## Notice of Organizational Changes and Executive Officer Structure

The Company adopted a resolution at the Board of Directors' meeting held as of this day on organizational changes and the executive officer structure as of April 1, 2026 and hereby notify you as follows.

### 1. Organizational Changes

- (1) Design and manufacture of power supplies for railway signaling systems will be transferred from the Power Electronics Division to the Railway Signal Division. Accordingly, the Engineering Dept. of the Power Electronics Division will be abolished, and the Power Systems Dept. will be newly established in the Railway Signal Division.
- (2) The Planning and Development Dept. will be newly established in the Railway Signal Division to strengthen system development, technical management, and domestic project management in the Railway Signal Division.
- (3) The Procurement Management Dept. of the Power Electronics Division will be integrated into the Manufacturing Control Dept. of the Power Electronics Division to unify management of the process from order receipt to production planning and procurement to improve management efficiency.
- (4) The Technical Testing and Evaluation Office will be established in the R & D Center to strengthen testing and evaluation functions essential to product development.
- (5) The Corporate Strategy Office of the Strategy Planning Headquarters will be integrated into the Corporate Planning & Investor Relations Dept. of the Strategy Planning Headquarters to improve organizational efficiency in the corporate headquarters and strengthen the ability to execute management strategies.
