## 1. Qualitative Information on the Period under Review

### (1) Explanation of Operating Results

The Japanese economy for the nine months under review were on a gradual recovery trend due to the implementation of various policy measures under the improved employment and income situation, however the future remains uncertain due to the foreign exchange rate fluctuations and drastic inflation. Under these conditions, corporations are aggressively working on new initiatives to further enhance value-added and creating business opportunities, and demand for the consulting industry to support these corporations is expected to continue to remain high.

As in the current Medium-Term Business Plan, in pursuit of becoming a “comprehensive partner to solve management issues of leading companies,” the Baycurrent Group aims to realize continuous annual growth of 20% as a standard for revenue from FY2025 to FY2029, and achieve revenue of 250.0 billion yen and EBITDA margin of 30% to 40% for FY2029.

In order to achieve this target, our focus areas for the nine months under review have included hiring and developing talented human resources, promoting our core client strategies, and enhancing our services to solve management issues of our clients from multifaceted perspectives.

As a result of the above, revenue for the nine months under review increased 26.8% year on year, EBITDA increased 22.1% year on year, and EBITDA margin was within the range of plans, at 33.9%.

Per segment information is not stated as the Baycurrent Group has only the solitary segment of the consulting business.
