## Notice Concerning Notice of Difference between Forecast and Actual Results for the Fiscal Year Ended March 31, 2026

K'S HOLDINGS CORPORATION (the "Company") hereby announces that we have recorded the following difference between the consolidated financial results forecast for the fiscal year ending March 31, 2026 announced on May 8, 2025 and the actual results.

### 1. Difference from the forecast of consolidated financial results for the fiscal year ending March 31, 2026 (April 1, 2025 - March 31, 2026)

	Net sale	Operating profit	Ordinary profit	Profit attributable to owners of parent	Basic earnings per share
	Million yen	Million yen	Million yen	Million yen	Yen
Previous forecast (A)	755,000	23,000	26,500	10,000	63.50
Revised forecast (B)	759,710	26,799	30,579	14,317	91.31
Change (B-A)	4,710	3,799	4,079	4,317	
Change (%)	0.6	16.5	15.4	43.2	
(Reference) Results for the previous fiscal year (Fiscal year ended March, 2025)	738,019	21,781	25,910	9,525	57.08

### 2. Reason for the difference

The consolidated financial results for the fiscal year ended March 31, 2026 were as follows. PCs continued to perform well even after the end of support for Windows10. In addition, mobile phones performed well due to the arrival of the replacement cycle from the residual value-based contracts that became widespread in earnest about two years ago. Air conditioners performed well due to the record-breaking heat wave, the expansion of subsidies under the "Tokyo Zero Emission Points," a subsidy system for the purchase of energy-saving home appliances by the Tokyo Metropolitan Government. And last-minute demand ahead of the so-called "The 2027 Air Conditioner Problem," which is a concern about price increases due to the increase in the energy-saving standards in April 2027, becoming apparent toward the end of the fiscal year. As a result of the above, net sales, operating profit, ordinary profit, and profit attributable to owners of parent are all exceed the earnings forecasts announced on May 8, 2025, despite the recording of an impairment loss of 11,255 million yen under extraordinary losses.
