Notice Regarding Differences between Full-Year Consolidated Financial Forecasts and Actual Results

SUNCORPORATION (the "Company") hereby announces the differences between the full-year consolidated financial forecasts for the fiscal year ended March 31, 2026 (from April 1, 2025 to March 31, 2026), previously announced on February 13, 2026, and the actual results for the same period announced today, as described below.

1. Differences between the Consolidated Financial Forecasts and Actual Results for the Fiscal Year Ended March 31, 2026 (April 1, 2025 to March 31, 2026)

	Consolidated net sales	Consolidated Operating profit	Consolidated ordinary profit	Profit attributable to owners of parent	Consolidated earnings per share
Previous forecasts (A)	(Millons of yen) 10,300	(Millons of yen) (210)	(Millons of yen) 5,500	(Millons of yen) 8,800	(Yen) 399.84
Actual results (B)	9,907	(15)	5,133	9,663	441.53
Change (B-A)	(393)	195	(367)	863	—
Change (%)	(3.8)	—	(6.7)	9.8	—
(Reference) Actual consolidated results for the previous fiscal year (Fiscal year ended March 31, 2025)	10,837	1	709	17,228	774.02

2. Reason for the differences

Net sales were lower than the previous forecast, primarily due to a decrease in sales volume in the Entertainment-related business and IT-related business compared to the Company's assumptions. Operating profit exceeded the previous forecast, mainly because selling, general and administrative

expenses were kept lower than previously anticipated. Ordinary profit fell below the forecast, as equity in earnings of affiliates was lower than the previous assumption. Profit attributable to owners of parent exceeded the forecast, primarily due to gain on change in equity being higher than expected.
