Notice Regarding the Formulation of “VISION 2030” and the “Medium-Term Management Plan (FY2026-2028)”

SEPTENI HOLDINGS CO., LTD. (hereinafter the “Company”) hereby announces that it has formulated its “VISION 2030” and the Medium-Term Management Plan for the three-year period from January 2026 to December 2028, as follows.

1. Background to the Formulation of “VISION 2030” and the Medium-Term Management Plan (FY2026-2028)

The Company’s mission is “To inspire the world with entrepreneurship.” In February 2025, it announced its mid-to long-term vision to “become a high-growth, high-return company by 2030, with a target of generating ¥10 billion in profit.”

To realize this vision, we have revisited our mission and established “VISION 2030” as a guiding principle to ensure the Group remains indispensable over the long term. Under this vision, we have adopted the policy of being a “VALUE MAXIMIZER.”

This Medium-Term Management Plan is positioned as a milestone for the next three years, starting in 2026, toward the 2030 goal. Over the two-year period since 2024, efforts to improve profitability and productivity, along with a strengthened group management structure, have resulted in record-high revenue and a V-shaped recovery in Non-GAAP operating profit. By carrying this momentum into the growth trajectory for the next three years, the Company aims to achieve sustainable growth and maximize corporate value under the newly formulated policies.

VISION 2030

We will **maximize client corporate value** and
inspire the world more by transforming social and
generational shifts into an engine for growth

2. Overview of "VISION 2030" and the Medium-Term Management Plan

The overview of the newly formulated "VISION 2030" and the Medium-Term Management Plan is as follows:

Commitment for 2030

3. Overview of the Medium-Term Management Plan

(1) Basic Policies and Key Initiatives

Under this Medium-Term Management Plan, the Company has established four basic policies and corresponding key measures.

Basic policies	Key measures
1. Deepening Businesses	- Synergy & Collaboration
2. Exploring Businesses	- Accelerating Investment in Future Revenue Pillars
3. Strengthening Management Foundation	- Strengthening Human Capital - Strengthening Governance - Promoting AI Strategy
4. Capital Allocation	- Balancing Growth Investment and High Shareholder Returns

(2) Financial Targets

The Company aims to achieve the targets listed below. These targets are based on organic growth and do not take into account future inorganic growth, such as M&A.

(millions of yen)	FY2025 results	FY2028 targets	3-year CAGR
Revenue	30,309	36,610	+6.5%
Non-GAAP operating profit	4,414	6,400	+13.2%

GROUP MISSION

To inspire the world with entrepreneurship

A Commitment to New Growth: Linking Client Value Enhancement with Our Own

The Septeni Group is driven by our mission: “To inspire the world with entrepreneurship.”

This “Entrepreneurship”—the courage to embrace change and create new value—is deeply rooted in each of our employees and defines our organizational identity.

In formulating this Medium-Term Management Plan, I have deeply reflected on our mission and held extensive discussions with the management team to define the principles that will ensure our Group remains indispensable 10 years from now and beyond. Through this process, I have reached a clear conclusion: the “world” we serve consists of our stakeholders including our clients, partners, and shareholders, and “to inspire the world” means maximizing our own corporate value by first enhancing the corporate value of our clients through our business activities. This vision is now crystallized in VISION 2030.

Over the past two years, we have successfully built the management and operational foundations necessary to reach our visions. Moving forward, we will work together as one group to contribute to our clients’ growth and accelerate the sustainable enhancement of our corporate value as we strive to achieve VISION 2030.

As we enter our “third entrepreneurial phase,” we invite you to look forward to the new landscapes we will create and the significant social impact we will deliver. Please keep a close eye on the further evolution of the Septeni Group.

Promoting AI Strategy: Overall Policy

■ We aim to build a structure where humans and AI collaborate to co-create value towards VISION 2030, and promote AI utilization based on three pillars: value creation for clients, transformation of internal operations, and development of AI utilization infrastructure.

VISION 2030 | VALUE MAXIMIZER

Value Co-creation between Humans and AI

Value Creation for Clients

Strengthening Existing Businesses

- Implementation and integration of AI functions into proprietary products and services.

Development of New Businesses and AI Solutions

- Developing AI solutions leveraging our client base and expertise.
- Expansion into new domains centered on AI.

Transformation of Internal Operations

Promoting AI Adoption

- Establishing a Group-wide AI usage environment.
- Sharing best practices and accelerating organizational learning.

Maximizing Productivity

- Redesign and automation of business processes.
- Enhancing individual work performance.

Development of AI Utilization Infrastructure

Talent Development

Developing AI specialists and supporting their deployment to each company.

Building Organizational Structure

Establishing a Group-wide AI Promotion Committee.

AI Governance

Identifying and evaluating risks based on tools and use cases to establish a safe AI usage environment.

AI Promotion Committee

By raising Group-wide AI literacy to the industry’s highest level, we will realize corporate-wide AI transformation, leading to enhanced business and corporate value.

Action Steps

STEP1

Establishing Governance and AI Guardrails

- Unified Guidelines:** Defining common "allowable limits" and "prohibited items" to clarify decision-making criteria.
- Clarified Data Definitions:** Formulating confidentiality classifications for input data and standards for rights and usage of output data.
- Thorough AI Literacy Education:** Enhancing AI literacy through enlightenment on risks and ethics.

STEP2

Accelerating Implementation and Verification Processes

- Optimized Review Flow:** Standardizing and consolidating legal and cybersecurity reviews to significantly reduce approval lead times.
- Sandbox Environment:** Establishing "testing grounds" where the latest technologies can be tried immediately in a secure environment.
- AI Integration into Infrastructure:** Providing highly accessible environments centered on commonly used groupware.

STEP3

Creating Domain-Specific Use Cases

- Standardizing Corporate Operations:** Driving reform toward AI-native business processes starting with tasks common to all divisions.
- Field-Led Value Creation:** Developing best practices deeply rooted in business areas through advanced AI education for domain experts.

STEP4

Group-wide Deployment and Systematization of Success Models

- Horizontal Deployment of Best Practices:** Instantly spreading best practices from specific departments across the Group to raise the overall organizational level.
- Turning AI Agents into Assets:** Going beyond sharing knowledge by systemizing "AI Agents" that can be used company-wide.

Talent Development

LEVEL1

Master conversational AI for daily tasks to streamline individual work like documentation and summarization.

Monitoring KPI: Generative AI Chatbot Usage Rate

LEVEL2

Utilize simple agents (e.g., Gems) and proprietary data to promote semi-automation of specific tasks spanning multiple steps.

Monitoring KPI: Utilization Rate of Proprietary Agents / Custom Tools

LEVEL3

Build AI workflows independently to realize automation of complex tasks and optimization of entire processes.

Monitoring KPI: Number of Autonomous AI Workflows Implemented / Operating Hours

LEVEL4

Drive AI-native business transformation beyond existing frameworks by highly integrating business data with AI.

Monitoring KPI: Number of Business Transformations / Productivity Metrics

Capital Allocation (FY2026-2028)

For growth investment, we plan to actively invest in: expanding our capabilities that contribute to enhancing clients’ corporate value for “Exploring Businesses”; strengthening existing businesses competitiveness for “Deepening Businesses”; as well as in internal investment such as AI, human capital, and corporate environment improvements, etc.

Planning a minimum of 11.2 billion yen in shareholder returns as dividends over three years.
Share buybacks will be implemented flexibly, comprehensively considering market and business conditions.

Shareholder Return

■ We will continue the current policy regarding our dividend policy;

“The minimum annual dividend per share will be ¥18. If 50% of the profit attributable to owners of parent per share exceeds this ¥18 minimum, a dividend will be paid based on 50% of the profit attributable to owners of parent per share. This approach prioritizes dividend consistency and stability while ensuring profit distribution remains within our distributable earnings.”
