2. Reason

The Company recognizes that achieving increase in corporate value over the medium- and long-term ultimately translates into higher shareholder value. In line with this understanding, the Company's fundamental policy is to work to consistently increase dividends through growth in earnings per share. In addition, since the start of Medium-term Plan from FY March 2025, the Company has adopted a shareholder return policy that aims for a dividend payout ratio of 35%. Under these policies, and in light of the Company's business performance of the fiscal year ended March 31, 2026, the Company proposes a year-end dividend of 20 yen, an increase of 2 yen from the previously announced dividend forecast. As a result, the annual dividend per share will be 36 yen including the interim (end of second quarter) dividend of 16 yen (the consolidated dividend payout ratio will be 34.9%).
