# Segment Performance – Social Infrastructure Business

## Positive Factors

- Our main civil engineering materials business continues to perform well, driven by the expansion of both national resilience-related projects and defense-related projects.
- Regionally, the Kyushu and Okinawa areas performed particularly well, but there was progress in projects across all of Japan.
- Among the subsidiaries, Maedakosen Industrial Products Co., Ltd., which was added to the Group last year, and MIRAI no Agri CO., LTD., involved in harmful animal control, performed well.

## Negative Factors

- Within the Social Infrastructure Business, the performance of the subsidiary Kushiro Highmeal Co., Ltd. fell short of the initial plan due to factors such as a decline in fish meal unit prices.

# Segment Performance – Industrial Infrastructure Business

## Positive Factors

- The BBS business performed well, with BBS Japan's strong performance covering for BBS Germany.
- The introduction of the new coating lines is progressing smoothly, with full-scale operations scheduled to commence around November.
- As for MIRAI KOSEN CO., LTD., the performance is steady, with the wiping cloth business progressing well.

## Negative Factors

- The performance of BBS Germany is significantly negative compared to last year, as initially expected, but there is anticipation for new car models from the next fiscal year.
