Notice Concerning Revisions to Full-Year Consolidated Financial Results Forecasts

Timee, Inc. (the “Company”) hereby announces that in light of the most recent operating trends, a decision was passed at the meeting of the Board of Directors held on March 12, 2026, to revise the financial results forecasts for the fiscal year ending April 30, 2026 (November 1, 2025 through April 30, 2026), which were disclosed in the "Notice Concerning Revisions to Full-Year Consolidated Financial Results Forecasts in Connection with Change of Accounting Period" announced on December 22, 2025, as described below.

1. Revisions to consolidated financial results forecasts for the current fiscal year (November 1, 2025 through April 30, 2026)

	Net sales	Operating profit	Ordinary profit	Profit attributable to owners of parent	Basic earnings per share
	Millions of yen	Millions of yen	Millions of yen	Millions of yen	Yen

Revised forecasts (B)	20,503 ~20,913	3,746 ~4,137	3,706 ~4,097	2,754 ~3,021	27.34 ~30.00

Change (%)	6.6 ~4.7	19.7 ~12.2	20.4 ~12.6	31.0 ~13.5	—

Notes 1. The fiscal year ending April 30, 2026 will be a transitional 6-month period (November 1, 2025 through April 30, 2026) due to the change in the accounting period.

2. Actual results for the previous fiscal year are not presented as the Company did not prepare consolidated financial results for the fiscal year ended October 31, 2025.

2. Reason for revision

Regarding the forecast for net sales, the Company has decided to raise both the upper and lower ends of the previously announced forecast range. This is due to the fact that progress in the first quarter of the fiscal year ending April 30, 2026 was solid, exceeding initial expectations. In addition, the outlook for the second quarter is expected to remain strong driven by steady demand in major industries.

Regarding the forecasts for operating profit, ordinary profit, and profit attributable to owners of parent, while the Company is making strategic investments, the positive effect of increased net sales, in addition to cost controls through continued operational efficiency, will absorb these increased expenses. Consequently, operating profit, ordinary profit, profit attributable to owners of parent, and basic earnings per share are all expected to exceed the previously announced forecasts.
