Notice of the Adjustment to the Forecast of Business Results and Dividends

Notice is hereby given that NH Foods Ltd. (the "Company"), in consideration of recent trends in its business results, has adjusted the forecast of consolidated business results for the whole-year period ending March 31, 2026 announced on November 4, 2025 in "Notice of the Adjustment to the Forecast of Business Results", and the forecast of the year-end dividends for the fiscal year ending March 31, 2026 announced on May 9, 2025 in "Brief Statement of Accounts for the Year Ended March 31, 2025" as described below.

Description

1. Adjustment to the forecast of business results

(1) Adjustment to the forecast of consolidated business results for the whole-year period ending March 31, 2026 (April 1, 2025 through March 31, 2026):

(millions of yen, unless otherwise indicated)

	Net sales	Business profit	Profit before tax	Profit attributable to owners of the parent	Earnings per share (basic) (yen)
Previous forecast (A)	1,430,000	59,000	50,000	34,000	349.40
Adjusted forecast (B)	1,440,000	64,000	50,000	34,000	355.76
Amount of increase or decrease (B)–(A)	10,000	5,000	0	0	
Rate of increase or decrease (%)	0.7%	8.5%	0.0%	0.0%	
(For reference) Actual results for the previous year (April 1, 2024 through March 31, 2025)	1,370,553	42,540	37,198	26,585	263.05

(2) Reason for adjustment to the forecast of business results

Net sales are expected to be higher than the previous forecast, mainly due to an increase in the unit price of domestic chicken and favorable sales of beef in Australia in the Fresh Meats Business.

Business profit forecast is higher than the previous one, reflecting the expectation that profits will be secured in the Fresh Meats Business due to an increase in production volume amid rising demand for Australian beef, and a rise in the market price of domestically produced chicken.

As for profit before tax and profit attributable to owners of the parent, despite the factors contributing to increased business profit, it is to be at the level of the previous forecast due to the impact of the fire accident that occurred at the Shiretoko Plant of our consolidated subsidiary, Nippon White Farm Co., Ltd., on November 9, 2025, among other factors.

2. Adjustment to the forecast of dividends

(1) Adjustment to the forecast of the year-end dividends for the fiscal year ending March 31, 2026 (April 1, 2025 through March 31, 2026):

	Annual Dividends	
	Fiscal year end	Total
Previous forecast	156.00	156.00
Adjusted forecast	160.00	160.00
Actual results for the current fiscal year		
(For reference) Actual results for the previous year (April 1, 2024 through March 31, 2025)	135.00	135.00

(2) Reason for adjustment to the forecast of dividends

The Company considers the return of profits to shareholders to be an important management issue. Regarding the determination of the distribution of retained earnings, etc., it is the Company's policy to pay dividends on a consistent basis. This is seen as part of the Company's capital policy aimed at realizing an optimal capital and liability composition with the aim of improving medium- to long-term corporate value.

Under this basic policy, during "Medium-Term Management Plan 2026" period, the Company targets to improve dividend on equity ratio (DOE) of a 3.0% level and raising a payout ratio of 40% or above to distribute profits to enhance the return of profits to shareholders on a consistent basis.

In consideration of the developments of its consolidated business forecast for the year ending March 31, 2026, the Company will make adjustment to the forecast of the year-end dividends per share of common stock from the previous ¥156.00 to ¥160.00, up ¥4.00 per share.
