1. Overview of Operating Results, etc.

(1) Summary of consolidated operating results for the first nine months under review

During the first nine months under review, the Japanese economy remained on a moderate recovery trend as the employment and income environment continued to improve.

Going forward, while a recovery is expected to continue, we must monitor downside risks such as future price trends and developments in U.S. trade policy. In addition, we still need to pay close attention to the impact of fluctuations in financial and capital markets, among other factors.

In the construction industry, both government construction investment and private construction investment remained firm. But it remains imperative to closely monitor developments, particularly with regard to material prices, labor costs and other related matters.

Under these circumstances, the Group's performance for the first nine months under review was as follows. Net sales were ¥311.0 billion (up 5.1% from ¥295.8 billion in the same period of the previous fiscal year), operating profit was ¥20.6 billion (up 7.6% from ¥19.1 billion in the same period of the previous fiscal year), ordinary profit was ¥19.9 billion (up 4.7% from ¥19.0 billion in the same period of the previous fiscal year), and profit attributable to owners of parent came to ¥14.4 billion (down 4.4% from ¥15.0 billion in the same period of the previous fiscal year).

Segment results are described as follows:

(Civil engineering business)

Orders received amounted to ¥58.6 billion (down 22.8% year on year), net sales of completed construction contracts were ¥100.0 billion (up 6.0% year on year) and operating profit came to ¥10.3 billion (up 1.1% year on year).

(Building construction business)

Orders received amounted to ¥286.6 billion (up 25.2% year on year), net sales of completed construction contracts were ¥185.9 billion (up 2.6% year on year) and operating profit came to ¥15.4 billion (up 11.1% year on year).

(Group business)

Net sales were ¥18.2 billion (up 13.2% year on year) and operating profit came to ¥0.9 billion (up 96.0% year on year).

(Other)

Net sales were ¥6.9 billion (up 63.7% year on year) and operating profit came to ¥0.5 billion (up 78.9% year on year).

(2) Overview of consolidated financial position for the first nine months under review

In assets, mainly investment securities increased, and in liabilities, mainly accounts payable for construction contracts and other decreased. As a result, total assets at the end of the third quarter under review increased by ¥5.4 billion from the end of previous fiscal year to ¥377.4 billion, and liabilities fell ¥11.0 billion from the end of previous fiscal year to ¥188.7 billion. Net assets grew ¥16.4 billion from the end of the previous fiscal year to ¥188.6 billion, mainly due to an increase in valuation difference on available-for-sale securities, and the equity ratio increased by 3.7 percentage points from the end of the previous fiscal year to 49.7%.

(3) Explanation of Future Forecast Information Such as Consolidated Financial Results Forecasts

The Company has revised its financial forecasts for the fiscal year ending March 31, 2026 (April 1, 2025 to March 31, 2026), previously released on May 14, 2025, in light of recent performance trends. Brief details are provided as follows.

1. Fiscal year ending March 31, 2026 (April 1, 2025 to March 31, 2026)

Revised consolidated results forecast (Millions of yen)

	Net sales	Operating profit	Ordinary profit	Profit attributable to owners of parent	Basic earnings per share (Yen)
Previously announced forecast (A)	441,000	27,100	26,500	18,000	114.82
Revised forecast (B)	435,000	29,700	29,000	20,300	129.45
Difference (B - A)	(6,000)	2,600	2,500	2,300	
Percentage change (%)	(1.4)	9.6	9.4	12.8	
[Reference] Results for the previous fiscal year	425,160	35,243	34,053	26,444	168.75

2. Fiscal year ending March 31, 2026 (April 1, 2025 to March 31, 2026)

Revised non-consolidated results forecast (Millions of yen)

	Net sales	Operating profit	Ordinary profit	Net profit	Basic earnings per share (Yen)
Previously announced forecast (A)	397,000	26,000	25,500	17,500	111.63
Revised forecast (B)	408,000	28,600	28,300	20,100	128.17
Difference (B - A)	11,000	2,600	2,800	2,600	
Percentage change (%)	2.8	10.0	11.0	14.9	
[Reference] Results for the previous fiscal year	399,926	33,973	33,141	25,776	164.49

3. Reasons for the above financial forecast revisions

1) Reasons for the revision of the non-consolidated results forecast

Net sales are expected to be slightly higher than the previous forecast, as construction is generally progressing smoothly.

On the profit front, operating profit, ordinary profit, and net profit are expected to exceed the previous forecast, mainly due to greater-than-expected gross profit on completed construction contracts as a result of improved profitability of building construction projects.

In addition, the construction gross profit margin is projected to come in at 14.1% (civil engineering: 16.3%; building construction: 12.9%).

2) Reasons for the revision of the consolidated results forecast

As for sales, the sales of the consolidated subsidiaries are expected to be lower than the previous forecast.

On the profit front, the Company has revised the consolidated results forecasts largely in line with revisions to non-consolidated results forecasts.

4. Other

As of the end of the fiscal year ended March 31, 2024, the Company expects additional costs of approximately 6.2 billion yen arising from repair and other expenses in relation to the incident (the "incident") occurring during foundation work for the steel guard wall (south side foundation and north side foundation) for works of seawall in power plant being undertaken in Tokai Village, Ibaraki Prefecture, by a joint venture with the Company as the representative.

The Company is still discussing the repair plan for the incident with the contractee and other concerned parties to the construction work, and the Company will continue to take appropriate measures responsibly as a constructor.

If, after determining the repair plan and other matters, it becomes clear that there will be a significant impact on the financial results, the Company will disclose this information in a timely and appropriate manner.

Comprehensive income attributable to non-controlling interests	50	5

(3) Notes to Quarterly Consolidated Financial Statements

(Notes on accounting policies specific to the preparation of quarterly consolidated financial statements)

(Calculation of tax expenses)

Tax expenses are calculated by reasonably estimating the effective tax rate after applying tax effect accounting to profit before income taxes for the fiscal year containing the third quarter under review and multiplying profit before income taxes by this estimated effective tax rate.

However, if the calculation using the estimated effective tax rate brings about an extremely unreasonable result, the statutory effective tax rate is adopted.

(Additional information)

(Performance-linked stock compensation plan)

The Company has introduced a performance-linked stock compensation plan for board directors and executive officers and an employee stock ownership plan trust for employees as a performance-linked stock compensation plan.

1 Performance-linked stock compensation plan for board directors and executive officers

(1) Transaction summary

In FY2016, the Company introduced a performance-linked stock compensation plan (the “Plan”) as an incentive plan for its board directors and executive officers (excluding a board director who is an audit and supervisory committee member, external board directors, and domestic non-residents; hereinafter collectively referred to as “the Board Directors, etc.”). The Plan is highly transparent and objective and is closely linked with the Company’s performance, with the aim of increasing awareness of the importance of helping to enhance the corporate value and performance of the Company over the medium to long term.

Specifically, the Plan adopts a mechanism called the Board Incentive Plan (BIP) Trust (“BIP Trust”) where the Company’s shares acquired through the BIP Trust and cash equivalent to the value of the Company’s shares upon conversion are provided to the Board Directors, etc. according to their titles and the level of achievement of performance targets, etc.

(2) The Company’s stock in the Trust

The Company’s shares remaining in the Trust are recorded as treasury shares under net assets based on the book value in the Trust (excluding ancillary expenses). The book value and the number of these treasury shares in the Trust were ¥1,210 million and 1,255,055 shares, respectively, at the end of previous consolidated fiscal year, while they were ¥1,193 million and 1,237,029 shares, respectively, at the end of the third quarter under review.

2 Employee stock ownership plan trust

(1) Transaction summary

In FY2022, the Company introduced an Employee Stock Ownership Plan Trust (“ESOP Trust”) as an incentive plan for its employees (the “Employees”). The ESOP Trust is an incentive plan intended to improve treatment of Employees and raise their awareness about the Company’s performance over the medium to long term and its stock price, thereby further promoting business operations aimed at the sustainable improvement of corporate value. At the same time, it is designed to strengthen the linkage with the development and achievement of the Company’s future management personnel and the development of the Company and its corporate value.

Specifically, the Company’s shares acquired through the ESOP Trust and cash equivalent to the value of the Company’s shares upon conversion are provided to the beneficiaries, who are the Employees meeting certain requirements, according to their working status and performance targets achieved during the trust period.

(2) The Company’s stock in the Trust

The Company’s shares remaining in the Trust are recorded as treasury shares under net assets based on the book value in the Trust (excluding ancillary expenses). The book value and the number of these treasury shares in the Trust were ¥2,203 million and 2,092,177 shares, respectively, at the end of previous consolidated fiscal year, while they were ¥2,117 million and 2,011,185 shares, respectively, at the end of the third quarter under review.

(Notes on Segment information, etc.)

(Notes on Consolidated Statements of Cash Flows)

Quarterly Consolidated Statements of Cash Flows have not been prepared for the first nine months under review.

Depreciation (including amortization related to intangible assets) for the first nine months is as follows.

	Previous first nine months (April 1, 2024, to December 31, 2024)	First nine months under review (April 1, 2025, to December 31, 2025)
Depreciation	2,462 Million yen	2,713 Million yen

(Notes on Significant Subsequent Events)

(Business combination through acquisition)

The meeting of the Company's Board of Directors held on November 7, 2025 resolved to acquire the shares of QXY Resources Pte. Ltd., a Singapore-based general construction company specializing in construction refurbishment, and two other companies to create subsidiaries. A share purchase agreement was concluded on November 20, 2025, and the share acquisition was implemented on January 5, 2026.

1 Overview of business combination

(1) Name and business description of the acquired company

Name of acquired company QXY Resources Pte. Ltd. and two other companies

Business description Building Construction N.E.C.

(2) Main reason for the business combination

The Group formulated Medium-Term Management Plan 2025 in May 2023 and has been implementing various measures to "Increase corporate value" and "Enhance the Company's appeal." As part of this, in the Overseas Business, with a focus on business stability, the Group has been working to strengthen business foundations and systems in order to achieve future growth.

QXY Resources Pte. Ltd. is a Singapore-based construction company with an extensive track record and a strong competitive advantage in the refurbishment construction field. Based on its vision of "Leading a new era of urban renewal focused on sustainability by unlocking value of the built environment for tomorrow," QXY Resources has undertaken many refurbishment projects in diverse sectors, including offices, commercial facilities, and educational facilities, winning high recognition as a highly reliable company in the Singapore construction industry.

This share acquisition is implemented with the aim of long-term business growth in Southeast Asia, a priority area for the Company's Overseas Business under the policy of the abovementioned Medium-Term Management Plan. The Company will continue strengthening the earnings base of the entire Group and working for the sustainable increase of corporate value.

(3) Date of the business combination

January 5, 2026

(4) Legal form of the business combination

Creation of subsidiaries through acquisition of shares

(5) Name of the company after the business combination

Unchanged

(6) Ratio of voting rights acquired

100.0%

(7) Main grounds for determining the acquirer

The Company acquired 100% of voting rights through the acquisition of shares for a cash consideration.
