UBE Corporation Announces Revised Dividend Forecast

UBE Corporation has determined its dividend forecast for the fiscal year ending March 31, 2027, which had been left undetermined at the time of the announcement of its consolidated financial results for the fiscal year ended March 31, 2026, as described below.

1 Reasons for the Revision

In the medium-term management plan “UBE Vision 2030 Transformation – 2nd Stage,” which commenced in fiscal 2025, the Company set its dividend policy as a DOE (dividend on equity ratio) of at least 2.5%. The Company has reviewed this policy to further enhance capital efficiency and shareholder returns.

As a result, the Company has raised the DOE target to at least 3.5% and aims to achieve a DOE of 4.0% at an early stage in line with the progress of the medium-term management plan.

Based on this policy, the Company plans to pay dividends of ¥80 per share at the end of the second quarter and ¥80 per share at the fiscal year-end for the fiscal year ending March 31, 2027, for a total annual dividend of ¥160 per share.

For further details, please refer to the “Management Overview Presentation for Fiscal 2026” released today. (The presentation materials are scheduled to be disclosed at a later date.)

2 Details of the Revision

Dividend Forecast for the Fiscal Year Ending March 31, 2027
