Announcement concerning Difference between Forecast and Actual Figures for the Fiscal Year Ended December 31, 2025

Please be informed of the following difference between the Company's consolidated financial results forecasts for the fiscal year ended December 31, 2025 announced on November 11, 2025 and the actual consolidated financial results announced today.

1. Difference between forecasts and actual figures for the fiscal year ended December 31, 2025 (January 1, 2025–December 31, 2025)

	Net sales (millions of yen)	Operating profit (millions of yen)	Ordinary profit (millions of yen)	Profit attributable to owners of parent (millions of yen)	Basic earnings per share (yen)
Previous forecasts (A)	404,400	(4,200)	(10,900)	(16,900)	(48.33)
Actual Figures (B)	409,670	1,342	(3,886)	(11,751)	(33.60)
Amount of change (B-A)	5,270	5,542	7,013	5,148	
Rate of change (%)	1.3	–	–	–	
(Reference) Results for the fiscal year ended Dec. 31, 2024	396,619	36,924	37,457	19,877	56.84

2. Reasons for difference

In the fiscal year ended December 31, 2025 (January 1, 2025–December 31, 2025), operating profit (loss) turned positive and outperformed the previously announced forecast as a result of steady production activities and progress in improving production costs.

In addition, due to such factors as the forex market moving at a weaker yen level than expected, ordinary loss and loss attributable to owners of parent also were better than forecasts.
