Notice Concerning Revision to Dividend Forecast for Fiscal Year Ended December 31, 2025 (12th Fiscal Year)

K&O Energy Group Inc. (the “Company”) hereby announces that it has resolved to revise the dividend forecast per share for the fiscal year ended December 31, 2025 at the Board of Directors meeting held on February 13, 2026. Details are as follows.

1. Reasons for the revision to dividend forecast

As a basic policy, the Company aims to enhance shareholder returns through stable and continuous dividend payments, while striking a balance between investments in our core business of producing and supplying valuable domestic resources on a stable and long-term basis through our group companies and investments in future-oriented businesses that pursue growth in new business domains by comprehensively considering our medium- to long-term consolidated results, free cash flow, and other relevant factors. Based on this approach, our Medium-Term Management Plan (MTP 2027) introduces a “progressive dividend policy” and sets a shareholder return target of a dividend on equity (DOE) ratio of 1.5% for the final year of the plan.

Taking into consideration the financial results for the fiscal year ended December 31, 2025 in addition to this policy, the Company has decided to increase the dividend per share while maintaining a stable dividend and plans to increase the year-end dividend per share by ¥4 from the previous forecast of ¥26, bringing it to ¥30.

This proposed year-end dividend is scheduled to be submitted for approval at the 12th Annual General Meeting of Shareholders, which is expected to be held in late March 2026.
