2. Reason

The Company recognizes that the distribution of profits to shareholders is an important management issue. Based on its financial situation, with consideration for the enhancement of internal reserves, and in line with its policy of distributing earnings in accordance with operating results, the Company adopts a basic policy of targeting a dividend payout ratio of around 40% while continuing to make stable dividend payments.

Regarding the annual dividend for the year-end dividend in line with this policy, we had previously planned to distribute 25 yen per share for the fiscal year ending March 2026. However, in light of consolidated results having exceeded our previous forecast, we are now revising the year-end dividend to 30 yen per share. As a result of this revision, the dividend payout ratio is expected to be 39.9%.

Going forward, we will strive to further improve our performance while actively enhancing shareholder returns.
