1. Operating Results and Financial Position (Consolidated)

(1) Operating Results

Sales (operating revenue) decreased by 10.2% from the previous fiscal year to 1,182.2 billion yen, mainly due to the decrease in electricity sales volume in Thailand and the effect of the suspension and decommissioning of Matsushima Thermal Power Plant and decline in capacity market prices, etc. Non-operating income increased by 143.6% from the previous fiscal year to 97.3 billion yen, mainly due to the increase in share of profit of entities accounted for using equity method resulting from the transfer of interests in the U.S. thermal power generation business, etc. Total ordinary revenue decreased by 5.7% from the same period of the previous fiscal year to 1,279.6 billion yen.

Operating expenses decreased by 8.2% from the same period of the previous fiscal year to 1,081.2 billion yen, mainly due to the decrease in fuel costs and power supply costs purchased from other suppliers in power generation business, and fuel costs in overseas business, etc. Total ordinary expenses, including non-operating expenses, decreased by 7.8% from the same period of the previous fiscal year to 1,121.1 billion yen.

Ordinary profit increased by 13.2% from the same period of the previous fiscal year to 158.5 billion yen, mainly due to the increase in share of profit of entities accounted for using equity method, etc., despite the increases in repair expenses and the decline in coal sales prices at the Australian consolidated subsidiary that owns coal mining interests.

Profit attributable to owners of parent after corporate income tax decreased by 36.7% from the same period of the previous fiscal year to 58.5 billion yen, due to impairment losses recorded on renewable energy assets in Australia and the Takasago Thermal Power Plant, and extraordinary losses were also recognized as a result of fixed asset retirement losses stemming from the removal of certain equipment at Ohma Nuclear Power Plant project to ensure the quality and reliability of instrumentation and control systems.

Operating results by segment are as follows.

(Power Generation Business)

In power generation business, electricity sales volume from renewable power plants for the current fiscal year showed 2.6% decrease from the same period of the previous fiscal year to 9.8TWh, mainly due to the decrease in water supply rate from 91% to 88%. In thermal power, the increase in the load factor of thermal power plants from 58% to 67% resulted in 1.5% increase in electricity sales volume from the previous fiscal year to 41.8TWh. The sales volume of electricity procured from wholesale electricity market, etc. showed 9.3% decrease from the same period of the previous fiscal year to 15.0TWh. Total electricity sales volume of power generation business decreased by 1.7% from the same period of the previous fiscal year to 66.7TWh.

Sales (electric utility operating revenue and other business operating revenue) decreased by 10.5% from the same period of the previous fiscal year to 865.6 billion yen, mainly due to the effect of the suspension and decommissioning of Matsushima Thermal Power Plant and the decline in capacity market prices, etc.

Segment income decreased by 33.8% from the previous fiscal year to 45.3 billion yen, mainly due to the effect of the suspension and decommissioning of Matsushima Thermal Power Plant and the increases in repair expenses, etc.

(Transmission and Transformation Business)

Sales (electric utility operating revenue) decreased by 1.2% from the previous fiscal year to 49.8 billion yen mainly due to the decrease in transmission revenue.

Segment income decreased by 37.4% from the previous fiscal year to 1.7 billion yen, mainly due to the decrease in sales and the increase in interest expense, etc.

(Electric Power-Related Business)

Sales (other business operating revenue) decreased by 12.4% from the previous fiscal year to 89.9 billion yen mainly due to the coal price decline by an Australian consolidated subsidiary that owns coal mining interests.

Segment income decreased by 50.2% from the same period of the previous fiscal year to 16.9 billion yen, mainly due to the decrease in sales, etc.

(Overseas Business)

Electricity sales volume in the overseas business decreased by 19.5% from the same period of the previous fiscal year to 14.4TWh, due to the decrease in electricity sales volume in Thailand.

Sales (overseas business operating revenue) decreased by 6.9% from the same period of the previous fiscal year to 227.8 billion yen mainly due to the decrease in electricity sales volume, etc.

Segment income increased by 174.9% from the previous fiscal year to 94.8 billion yen, mainly due to the increase in share of profit of entities accounted for using equity method resulting from the transfer of interests in the U.S. thermal power generation business, etc.

(Other Business)

Sales (other business operating revenue) decreased by 11.8% from the previous fiscal year to 16.0 billion yen.

Segment income decreased by 32.9% from the previous fiscal year to 0.4 billion yen.

(2) Financial Position

Total assets increased 70.9 billion yen from the end of the previous fiscal year to 3.7397 trillion yen. This is mainly due to the progress of the construction of Charger Solar Power Plant in the U.S. and Sakuma East–West Trunk Line Reinforcement Project, and depreciation of the yen and others.

Total liabilities amounted to 2.2052 trillion yen, largely unchanged from the previous consolidated fiscal year. Of this amount, interest-bearing debt increased 4.1 billion yen from the end of the previous fiscal year to 1.8832 trillion yen, and it included 334.3 billion yen of non-recourse loans in overseas business.

Total net assets increased by 70.9 billion yen from the end of the previous consolidated fiscal year to 1.5344 trillion yen, mainly due to the increase of profit attributable to owners of the parent and increase in foreign currency translation adjustments, etc., despite a decrease resulting from the acquisition of treasury stock.

As a result, shareholders' equity ratio increased from 36.4% at the end of the previous

fiscal year to 37.6%.

(3) Cash Flow

(Cash flows from operating activities)

Cash inflow from operating activities decreased 26.0 billion yen from the previous fiscal year to 224.2 billion yen mainly due to the decrease in operating profit and increase in income tax payments, despite higher interest and dividend income received.

(Cash flows from investing activities)

Cash outflow from investing activities increased 70.4 billion yen from the previous fiscal year to 193.2 billion yen mainly due to the increase in expenditures for the acquisition of fixed assets.

(Cash flows from financing activities)

Cash outflow from financing activities decreased 69.4 billion yen in net cash outflows compared with the previous consolidated fiscal year to 64.2 billion yen mainly due to the increase in expenditures for the acquisition of treasury stock were more than offset by higher proceeds from the issuance of bonds and increased borrowing, etc.

As a result of these activities, cash and cash equivalents as of March 31, 2026 decreased 2.42 billion yen from the end of the previous fiscal year to 348.8 billion yen.

(4) Earnings Forecast

In the earnings forecasts for the fiscal year ending March 31, 2027, electricity sales volume in power generation business is estimated taking into account of water supply rate for same as normal year in hydroelectric power, resolution of facility trouble at some thermal power plants. Electricity sales volume in overseas business is estimated based on power generating plans in Thailand and the United States.

As a result, operating revenue is expected to increase 16.7% from the fiscal year ended March 31, 2026 to 1.3800 trillion yen, mainly due to the rise in electricity sales price, etc. Operating profit is projected to rise by 23.8% year on year to 125.0 billion yen, driven by increased revenues in the power generation business and the commencement of operations at the Charger Solar Power Project in the United States.

Ordinary profit is expected to decrease by 21.2% year on year to 125.0 billion yen, primarily due to the rebound loss of gains on the sale of equity-method investments in the United States recorded in the previous fiscal year. Profit attributable to owners of parent is forecast to increase by 38.4% year on year to 81.0 billion yen.

(5) Basic Policy Regarding Distribution of Profits Current and Following Period Dividends

With regard to shareholder returns, the Company aims for a total payout ratio of approximately 30%. Taking into account the level of profits, earnings forecast, and financial position, we will endeavor to enhance returns in a stable and sustainable manner.

For the fiscal year ended March 31, 2026, the Company plans to pay a year-end dividend of 50 yen per share, resulting in an annual dividend of 100 yen per share including the interim dividend.

For the fiscal year ending March 31, 2027, in light of the expectation that the management targets set forth in the “J-POWER Group Medium-Term Management Plan 2024–2026” will be achieved, the Company plans to pay a dividend of 105 yen per share (including an interim dividend of 50 yen), representing an increase of 5 yen per share from the fiscal year ended March 31, 2026.

2. Basic Approach Related to the Selection of Accounting Standards

J-POWER Group mainly operates in electric power business and its accounting documents are created following the Ordinance on Terminology, Forms, and Preparation Methods of Consolidated Financial Statements (Ordinance of the Ministry of Finance No. 28 of 1976) and the Electric Utility Accounting Regulations (Ordinance of the Ministry of International Trade and Industry No. 57 of 1965).

We will examine the application of IFRS with consideration to future business developments.

(5) Notes to Consolidated Financial Statements

(Notes on Premise of Going Concern)

Not applicable.

(Segment Information)

1. Overview of reporting segments

The J-POWER Group's reportable segments are internal structural units for which separate financial information is available and are subject to regular review by the Board of Directors to determine the distribution of management resources and evaluate performance.

The J-POWER Group's business is separated into 5 reportable segments of "Power Generation Business", "Transmission and Transformation Business", "Electric Power-Related Business", "Overseas Business" and "Other Business".

(Power Generation Business)

Engages in the power generation business, utilizing power plants owned by J-POWER Group companies including hydro, thermal, and wind facilities, as well as the maintenance and operation of these facilities. Additionally, the Group sells electricity procured from the wholesale electricity markets.

(Transmission and Transformation Business)

Engages in the transmission business through a subsidiary owned power transmission and transformation facilities. This subsidiary provides transmission services to nine transmission and distribution companies, excluding The Okinawa Electric Power Company.

(Electric Power-Related Business)

Engages in complementing and contributing to the smooth and efficient execution of the Power Generation Business and Transmission and Transformation Business.

(Overseas Business)

Engages in overseas power generation business and related businesses.

(Other Business)

Engages in activities, including the sale of coal, that fully utilize J-POWER Group's management resources and expertise.

2. Method of calculating amounts in sales, income or loss, assets and other items for each reportable segment

The method of accounting for reportable segments is the same as that applied to consolidated financial statements. The income of reportable segments is calculated on the basis of ordinary profit. Intersegment internal revenues are based on third-party transaction prices.

3. Information concerning amounts in sales, income or loss, assets and other items for each reportable segment

(Stock Compensation Plan for Directors)

The Company has introduced a stock compensation plan (hereinafter referred to as "the Plan") for its directors (excluding outside directors and directors who are members of the Audit and Supervisory Committee, hereinafter referred to as "Directors") and executive officers (excluding those who concurrently serve as Directors, but hereinafter collectively referred to as "Directors, etc." including Directors).

The accounting treatment for the Plan is based on the "Practical Solution on Transactions of Delivering the Company's Own Stock to Employees, etc. through Trusts" (Practical Issues Task Force No. 30, March 26, 2015).

(1) Overview of the Transaction

The Plan is a stock compensation scheme under which a trust established by the Company through monetary contributions (hereinafter referred to as "the Trust") acquires the shares of the Company. The Trust delivers shares to Directors and other eligible officers in accordance with the number of points granted to each individual. One point shall correspond to one share of the Company's stock, and, in principle, the shares are delivered to Directors, etc. upon their resignation.

(2) Treasury Stock Remaining in the Trust

The Company's shares remaining in the Trust are recorded as treasury stock under net assets at the book value of the Trust (excluding incidental costs). The book value and the number of such treasury stock were 338 million yen and 170,000 shares as of the end of the previous consolidated fiscal year, and 763 million yen and 325,000 shares as of the end of the current consolidated fiscal year.

Additionally, the Board of Directors, at its meeting held on June 26, 2025, resolved to continue the Plan and make an additional monetary contribution. As a result, the book value and the number of shares have increased compared to the end of the previous consolidated fiscal year due to the acquisition of additional shares during the current consolidated fiscal year.
