We have formulated a new medium- to long-term business plan looking ahead to the fiscal year ending December 2030.

Through this plan, we aim to further improve capital efficiency and enhance market valuation, including improvements in the price-to-earnings (P/E) ratio.

Management Target (FY2030)

ROE

14.0% or Higher

Consolidated Performance Targets (FY2030)

Net Sales

¥50.0 Billion
or Higher

Operating Profit

¥4.5 Billion
or Higher

Shareholder Returns (FY2030)

Dividend Payout
Ratio

50% or Higher

DOE
(Dividend on Equity)

Minimum of **4%**

Flexible Share
Repurchases

For details of the plan, including other management targets, please refer to the disclosure materials dated February 13, 2026, titled “ISB Group Medium- to Long-Term Business Plan 2030.”

While our price-to-book ratio (P/B) exceeds 1.0, our price-to-earnings ratio (P/E) remains below the industry average.

By improving our P/E ratio, we aim to further enhance our market valuation.

P/E:

Compared with the Prime Market industry average, our historical P/E has trended at a lower level.

ROE:

- Maintained at double-digit levels
- Consistently exceeded our cost of equity

P/B:

While our P/B ratio is not below 1.0, it has historically trended below the Prime Market industry average.

* A 2-for-1 stock split of common shares was conducted effective January 1, 2021.

* Industry-average P/E and P/B ratios for the Prime Market (Information & Communications sector) are based on data as of December 2025:

Overall Framework for Enhancing Corporate Value

We will actively enhance information disclosure and engage in constructive dialogue (strengthening our IR activities) and, through the steady execution of our medium- to long-term business plan, continuously enhance business value and foster expectations for future profit growth.

Relationship among P/B, ROE, and Cost of Equity

$$\begin{aligned} \text{P/B} &= \text{ROE} \times \text{P/E} \\ &= \text{ROE} \times \frac{1}{\text{Cost of Equity} - \text{Profit Growth Rate}} \end{aligned}$$

* For details of each strategy, please refer to the disclosure materials dated February 13, 2026, titled “ISB Group Medium- to Long-Term Business Plan 2030.”

We aim to achieve our ROE target by strengthening profitability and optimizing our capital structure.

We plan to pursue business growth investments centered on human capital and M&A to enhance corporate value, while appropriately allocating cash toward further corporate growth and shareholder returns.
