## 1. Qualitative Information Related to Consolidated Financial Results

### (1) Overview of Operating Results

During the first half of the fiscal year ending May 31, 2026 (June 1, 2025 to November 30, 2025), the Japanese economy showed signs of a moderate recovery supported by improvements in the employment and income environment and an increase in the number of foreign visitors to Japan. However, the outlook remains uncertain due to concerns over a slowdown in personal consumption resulting from continued inflation, heightened geopolitical risks, and fluctuations in financial and capital markets.

In the drug store industry, the business environment surrounding the Company has become increasingly challenging due to the intensified competition from the opening of stores by competitors across different sectors and business models, heightened price competition, as well as the trend toward industry consolidation and scale expansion through M&A among major players.

Under these circumstances, the Group has formulated a new Medium-term Management Plan, Next STAGE 2030, with the fiscal year ending May 31, 2030 as its final year, and is promoting various measures to achieve its goals.

#### **Drug Stores**

During the first six-month period ended November 30, 2025, net sales at existing stores continued to exceed the previous year driven by the sustained promotion of the Everyday Low Price (EDLP) strategy in the merchandise sales division. In the prescriptions division as well, efforts focused on increasing the number of prescription drug stores, strengthening collaboration with nearby medical institutions and enhancing the calculation of various reimbursement additions, resulting in steady progress in the number of prescriptions handled and the average prescription unit price. In addition, on October 29, 2025, the Group acquired all shares of YAOHAN Holdings Co., Ltd., which operates eight food supermarkets in the cities of Kanuma and Nikko in Tochigi Prefecture, and made it a consolidated subsidiary, thereby marking the Group's first entry into Tochigi Prefecture as a new trade area. Going forward, in addition to opening new stores independently, the Group will actively pursue the expansion of its store network through the use of M&A.

During the period, we opened 16 new drug stores. On the other hand, we closed four stores, consisting of two from scrap-and-build redevelopment and two due to expiration of contracts. In terms of prescription drug stores, we opened 14 new stores: 13 in-store prescription drug stores and one dedicated prescription drug store. Furthermore, on August 29, 2025, we acquired all shares of SANEFU INC. (Fuchu City, Tokyo), which operates nine dedicated prescription drug stores, making it a consolidated subsidiary, thereby adding nine dedicated prescription drug stores.

#### **Nursing Care**

As society ages, we are operating two paid assisted living facilities characterized by delicious meals for elderly people who want to live safely and securely under the care of nursing staff as well as 37 half-day rehabilitative adult care centers for those who want to continue living at home. In the adult day care services business, while carrying out renovations to expand capacity at existing facilities in order to improve occupancy rates, we also focused on expanding scale and enhancing its service offerings.

As a result of the above, the number of Group stores as of November 30, 2025, was as follows: 799 drug stores, nine supermarkets, five combination drug store/fresh produce stores, and 48 dedicated prescription drug stores, for a total of 861 stores. In addition, the Group operates 430 in-store prescription drug stores. In the nursing care business, the Group operates two paid assisted living facilities and 37 half-day adult care centers.

As a result of the above, the financial results for the first six months of the fiscal year ending May 31, 2026 were as follows: Net sales came in at 241,926 million yen (up 7.6% year on year), operating profit was 11,106 million yen (up 6.2%), ordinary profit was 11,691 million yen (up 8.2%), and profit attributable to owners of parent was 7,885 million yen (up 12.3%).

## (2) Overview of Financial Position

Total assets as of November 30, 2025 were 245,101 million yen, up 8,540 million yen from the end of the previous fiscal year. The main factors include increases of 1,316 million yen in accounts receivable - trade, 160 million yen in merchandise, and 8,899 million yen in non-current assets, while cash and deposits decreased by 1,444 million yen.

Total liabilities as of November 30, 2025 were 97,395 million yen, up 3,555 million yen from the end of the previous fiscal year. The main factors were increases of 1,505 million yen in accounts payable - trade, 1,088 million yen in the current portion of long-term borrowings, and 800 million yen in long-term borrowings, while accrued income taxes decreased by 751 million yen.

Net assets as of November 30, 2025 were 147,705 million yen, up 4,984 million yen from the end of the previous fiscal year. The main factors were a 2,842 million yen decrease due to dividends paid and the recording of 7,885 million yen in first half profit attributable to owners of parent.

### **Cash Flows**

Cash and cash equivalents at the end of the first half of the fiscal year under review totaled 35,902 million yen, down 1,444 million yen from the end of the previous fiscal year.

Cash flows for the first half of the fiscal year were as follows:

#### **Cash flows from operating activities**

Net cash provided by operating activities amounted to 10,818 million yen, down 593 million yen year on year. The main components included profit before income taxes of 11,681 million yen, depreciation of 3,035 million yen, an increase in trade payables of 1,011 million yen, and income taxes paid of 4,572 million yen.

#### **Cash flows from investing activities**

Net cash used in investing activities amounted to 10,220 million yen, up 2,251 million yen year on year. This was mainly due to 6,733 million yen of purchase of property, plant and equipment associated with the store openings, and 2,468 million yen for store openings in progress.

#### **Cash flows from financing activities**

Net cash used in financing activities amounted to 2,042 million yen, up 848 million yen year on year. This is the result of proceeds from long-term borrowings of 900 million yen and dividends paid of 2,842 million yen.

## (3) Overview of Consolidated Financial Results Forecast and Future Expectations

At this time, no changes have been made to the forecast for the fiscal year ending May 31, 2026 announced on July 14, 2025.
