JAPAN PURE CHEMICAL CO.,LTD.(the “Company”) hereby announces that the Board of Directors, at a meeting held on January 26, 2026, decided to revise the earnings forecasts for the fiscal year ending March 31, 2026 (April 1, 2025 to March 31, 2026) announced on October 24, 2025, based on recent performance trends and other factors as follows.

1. Revision of the Forecast for the Current Fiscal Year (from April 1, 2025 to March 31, 2026)

(Millions of yen)

	Net sales	Operating profit	Ordinary profit	Net Profit	Earnings per share (yen)
Previous forecast (A)	14,000	510	670	1,450	250.64
Revised forecast (B)	17,500	540	730	1,750	302.43

2. Reasons for the revisions

Sales of semiconductor packages, modules, and memory remain robust due to the recovery trend in consumer demand for smartphones and PCs, as well as expanding demand related to generative AI. Additionally, fluctuations in noble metal prices (including sharp increases in gold and palladium prices) are expected to improve net sales, operating profit, ordinary profit, and net profit compared to the previous forecast. The above forecasts also incorporate the gain on sales of investment securities resulting from the additional sales of Specified Investment Shares. For details on the sale, please refer to today's announcement “Notice Regarding Recording of Gain on Sale of Investment Securities (Extraordinary Income).”

The year-end dividend forecast for the fiscal year ending March 31, 2026, please refer to today's announcement "Notice Regarding Revised Year-end Dividend Forecast (Increase)".

(Note) The above forecasts are based on information available as of the date of this announcement, and actual results may differ from the forecasts due to various factors in the future.
