Notice Concerning Revisions to Consolidated financial results forecast for the second quarter (interim period)

In light of recent business performance trends, Hosokawa Micron Corporation (hereafter referred to as "the Company") has announced that we have revised our Consolidated financial results forecast for the second quarter (interim period) of the fiscal year ending September 2026 (October 1, 2025 – March 31, 2026), which was originally announced on February 6, 2026, as follows.

1. Details of revisions
Revision to Consolidated financial results forecast for the second quarter (interim period) of the fiscal year ending September 30, 2026

(October 1, 2025– March 31,2026)

	Net sales	Operating profit	Ordinary profit	Profit attributable to owners of parent for the interim period	Interim net income per share
Previous forecast (A)	Millions of yen 38,500	Millions of yen 3,000	Millions of yen 3,200	Millions of yen 2,400	Yen 163.98
Revised forecast (B)	39,900	1,750	2,250	1,200	81.89
Change (B-A)	1,400	(1,250)	(950)	(1,200)	―
Change (%)	3.6%	(41.7%)	(29.7%)	(50.0%)	―
(Reference) Actual results for the previous interim period	38,477	3,573	3,938	2,691	181.85

2. Reasons for revisions
While sales in yen terms exceeded expectations due to the significant depreciation of the yen against the euro compared to the same period last year, profit improvement has been delayed, primarily in Europe, due to the impact of the current uncertain social and economic conditions. Furthermore, as a result of recording business restructuring costs related to our German operations during the first quarter of the current fiscal year, profits are now expected to fall short of the previously announced figures.

We are currently reviewing our consolidated financial forecasts for the fiscal year ending September 2026. Should any matters requiring disclosure come to light, we will announce them promptly.

(Note) The above forecast is based on information available as of the date of this document. Actual performance and other outcomes may differ from projected figures due to various factors that could arise in the future.
