2. Reason

SUN-WA TECHNOS CORPORATION has positioned the return of profits to shareholders as one of its management priorities. As for annual dividends, we aim to maintain stable dividend payouts with a DOE of 4.0% or higher.

In the fiscal year ended March 2026, profits at each stage exceeded the results of the previous fiscal year and the

forecast for the current fiscal year due to strong demand from each industry. In light of these circumstances, and taking into account the progress of our business performance and financial condition, we increased the year-end dividend for the fiscal year ended March 2026 by ¥2 per share to ¥62 per share in order to further enhance the return of profits to our shareholders. As a result, the annual dividend for the fiscal year ending March 2026, including the interim dividend of ¥60, will be ¥122 per share.

Going forward, SUN-WA TECHNOS CORPORATION will continue to consider increasing its dividend based on its business performance and in line with its dividend policy with a target DOE of 4.0% or more, while balancing investment for growth and shareholder returns.
