**The storage battery business planned by RS Technologies was selected as a subsidy project  
by the Ministry of Economy, Trade and Industry.**

RS Technologies is pleased to announce that it has been selected as a supplier of vanadium redox flow batteries manufactured by Sumitomo Electric Industries, Ltd. in the Ministry of Economy, Trade and Industry FY 2025 "Subsidy for supporting the expansion of renewable energy introduction and the introduction of power storage systems such as grid storage batteries."

In addition, the electrolyte for the vanadium redox flow batteries used in this project will be manufactured by LE System Co., Ltd., a our group company.

Through this initiative, we aim to establish a new storage battery introduction model in Japan by taking advantage of the long life, high safety, and excellent recyclability of vanadium redox flow batteries.

In addition, we will contribute to securing sustainable business profits by participating in the capacity market and supply-demand adjustment market and utilizing batteries as an adjustment resource.
