[Monthly comment]

In February, net sales were 111.2% YoY for all stores and 102.1% for existing stores. As a result, existing store sales exceeded those of the same month of the previous year for the 54th consecutive month.

In terms of products, sales were driven by the clearance of winter clothing in the first half of the month, as well as the timely transition to spring clothing ahead of schedule, driven by rising temperatures in the latter half of the month.

In addition, categories other than our mainstay apparel, such as fashion accessories and hobby goods, also showed growth, and our successfully capturing resilient reuse demand contributed to our business performance.
