1. Overview of operating results

(1) Overview of operating results for the period

Forward-looking statements in this document are based on judgments made by the Group (the Company and its consolidated subsidiaries) as of December 31, 2025.

New car sales in Japan during the nine months ended December 31, 2025 were 99.7% year on year, showing a slight downward trend since the second quarter of the current fiscal year.

In this environment, sales performance in Japan for the Automobile Sales-Related Business, which is the core business of the Group, experienced slight decreases in new car sales for Honda vehicles and Nissan vehicles for the nine months ended December 31, 2025 in the absence of noteworthy new vehicle launches. On the other hand, used car sales have increased as the supply shortages have eased. Regarding sales outside Japan, new car sales increased—mainly in Spain and South Africa—and used car sales also increased. As a result, the Group's total car sales, both new and used increased by 1,046 vehicles to 73,119 vehicles (101.5% YoY).

In the Housing-Related Business, price pass-through progressed gradually despite persistently high land and construction material prices and rising labor costs, resulting in a steady overall business performance.

Moreover, the Group recognizes securing human resources as one of the key management challenges to ensure it can always achieve business growth. Partly as an upfront investment, the Group has increased the number of employees by 220 compared to the previous fiscal year across the entire group and have appropriately raised wage levels. As a result, the ratio of selling, general and administrative expenses to revenue rose slightly from 11.9% in the same period of the previous year to 12.2%.

As a result, consolidated results for the nine months ended December 31, 2025 include revenue of ¥282,761 million (109.7% YoY), operating profit of ¥10,068 million (110.3% YoY), profit before tax of ¥9,636 million (114.5% YoY), and profit attributable to owners of parent of ¥5,164 million (108.8% YoY).

Business overview by segment

[Automobile Sales-Related Business]

In the new cars segment, continuing to face difficult market conditions, the Group sold 5,299 Honda vehicles (96.6% YoY) and 9,292 Nissan vehicles (83.2% YoY) in Japan, while sales were 18,909 vehicles (106.8% YoY) outside of Japan. Although the total new car sales for the entire Group slightly fell to 37,210 vehicles (98.9% YoY) compared to the same period of the previous fiscal year, the segment posted year-on-year increases in revenue and profit.

In the used cars segment, although the number of exports was sluggish at 4,431 vehicles (71.0% YoY), used car sales in both Japan and outside Japan performed well. The total used car sales for the entire Group, including the Japanese market and markets outside Japan, were 35,909 vehicles (104.2% YoY), exceeding the same period of the previous fiscal year and leading to year-on-year increases in revenue and profit.

In the services segment, the Group focused on expanding sales of JCI and other inspection services, repairs, and fee generating services. The segment posted year-on-year increases in revenue and profit.

In the car rentals segment, the Group promoted new store openings for both directly owned and franchise stores and the segment posted year-on-year increases in revenue and profit.

As a result, the Automobile Sales-Related Business recorded revenue of ¥258,806 million (108.4% YoY) and operating profit of ¥7,766 million (97.2% YoY).

[Housing-Related Business]

In the condominium segment, a total of 134 new and existing units were sold (132 units in the same period of the previous fiscal year). 129 units were delivered (79 units in the same period of the previous fiscal year).

In the detached housing segment, as the Group was able to constantly secure land for properties in good locations, both orders and deliveries were solid. The Group sold 258 units (236 units in the same period of the previous fiscal year) and delivered 263 units (241 units in the same period of the previous fiscal year).

In the custom construction segment, the Group continued to receive stable orders for projects for automotive dealerships, used car sales stores, and other commercial facilities, as well as condominiums.

As a result, the Housing-Related Business recorded revenue of ¥23,810 million (127.0% YoY) and operating profit of ¥1,758 million (203.6% YoY).
