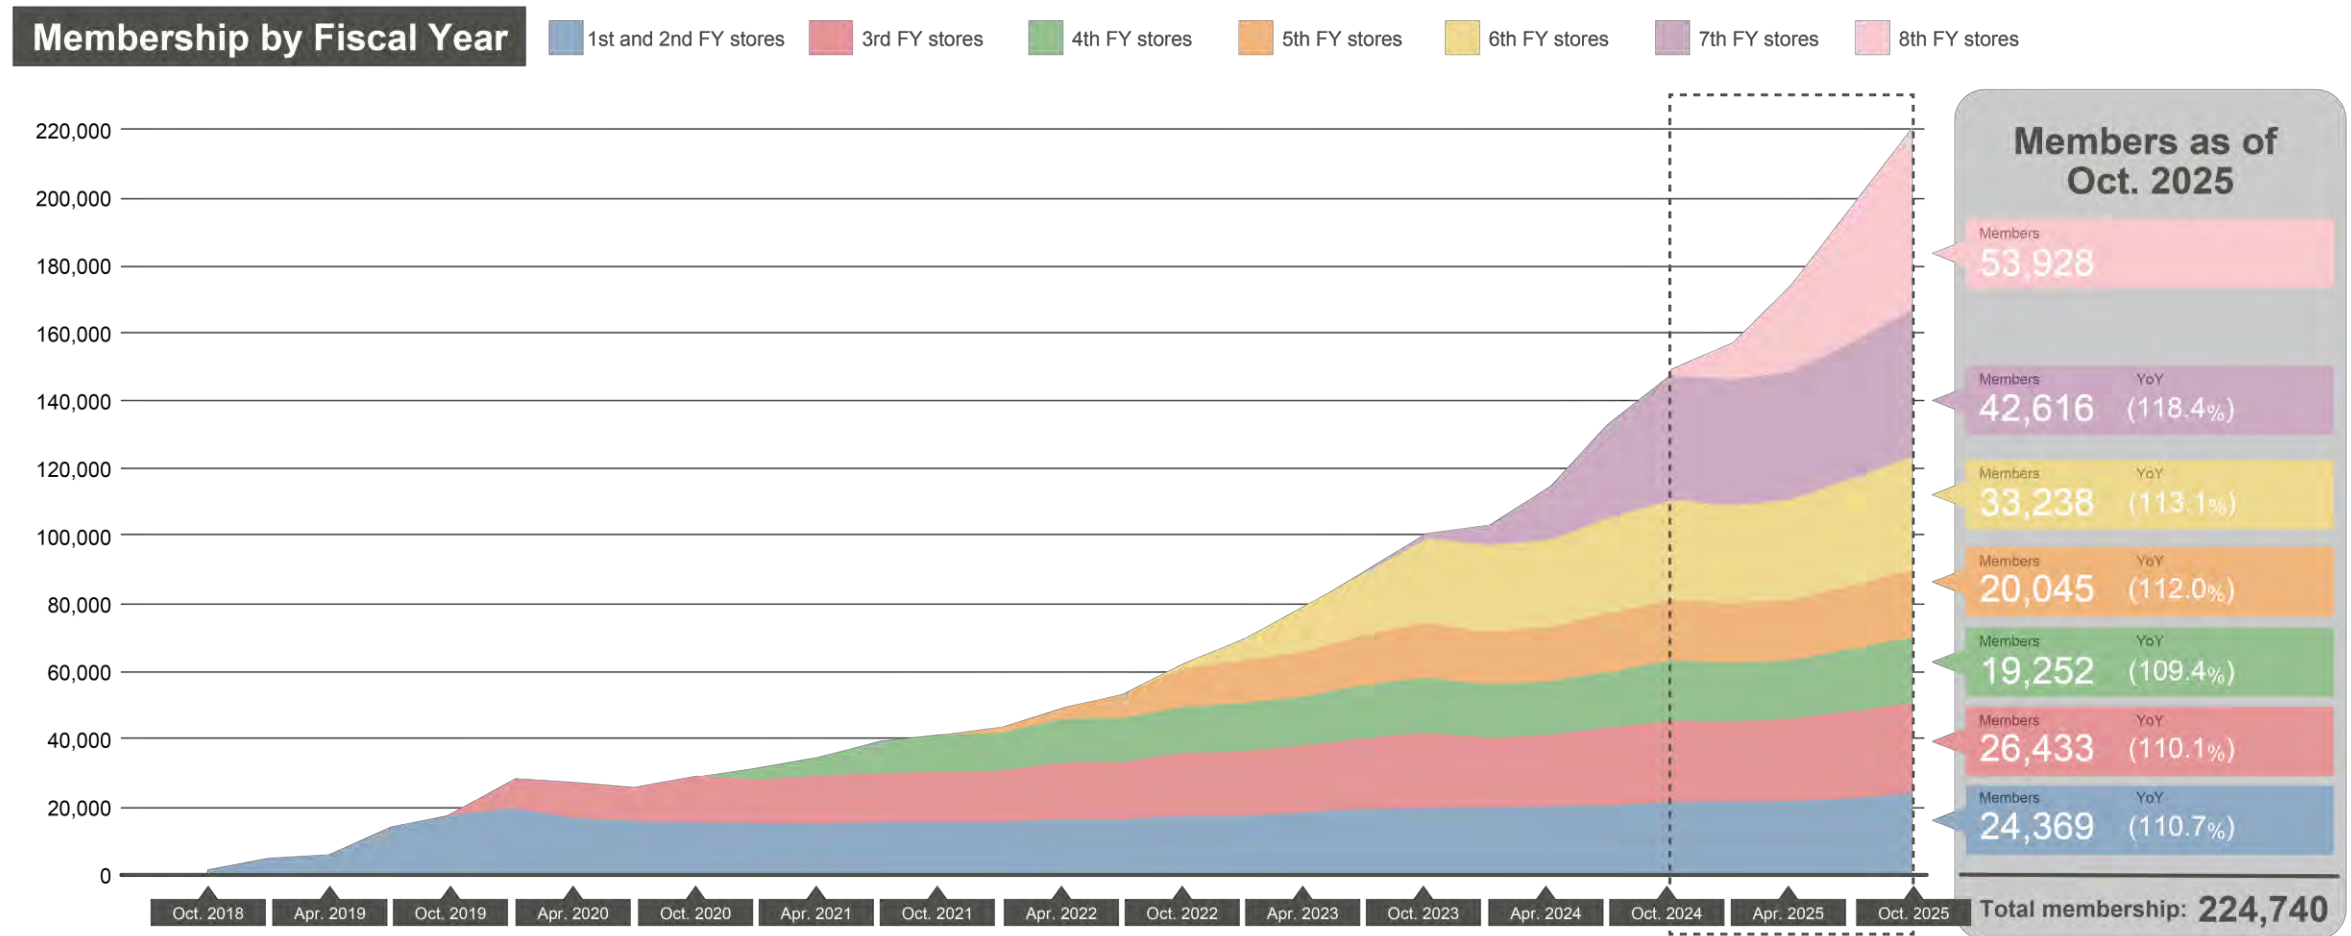

(Unit: Ten Thousands of People)

*1) One trial store was closed in the fiscal year ended October 31, 2025.

Membership in Existing Stores

- Membership is increasing not only recently opened stores but also those from when the company was initially founded.

* Membership is calculated from the time the store opening announcement is posted on the website (start of online membership sign-ups).

Membership per Store Trend

- The average number of members per store increased by 112 compared to the end of the previous fiscal year, showing strong performance and reaching a record high of 944 members.
- Both new store openings and new membership sign-ups at existing stores are progressing smoothly.
- Against this backdrop, franchise owners also have strong appetite for opening new stores.

Trends in Store Count and Membership Per Store

Key KPI (ROE)

- The issuance of new shares increased net assets by ¥1,692 million, resulting in ROE ending at 34.5%, below the planned figure, but the level reached 42.6% when the issuance of new shares is excluded, exceeding the plan.
- As the required rate of return for investors proposed by the Ito Report is 8% or higher, ROE significantly exceeds 8-9%.

As an integrated PR project to expand awareness and accelerate membership acquisition across the entire Tokyo area, we implemented the following three initiatives.

Sign-up campaign

Web
advertising

Event hosting

We implement integrated PR projects across all regions nationwide to increase awareness and boost membership sign-ups.

Pre-opening on October 24
Gotanda Store

Pre-opening on October 29
Jiyugaoka Store

Initiatives in the Fiscal Year Ended October 2025

(13) Launch of Visitor Use (FE 1Day Pass)

- Launched visitor use system (FE 1Day Pass) in August
- Immediate monetization, supplementing inbound demand, enhancing global recognition through visitor usage, and potential for membership acquisition

Four Benefits of Implementation

Service Overview

- Usage requires online application, and procedures can be easily completed via smartphone
- Available to be selected at all stores nationwide
- The cost is ¥3,000 to ¥5,000 (excluding tax; price varies by store)

Initiatives in the Fiscal Year Ended October 2025

(14) FIT-EASY CUP 2025

- In August, the “FIT-EASY CUP 2025” fitness contest was held in Gifu City in Gifu Prefecture.
- FIT-EASY is uniquely positioned to offer this initiative across seven categories, including our wellness-focused “My Ideal” category.

Significance of Hosting the Event

1. “Visualization of effort” and “motivation to continue”

Providing a place to recognize and celebrate each other by creating a space that showcases the culmination of our members’ continuous efforts in training

2. Community revitalization and customer satisfaction improvement

Fostering deeper connections to build a community that transcends local boundaries and facilities.

Deepening affection and trust for the FIT-EASY brand throughout the event

3. Further penetration of the amusement fitness club culture

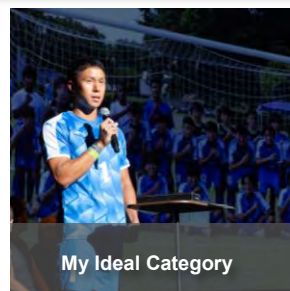

Promoting the integration of our culture as an amusement fitness club by providing an environment accessible to everyone while maintaining the quality of a competitive event

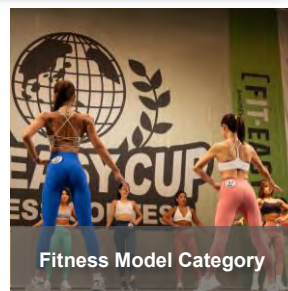

An enthusiastic crowd of over 1,000

(15) Corporate Contracts

- Amid growing attention on “health management” and “mental health care,” the number of corporate contracts and the number of corporate members continue to increase steadily.
- To further contribute to solving these two challenges, we are promoting the expansion of amusement fitness clubs.

Three Unique Advantages

(1) High implementation effectiveness

It provides an enjoyable experience accessible even to people who do not like exercise and to women, thereby increasing usage rates among employees.

(2) High level of convenience

Smooth entry procedures using AI facial recognition for building access
Cross-store use enables employees to use them smoothly.

(3) Excellent cost efficiency

Companies can achieve high cost-effectiveness since all amusement services can be used within the membership fee.

SUSTAINABLE DEVELOPMENT GOALS

Health Management and Relationship with SDGs

3 すべての人に健康と福祉を

Health management initiatives lead to initiatives to “ensure healthy lives and promote well-being for all at all ages,” which is Sustainable Development Goal 3.

5 ジェンダー平等を実現しよう

8 働きがいも経済成長も

As this initiatives permeate and become established within the Company, they will also contribute to achieving Goal 5: “Gender Equality” and Goal 8: “Decent Work and Economic Growth.”

Expansion of Specialized Stores

- Following the launch of sauna-specialized store, we are strategically opening various specialized amusement service stores.
- We will implement strategic deployment by leveraging an AI facial recognition platform enabling cross-store use and the benefits of in-house one-stop development.

Objective and Three Benefits of Specialized Stores

Objective

Leveraging our proprietary know-how, planning capabilities, and rapid execution to expand our revenue portfolio

(1) Capturing market opportunities

Differentiation from competitors and attracting new customer segments by offering high-quality services with enhanced specialization to meet demand for specific services.

(2) Deepening of dominant strategy

Strengthening coverage along a “line” by opening specialized stores near existing locations.
Promoting user retention through a platform enabling reciprocal use of all stores.

(3) Diversification of brand value

Further strengthens and establishes the brand image as an amusement fitness club that delivers multifaceted value.

Launch of Flagship Stores

- Our flagship stores in the Tokai region (Chikusa Store) and Kanto region (Shibuya Store) have established successful models tailored to regional characteristics.
- We will continue to open flagship stores in major cities nationwide.

Flagship Store Operation Strategy to Accelerate National Expansion

By rolling out successful case studies and operational know-how from flagship stores across the entire chain, we aim to achieve uniform service quality and enhance brand strength.

By developing operational know-how from flagship stores into manuals for staff training, we will foster staff development and strengthen the human resources foundation to support sustainable growth.

Positioned as pilot sites for new services and operational systems, they will enhance the productivity of the entire chain by rolling out nationwide after services and systems are established.

Accelerating nationwide roll-out and enhancing brand value

VISION

FIT YOUR STYLE

FIT-EASY aims to be the world's best amusement fitness club, providing a safe, secure, and enjoyable training environment to become an integral part of your life.

A professional with a global perspective and deep expertise in real estate and construction

Hisashi Kunie, President

Having started his career in construction and real estate, Mr. Kunie has cultivated a deep understanding of ideal commercial areas and locations by gaining diverse experience across various businesses, including nursing care services, power generation, food and beverage, and retail, adapting to the needs of the times. He also has extensive experience in sourcing building materials and products from overseas and conducting business internationally. Drawing on this background, he decided to introduce an overseas fitness business model in Japan, where demand is high. Anticipating rising demand for fitness amid increasing health consciousness, he is actively pursuing new businesses development.

A franchise business professional and an innovator

Yuki Nakamori, COO

Mr. Nakamori has served as COO of FIT EASY since August 2021. In his previous position, he successfully transitioned a video rental business into a reuse business format and expanded it through franchising. He is also well-versed in franchising across different business categories, business transformation, and launching new ventures. Over a 25-year period, he served as a director at a company that expanded its reuse business nationwide, contributing to the development of more than 500 stores. With expertise in building proprietary franchise models and managing headquarters operations, he has enhanced profitability and growth potential through the development of personnel training tools and business management tools.

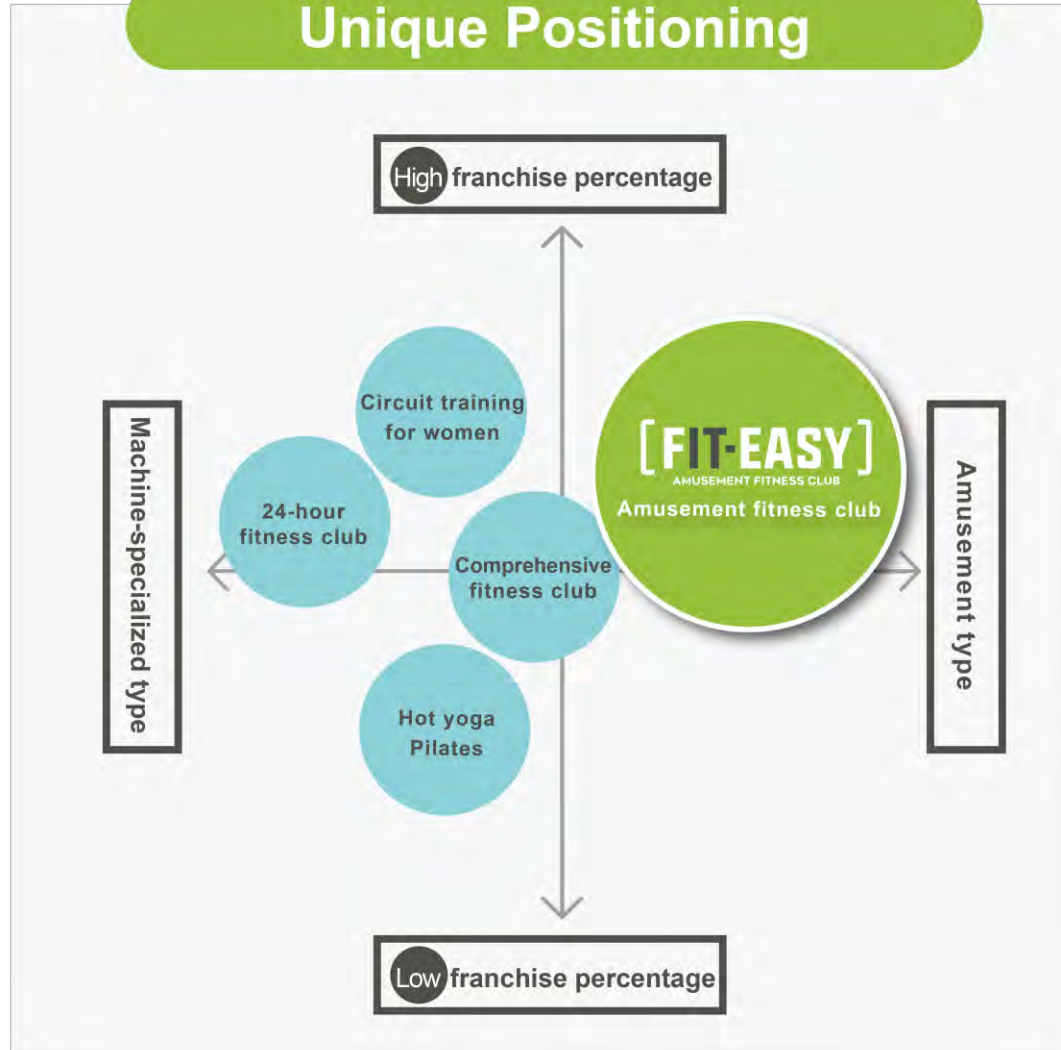

About FIT-EASY's Business (1) Growth Trajectory

26 services rolled out in the 8 years since founding

Our Business (2): Unique Positioning and Target Segments

Unique Positioning

Targeting All Users

Our Business (3): Combined Potential of Fitness and Amusement Markets

Aiming to reach markets beyond fitness
by introducing new services.

Dramatically Higher Management Efficiency Through Lower Construction Costs and Reduced Operational Risks—Outperforming Competitors

System (1)

High-quality design and construction system at overwhelmingly low cost through reduction of intermediary margins

- (1) Cost reduction through store openings primarily utilizing turnkey properties
- (2) Cost reduction through overseas bulk direct purchasing and inventory stockpiling of building materials and equipment
- (3) Cost reduction through reuse of existing store floors, walls, ceilings, and equipment
- (4) Acceleration through in-house design and construction management, and cost reduction

System (2)

Reduction of management risk through standard lease agreements (short-term agreements)

High Profitability Enabled by Established Franchise Headquarters Functions

(1) Membership fee management system

Optimization of
royalty management

Aggregation of all membership fees
from franchised stores at headquarters

(2) Property management system

Optimization of
rent management

Centralized management through subleasing
of properties by headquarters

Through the
management systems
in (1) and (2)

- Maintain better relationships with franchised stores
- Establish a system that simplifies accounting operations,
allowing franchised stores to focus on store management

Result

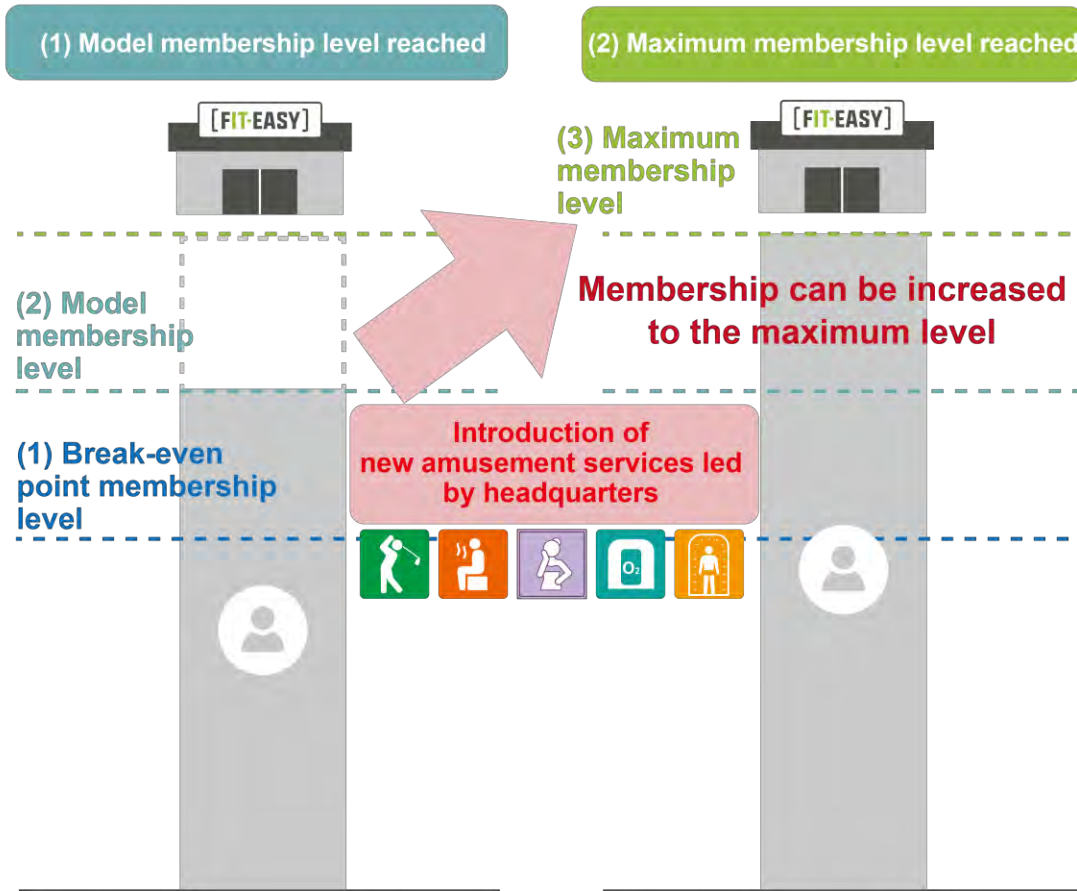

System for opening multiple stores by a single owner

Reducing the effort required
for store setup costs
Accelerating human resource
development

Creating a plan for opening multiple stores
by a single owner

Our Business (6): Significant Upside Potential in Existing Stores

■ Introduction of new amusement services led by headquarters to increase membership

■ Increasing membership through dominant store openings

● Catchment area of existing store ○ Catchment area of new store

Synergistic effect of increased membership
through the introduction of different amusement services,
and changes in machine manufacturers and lineup

**Dominant store openings are possible
without cannibalization**

Three strategic systems based on results

(1) Amusement strategy

(2) Machine strategy

(3) Dominant strategy

Reasons and benefits for implementing multiple machine manufacturers

- ✓ Gain support from our core user base by positioning the ability to use diverse machines as a value proposition
- ✓ Gain broad support because the effective points for different body parts vary depending on the machine manufacturer
- ✓ Enhancing the machine lineup in the area for dominant store openings
- ✓ Enables procurement under better terms

Achievements in dominant store openings through two strategies in Toyota City, Aichi

Using three strategies, we acquired 6,645 members across five stores without cannibalizing sales

By strategically offering amusement services, machine lineups from machine manufacturers, and dominant store openings, a large number of members can be acquired even in areas where we are a latecomer

Extensive Variety in Store Opening Formats

Extensive Store Opening Options
