

BUSINESS REPORT

FOR THE 90TH FISCAL TERM

FROM APRIL 1, 2025
TO MARCH 31, 2026

10-1, Higashikotari 1-chome, Nagaokakyo-shi, Kyoto, Japan
Murata Manufacturing Co., Ltd.
Norio Nakajima
President and Representative Director

Business Report

From April 1, 2025
to March 31, 2026

1. Matters Concerning Status of the Companies

(1) Main business areas

The Companies primarily engage in manufacturing and sales of electronic components and related products made from ceramic materials. Their products are categorized into Components (such as multi-layer ceramic capacitors, inductors, and EMI suppression filters), Devices and Modules (such as resin multilayer substrates, high-frequency modules, SAW filters, lithium-ion secondary batteries, and sensors), and Others (such as medical products and solutions business). The Companies conduct vertically integrated technological development and manufacturing, from inorganic and organic chemical materials, to ceramics and electronic components. Furthermore, the Companies create original products based on accumulated proprietary foundational technologies, which include materials and processes development, product design and production technology, as well as supporting software and analysis, and evaluation to verify product performance and reliability. Products are sold for edge devices, such as smartphones, PCs, and wearables, as well as IT infrastructure, such as data centers, servers, base stations, and backbone network equipment. Products are also sold for use in a wide range of electronic equipment, such as mobility, audio-visual equipment, and home appliances.

(2) Business progress and results

1) Business conditions

During the current fiscal year, the global economic environment maintained solid growth against the backdrop of expanding AI-related demand. However, the outlook remained uncertain due to trade policy developments across various countries and rising geopolitical risks including the unstable situation in the Middle East.

In the electronics market, where Murata Manufacturing Co., Ltd., and its subsidiaries (hereinafter, the “Companies”) operate, demand for parts rose as the number of electronic components used in AI servers and peripheral equipment increased, which in turn boosted demand for data centers. Furthermore, although the growth rate of xEVs has slowed, the automotive market remained firm, driven by the advancement of AD/ADAS.

Under these circumstances, regarding revenue for the current fiscal year, revenue from high-frequency modules and multilayer resin substrates used in smartphones decreased. In contrast, revenue from multilayer ceramic capacitors (MLCCs) increased across a wide range of applications, mainly servers, and revenue from inductors for smartphones and mobility as well as EMI filters for servers and mobility increased. As a result, revenue increased by 5.0% year on year to 1,830,856 million yen, despite the impact of foreign currency fluctuations (appreciation of the yen by 1.79 yen year on year).

Looking at profits, operating profit was 281,835 million yen, up 0.8% year on year; profit before tax was 308,643 million yen, up 1.4% year on year; and profit attributable to owners of parent came to 233,920 million yen, up 0.0% year on year. This was due to profit-increasing factors such as gains from a higher operation rate resulting from an increase in production output and cost reduction, despite a fall in product selling prices and impairment losses on goodwill in business related to SAW filter products.

Return on invested capital (ROIC) (post-tax basis) during the period was 9.7%, a year-on-year decrease of 0.3 percentage points, due to an increase in invested capital, including property, plant and equipment.

Key financial results

Revenue **1,830.9 billion yen** YoY **+5.0%**

Operating profit **281.8 billion yen** YoY **+0.8%**

Profit before tax **308.6 billion yen** YoY **+1.4%**

Profit attributable to owners of parent **233.9 billion yen** YoY **+0.0%**

Return on invested capital (ROIC) (post-tax basis) **9.7 %** YoY **-0.3 percentage points**

Performance Trend

Sales by Application (Based on the Company's estimates)

Sales by Area

2) Revenue by operating segment

[Capacitors]

(MLCCs, etc.)

Orders and backlogs

1,063.6 billion yen

Revenue

936.4 billion yen

YoY

+104.6 billion yen (+12.6%)

For the fiscal year under review, revenue of MLCCs increased across a wide range of applications, mainly for servers.

As a result, overall revenue increased by 12.6% year on year to 936,418 million yen.

<Net sales>

(Billions of yen)

[Inductors and EMI Filters]

(Inductors, EMI suppression filters)

Orders and backlogs

234.1 billion yen

Revenue

223.3 billion yen

YoY

+22.0 billion yen (+11.0%)

For the fiscal year under review, revenue of inductors increased for smartphones and mobility, while revenue of EMI suppression filters increased for servers and mobility.

As a result, overall revenue increased by 11.0% year on year to 223,316 million yen.

<Net sales>

(Billions of yen)

[High-Frequency Device and Communications Module]

(Multilayer resin substrates, high-frequency modules, connectivity modules, SAW filters, etc.)

Orders and backlogs	403.7 billion yen
Revenue	394.8 billion yen
YoY	-48.8 billion yen (-11.0%)

For the fiscal year under review, revenue of high-frequency modules decreased for smartphones and PCs, and revenue of multilayer resin substrates decreased for smartphones.

As a result, overall revenue decreased by 11.0% year on year to 394,829 million yen.

<Net sales> (Billions of yen)

[Battery and Power supply]

(Lithium-ion secondary batteries, power supplies modules)

Orders and backlogs	164.3 billion yen
Revenue	154.1 billion yen
YoY	-1.7 billion yen (-1.1%)

For the fiscal year under review, revenue of power supply modules decreased for distributors and industrial equipment but increased for servers. Revenue of lithium-ion secondary batteries increased for servers but decreased for video game consoles.

As a result, overall revenue decreased by 1.1% year on year to 154,063 million yen.

<Net sales> (Billions of yen)

[Functional Device]

(Sensors, timing devices (resonators), etc.)

Orders and backlogs	110.0 billion yen
Revenue	107.1 billion yen
YoY	+9.3 billion yen (+9.5%)

For the fiscal year under review, revenue of sensors increased for mobility, and revenue of actuators increased for computers.

As a result, overall revenue increased by 9.5% year on year to 107,074 million yen.

<Net sales>

(Billions of yen)

(3) Issues to be Addressed

1) Basic policy on company management

The Companies practice management based on the Murata Philosophy, the heart of which is to “contribute to the advancement of society by creating innovative products and solutions.” Our employees share a belief in the slogan “Innovator in Electronics,” which embodies the Companies’ desire to be a leader in innovation for the electronics industry.

For the Companies to continue proactively creating value as a true Innovator in Electronics, it is important that we expand the scope of the value we provide from just “innovation for customers” to also include “innovation for solving social issues.” “CS (customer satisfaction: Continuing to create and provide value that is recognized by the customer) and ES (employee satisfaction: Every employee achieves satisfaction and continuing growth through the performance of their work duties)” are key values of the Companies and the driving force behind the three core competencies: “the power to read the future,” “the power to give shape to needs,” and “the power to deliver value.” We aim to harness these core competencies to each other to demonstrate our collective strength and generate a continuous cycle of social and economic value, through which we will contribute to the enrichment of society.

To achieve this, we believe it important that diverse personnel collaborate with each other beyond organizational boundaries to create innovation. Another critical part is to pursue co-creation with stakeholders more actively than we ever have before. Going forward, we will build solid relationships with our stakeholders, work to solve social issues, and contribute to social sustainability.

“The Companies’ value creation process”

2) Medium- to long-term company management strategy

I. Vision 2030 (long-term vision)

During the fiscal year ended March 31, 2022, the Companies established Vision 2030 as our long term vision. Vision 2030 describes what Murata wants to be, namely that “Murata will innovate to create a continuous cycle of social and economic value and contribute to the enrichment of society.” We also made it our growth strategy to “deepen core businesses and promote evolution of business models” and to “execute four management transformations.” We present these as our vision to give consistency to our efforts through 2030 and enable us to get where we want to be. By so doing, we aim to ensure that the Companies remain the best choice for customers and society as well as the global No. 1 component & module supplier.

“Vision 2030: What Murata wants to be”

Growth strategy (1): Deepen core businesses and promote evolution of business models

In order for the Companies to continue to create value as an innovator in the drastically changing electronics industry, it is necessary to capture the global trends of technology and changes in society and reflect them in business management. In order to create various innovations looking ahead to the future from a long-term perspective, the Companies use a 3-layer portfolio in their business management and focus on five key fields with business opportunities to create value.

“3-layer portfolio”

Innovator in Electronics

“Five business opportunities”

Growth strategy (2): Execute four management transformations

- Management transformation 1: Management that creates a continuous cycle of social value and economic value

The Companies strive to increase the value it provides to society (social value) while creating a continuous cycle of social value and economic value as it aims to remain the company of choice that is trusted by its stakeholders. To achieve this vision, we have set targets for key issues (materialities) originating with social issues.

- Management transformation 2: Autonomous and decentralized organizational management

Even as the Companies expand its scale and business area, we hope to transform Murata's organizational management to be more autonomous and decentralized so that every employee can continue to practice the Murata Philosophy in their daily work, provide value, and continue growing just as we did when the Murata Philosophy was established.

- Management transformation 3: Change-responsive management based on hypothetical thinking

At a time when the environment is changing drastically, we should not be passive, but rather prepare by hypothesizing what might happen in the future, then practice change-responsive business management, which flexibly corrects its course in response to change. Each function and organization continually gathers information on future changes, discusses them, takes action, and monitors, raising their sensitivity to environmental changes.

- Management transformation 4: Digital transformation (DX)

The Companies define digital transformation (DX) as an initiative that enables people and organizations (business processes) both inside and outside Murata to connect digitally and freely and make processes shorter, faster, and visible, thereby continually driving to dramatically increase customer value and competitiveness. Both the organization that promotes the strategy for company-wide DX and the executing organization will accelerate the overall digitalization in order to realize our vision in the domains to strengthen and core fields.

II. Medium-Term Direction 2027

Positioning

The Companies see Medium-Term Direction 2027 as covering a three-year period of increased clarity toward the realization of our vision as we work to achieve “what Murata wants to be” as described in Vision 2030. We believe that the emergence of AI will further accelerate the realization of “digital twins” that the Companies foresee for 2030 in our worldview. On the way to achieving our 2030 worldview, the three years from now through 2027 will be a period of major change in the electronics industry. For this period, we have set forth three basic policies that the Group will implement to increase clarity toward the realization of our vision of initiatives to be the best choice for customers and society.

Management Targets

Our company-wide management targets under Medium-Term Direction 2027 are as follows.

Economic value	Social value
Revenue FY2027: 2,000.0 billion JPY or higher FY2030: 2,500.0 billion JPY or higher Operating profit ratio FY2027: 18% or higher FY2030: 20% or higher ROIC (post-tax basis)*1 FY2027: 12% or higher FY2030: 15% or higher	(1) Environment Amount of GHG*2 emissions (vs. FY2019) Scope 1 and 2 FY2027: -39% FY2030: -46% FY2040: CN*3 Scope 3 FY2027: Data refinement FY2030: -27.5% FY2050: CN Renewable energy sourcing rate FY2027: 55% FY2030: 75% FY2035: 100% Rate of use of sustainable resources*4 FY2027: 16% FY2030: 25% FY2050: 100% Resource recycling rate*5 FY2027: 41% FY2030: 50% FY2050: 100% (2) Diversity Number of people with global experience*6 FY2027: 1,500 people accumulated in 3 years FY2030: 3,000 people accumulated in 6 years Ratio of women in managerial positions*7 FY2027: 7% FY2030: 10% (3) ES Positive employee engagement response rate FY2027: 71% or higher FY2030: 76% or higher

*1 $\text{ROIC (post-tax basis)} = \text{Operating profit} \times (1 - \text{effective tax rate}) / \text{Average invested capital at the beginning and end of the period (Property, plant, and equipment/right-of-use assets/goodwill/intangible assets + inventories + trade receivables - trade payables)}$

*2 Greenhouse gas

*3 Carbon neutral

*4 Percentage of recycled material use (by weight), mainly in 24 resources at high risk of depletion

*5 Percentage of Murata's discharges (waste + valuable materials) that are recycled as circulating resources (by weight)

*6 Cumulative number of employees in Japan and abroad who have gained global experience through relocation, training, or remote assignments outside their home country after 2025

*7 Murata Manufacturing Co., Ltd. on a non-consolidated basis

Three “Basic Policies”

- Policy 1: Dramatic growth in electronics driven by AI

With the development of AI technology, we foresee that the Companies’ business opportunities will further expand as we realize our “digital twins” worldview, in which cyberspace and physical space are seamlessly connected.

The Companies will focus on edge devices, mobility, and IT infrastructure as our core fields, aiming to win the No. 1 share of the market for capacitors and for inductors and EMI filters, and to achieve high sales growth in functional devices, high-frequency devices and communications modules, and battery and power supply.

In addition, we see the environment, wellness, and layer 3 businesses as challenge fields. We will work to expand our businesses in these areas and explore technologies for the very long term beyond 2030.

- Policy 2: Practicing sustainable operations

Up to now, the Companies have achieved business growth by pursuing lighter, thinner, shorter, smaller, and more efficient products contributing to the miniaturization of electronic devices, and by taking the lead in efforts to reduce environmental impact through sustainable operations. Going forward, we will accelerate our efforts by co-creating with our stakeholders under the two main themes of climate change countermeasures and resource recycling.

In addition, to ensure a stable supply of products in business conditions where the threat of hazard risks and geopolitical risks is becoming more complex, we will further strengthen our efforts to reinforce our networks among sites around the globe, maintain appropriate inventory policies, and build resilient, diversified supply chains.

- Policy 3: Strengthening people and organizations, which are the core of management capital

The Companies believe that organizational and human capital is the core connecting all management capital. As such, we aim to realize Vision 2030 by promoting the transformation into individuals and an organization brimming with innovation. We have drawn up a new “virtuous cycle between individuals and the organization” model that spells out actions to be taken by individuals and the organization in an autonomous and decentralized organizational management. We will further our initiatives under the three key themes of “dynamic resource allocation,” “developing leaders who can change the future,” and “achieving a virtuous cycle between individuals and the organization.”

In addition, we aim to realize high-cycle operations by promoting DX to visualize and streamline engineering chains, supply chains, and demand chains. This will give our personnel more time to focus on the core objectives of our operations and serving customers properly, helping to maximize CS and ES.

Progress of economic value targets and capital allocation

“Economic value targets”

	Medium-Term Direction 2027 Target	FY2024 Result	FY2025 Result
Revenue (Millions of yen)	2,000,000	1,743,352	1,830,856
Operating profit ratio (%)	18% or higher	16.0	15.4
ROIC (post-tax basis) (%) (Note)	12% or higher	10.0	9.7

(Note) ROIC (post-tax basis) = Operating profit × (1 - effective tax rate) / Average invested capital at the beginning and end of the period (Property, plant, and equipment/right-of-use assets/goodwill/intangible assets + inventories + trade receivables - trade payables)

As described in “(2) Business progress and results” in “1. Matters Concerning Status of the Companies,” revenue for the current fiscal year was higher than that of the previous fiscal year, while operating profit ratio and ROIC (post-tax basis) were lower than those of the previous year. The business environment remains uncertain due to rising geopolitical risks, including changes in trade policies in various countries and instability in the Middle East, but the demand for electronic components in the electronics market in which the Companies operate is set to grow over the medium to long term. We will continue to take actions based on the “Basic Policies” set out in Medium-Term Direction 2027 and strengthen our profitability and productivity to meet our economic value targets.

“Capital allocation”

The Medium-Term Direction 2027 sets out the capital allocation policy as illustrated on the right, with the aims of expanding business and maximizing corporate value.

In the current fiscal year, capital expenditures amounted to a cumulative total of 247.8 billion yen. As for strategic investment, the amount for projects already executed and approved amounted to 28.3 billion yen. Shareholder returns amounted to 110.7 billion yen in dividends and 100.0 billion yen in share repurchases.

In the current market environment, demand for data center-related applications has expanded significantly, reflecting an increase in the number of electronic components installed in AI servers and related peripheral equipment. We will continue investing in our main businesses (Components/Devices and Modules) and aim to steadily generate cash. We will meet stakeholder expectations by providing additional returns to shareholders in a flexible manner in response to the business environment.

(4) Status of capital expenditures

During the current fiscal year, the Companies had capital expenditures totaling 247,778 million yen.

Primary components were 89,824 million yen in reinforcement and rationalization of manufacturing facilities of the Company and its subsidiaries, 97,370 million yen in the acquisition of land and buildings, and 17,030 million yen in reinforcement of research and development facilities.

No eliminations or sales that had a significant effect on manufacturing capabilities were carried out.

(5) Business transfer, absorption-type company split, incorporation-type company split

On March 1, 2026, the Company completed the transfer of the micro primary battery business operated by the Company and its wholly owned subsidiary, Tohoku Murata Manufacturing Co., Ltd., to a newly established wholly owned subsidiary (the “New Company”) through an absorption-type company split and the transfer of all shares in the New Company to Maxell, Ltd., with the aim of allocating management resources and focusing on the Cylindrical Lithium-Ion Secondary Battery business.

(6) Status of property and profits

Status of property and profits of the Companies

Item \ Term	87th Fiscal Term From April 1, 2022 to March 31, 2023		88th Fiscal Term From April 1, 2023 to March 31, 2024	89th Fiscal Term From April 1, 2024 to March 31, 2025	(Millions of yen) 90th Fiscal Term From April 1, 2025 to March 31, 2026
	U.S. GAAP	IFRS	IFRS	IFRS	IFRS
Revenue	1,686,796	1,686,796	1,640,158	1,743,352	1,830,856
Profit before tax	314,895	302,683	239,404	304,404	308,643
Profit attributable to owners of parent	253,690	243,946	180,838	233,818	233,920
Total assets	2,872,763	2,858,303	3,037,895	3,028,194	3,199,099
Equity attributable to owners of parent	2,402,511	2,359,985	2,556,147	2,580,805	2,718,743
Basic earnings per share	133.78 yen	128.64 yen	95.72 yen	125.08 yen	127.66 yen
Ratio of equity attributable to owners of parent	83.6%	82.6%	84.1%	85.2%	85.0%

- (Notes)
1. The Company prepares consolidated financial statements on an IFRS basis starting from the 88th term, and the above is stated in accounts under IFRS. For the 87th term, the figures after reclassified in accordance with IFRS are also listed.
 2. The Company implemented a three-for-one common stock split effective October 1, 2023. Basic earnings per share are calculated based on the assumption that the stock split was executed at the beginning of the 87th term.
 3. Amounts of less than one million yen are rounded to the nearest million yen.

(7) Primary sites and status of significant subsidiaries of the Company

1) The Company (As of March 31, 2026)

Name	Location
Head Office	Nagaokakyo-shi, Kyoto
Tokyo Branch	Shibuya-ku, Tokyo
Yokaichi Plant	Higashiomi-shi, Shiga
Yasu Division	Yasu-shi, Shiga
Yokohama Technical Center	Yokohama-shi, Kanagawa
Nagaoka Division	Nagaokakyo-shi, Kyoto
Minato MIRAI Innovation Center	Yokohama-shi, Kanagawa

2) Subsidiaries (As of March 31, 2026)

Company name	Capital	Share of voting rights held by the Company	Primary business areas	Head office location
Fukui Murata Manufacturing Co., Ltd.	Millions of yen 300	% 100	Manufacturing and development of components	Echizen-shi, Fukui
Izumo Murata Manufacturing Co., Ltd.	430	100	Manufacturing of components	Izumo-shi, Shimane
Toyama Murata Manufacturing Co., Ltd.	450	100	Manufacturing of devices and modules	Toyama-shi, Toyama
Kanazawa Murata Manufacturing Co., Ltd.	480	100	Manufacturing of devices and modules	Hakusan-shi, Ishikawa
Okayama Murata Manufacturing Co., Ltd.	480	100	Manufacturing of components, devices and modules	Setouchi-shi, Okayama
Komoro Murata Manufacturing Co., Ltd.	200	100	Manufacturing of devices and modules	Komoro-shi, Nagano
Tohoku Murata Manufacturing Co., Ltd.	300	100	Manufacturing and development of devices and modules	Koriyama-shi, Fukushima
Murata Electronics North America, Inc.	Thousands of US\$ 14,406	100	Sales of products of the Company and its subsidiaries and associates	United States of America
Murata Company Limited	Thousands of HK\$ 1,900,000	100	Sales of products of the Company and its subsidiaries and associates	People's Republic of China
Murata (China) Investment Co., Ltd.	Thousands of US\$ 145,000	100	Marketing and engineering activities in Greater China, General management of Chinese sales companies	People's Republic of China
Murata Electronics Trading (Shanghai) Co., Ltd.	Thousands of US\$ 23,400	100 (Note)	Sales of products of the Company and its subsidiaries and associates	People's Republic of China
Wuxi Murata Electronics Co., Ltd.	Thousands of US\$ 478,000	100 (Note)	Manufacturing of components, devices and modules	People's Republic of China
Shenzhen Murata Technology Co., Ltd.	Thousands of US\$ 58,100	100 (Note)	Manufacturing of components, devices and modules	People's Republic of China
Murata Energy Device Wuxi Co., Ltd.	Thousands of US\$ 486,220	100 (Note)	Manufacturing of devices and modules	People's Republic of China
Foshan Murata Materials Co., Ltd.	Thousands of US\$ 68,900	90 (Note)	Manufacturing of raw materials	People's Republic of China
Murata Electronics Europe B.V.	Thousands of EURO 245,000	100	Sales of products of the Company and its subsidiaries and associates	Kingdom of the Netherlands
Murata Electronics (Thailand), Ltd.	Thousands of Baht 6,610,385	100	Manufacturing of components, devices and modules	Kingdom of Thailand
Philippine Manufacturing Co. of Murata, Inc.	Thousands of PHP 7,700,000	100	Manufacturing of components	Republic of the Philippines

Company name	Capital	Share of voting rights held by the Company	Primary business areas	Head office location
Murata Electronics Singapore (Pte.) Ltd.	Thousands of SD 4,000	100	Manufacturing of components, devices and modules, Sales of products of the Company and its subsidiaries and associates, General management of ASEAN sales companies	Singapore
Murata Integrated Passive Solutions SAS	Thousands of EURO 60,647	100 ^(Note)	Development and manufacturing of components	France
Murata Manufacturing Vietnam Co., Ltd.	Thousands of US\$ 105,600	100 ^(Note)	Manufacturing of components	Vietnam

(Note) Ratio includes indirect holdings.

3) Progress and results of business combinations

The number of consolidated subsidiaries is 82, including 21 significant subsidiaries above. The results of business combinations are as stated in “(2) Business progress and results” in “1. Matters Concerning Status of the Companies.”

(8) Employees

1) Employees of the Companies

Number of employees	
As of March 31, 2026	Year-on-year change
Persons	Persons
74,302	1,730

(Note) The number of employees is the number of persons in regular employment at the Company (excluding persons seconded outside of the Companies), and does not include seasonal, part-time, or temporary employees (1,549 persons).

2) Employees of the Company

Number of employees		Average age	Average length of service
As of March 31, 2026	Year-on-year change		
Persons	Persons	Years old	Years
11,174	309	40.5	14.4

(Note) The number of employees is the number of persons in regular employment at the Company (excluding persons seconded to subsidiaries, etc., but including persons seconded from subsidiaries, etc.), and does not include seasonal, part-time, or temporary employees (408 persons).

(9) Lenders (As of March 31, 2026)

A description has been omitted because the amounts of borrowings are immaterial.

(10) Other important matters concerning status of the Companies

In February 2026, the Companies discovered the possibility of unauthorized third-party access to their IT environment. Following an investigation, it was confirmed that information regarding the Companies' business partners and the personal information of the Companies' employees had been improperly obtained. In light of this incident, the Companies are reexamining their information security management approach and framework that they have been implementing to date, and making revisions and enhancements as necessary to prevent a recurrence.

2. Matters Concerning Shares (As of March 31, 2026)

- (1) Total number of authorized shares 5,229,000,000 shares (Number of shares per unit: 100 shares)
- (2) Total number of issued shares 1,963,001,843 shares (Includes 142,709,692 treasury shares)
- (3) Number of shareholders 169,288 persons
- (4) Major shareholders (Top 10)

	Shareholder name	Number of shares held (Thousands of shares)	Ownership ratio (%)
1	The Master Trust Bank of Japan, Ltd. (Trust Account)	312,702	17.2
2	Custody Bank of Japan, Ltd. (Trust Account)	121,395	6.7
3	STATE STREET BANK AND TRUST COMPANY 505001	52,434	2.9
4	Nippon Life Insurance Company	49,687	2.7
5	Meiji Yasuda Life Insurance Company	47,168	2.6
6	The Bank of Kyoto, Ltd.	32,340	1.8
7	GOVERNMENT OF NORWAY	26,959	1.5
8	BNYM AS AGT / CLTS NON TREATY JASDEC	24,525	1.3
9	JP MORGAN CHASE BANK 385781	24,261	1.3
10	STATE STREET BANK AND TRUST COMPANY 505103	22,208	1.2

(Note) Ownership ratio is calculated after subtracting treasury shares (142,709 thousand shares) from the total number of issued shares.

Shareholding by shareholder category

(thousand shares)

- Foreign companies 844,029
- Financial institutions 697,790
- Own shares 142,710
- Domestic companies 77,222
- Securities firms 36,345
- Individual investors & others 164,907

(5) Shares granted as compensation for the execution of duties during the current fiscal year

Category	Number of shares (shares)	Persons
Members of the Board of Directors (excluding those who are Audit and Supervisory Committee Members)	46,990	5
Vice Presidents	54,615	18

- (Notes)
1. Out of the total shown above, there are no shares granted to Outside Directors.
 2. The contents of share-based remuneration at the Company are stated in “3. (4) Compensation, etc., of Members of the Board of Directors and Audit and Supervisory Committee Members.”

(6) Other important matters concerning shares

In accordance with the resolution of the Board of Directors meeting held on April 30, 2025, the Company repurchased its shares as shown below.

Class and number of shares repurchased: 42,158,500 common shares

Total amount: 99,999,906,141 yen

Period: From May 7 to October 29, 2025

3. Matters Concerning Corporate Officers of the Company

(1) Members of the Board of Directors (As of March 31, 2026)

Name	Positions and responsibilities	Significant concurrent positions	
Norio Nakajima	President and Representative Director		
Hiroshi Iwatsubo	Representative Director and Executive Deputy President Director of Technology		
Masanori Minamide	Representative Director and Executive Deputy President In charge of Corporate Administration, Corporate Management DX and Legal & IP		
Hiroshi Izumitani	Member of the Board of Directors and Senior Vice President Director of Communication & Sensor Business Unit Director of RF Device Division	Komoro Murata Manufacturing Co., Ltd.	President and Representative Director
Takaki Murata	Member of the Board of Directors and Senior Vice President Director of Corporate Technology & Business Development Unit		
Yuko Yasuda	Member of the Board of Directors	Board Advisors Japan, Inc.	Director and Vice President
		Eisai Co., Ltd.	Outside Director
		KAJIMA CORPORATION	Outside Director
Takashi Nishijima	Member of the Board of Directors	Hitachi, Ltd.	Outside Director
Hiroyuki Ina	Member of the Board of Directors		
Yoshiro Ozawa	Member of the Board of Directors who is an Audit and Supervisory Committee Member (Standing)		
Takatoshi Yamamoto	Member of the Board of Directors who is an Audit and Supervisory Committee Member	Hitachi, Ltd.	Outside Director
Naoko Munakata	Member of the Board of Directors who is an Audit and Supervisory Committee Member	The University of Tokyo Graduate School of Public Policy	Project Professor
		ExaWizards Inc.	Outside Director
		Sumitomo Forestry Co., Ltd.	Audit & Supervisory Board Member (outside)
Seiichi Enomoto	Member of the Board of Directors who is an Audit and Supervisory Committee Member	Enomoto Certified Public Accountant Office	Senior Partner
		iBridge Japan	Representative Director

- (Notes)
- Members of the Board of Directors Yuko Yasuda, Takashi Nishijima, and Hiroyuki Ina, and Members of the Board of Directors and Audit and Supervisory Committee Members Takatoshi Yamamoto, Naoko Munakata, and Seiichi Enomoto are Outside Directors as stipulated by Article 2, Paragraph (15) of the Companies Act.
 - Member of the Board of Directors and Audit and Supervisory Committee Member Yoshiro Ozawa has experience in finance and accounting operations at the Company, and possesses adequate insight into the fields of finance and accounting.
Member of the Board of Directors and Audit and Supervisory Committee Member Takatoshi Yamamoto has years of experience as a securities analyst and possesses adequate insight into the fields of finance and accounting.
Member of the Board of Directors and Audit and Supervisory Committee Member Seiichi Enomoto is a certified public accountant, and possesses adequate insight into the fields of finance and accounting.

Member of the Board of Directors Hiroshi Izumitani retired from his position as President and Representative Director of Komoro Murata Manufacturing Co., Ltd. on March 31, 2026.

Member of the Board of Directors Yuko Yasuda was appointed as Outside Director of KAJIMA CORPORATION on July 27, 2025.

Member of the Board of Directors Takashi Nishijima was appointed as Outside Director of Hitachi, Ltd. on June 25, 2025, and retired from his position as Outside Director of LOGISTEED, Ltd. on June 26, 2025.

Member of the Board of Directors who is an Audit and Supervisory Committee Member Naoko Munakata retired from her position as Professor of The University of Tokyo Graduate School of Public Policy on March 26, 2026, was appointed as Project Professor of the same on March 27, 2026, and was appointed as Audit & Supervisory Board Member (outside) of Sumitomo Forestry Co., Ltd. on March 27, 2026.

9. The following change in positions and responsibilities of the Member of the Board of Directors occurred after the end of the fiscal year under review.

Name	Before change	After change	Date of change
Hiroshi Izumitani	Member of the Board of Directors Senior Vice President Director of Communication & Sensor Business Unit Director of RF Device Division	Member of the Board of Directors Senior Vice President Director of Communication & Sensor Business Unit	April 1, 2026

(2) Summary of liability limitation agreements

The Company has entered into liability limitation agreements with Members of the Board of Directors (excluding those who are the executive directors) to restrict liabilities for damages as stipulated by Article 423, Paragraph (1) of the Companies Act based on the provisions of Article 427, Paragraph (1) of the same Act. The liability limit under these agreements is the minimum liability amount stipulated in Article 425, Paragraph (1) of the same Act.

(3) Summary of Directors and Officers Liability Insurance agreement

The Company has entered into a Directors and Officers Liability Insurance agreement, as stipulated in Article 430-3, Paragraph (1) of the Companies Act, with an insurance company. The scope of the insured under the insurance agreement includes Members of the Board of Directors and Vice Presidents of the Company and the Company's subsidiaries, etc., and the insurance premiums are fully paid by the Company.

Under the insurance agreement, the insurance company covers damages that may arise from the insured being liable for the execution of their duties or being subject to a claim related to the pursuit of such liability, and the insurance agreement is renewed each year. The Company plans to renew the agreement with similar terms at the time of next renewal.

(4) Compensation, etc., of Members of the Board of Directors and Audit and Supervisory Committee Members

1) The amount of compensation, etc., of Directors and matters related to policy concerned with determination of calculation methods

The Company, upon establishing the following remuneration governance, operates its remuneration program and determines compensation, etc. of Directors based on the resolutions of the General Meeting of Shareholders and the decision policy of individual compensation, etc. of Members of the Board of the Company, which includes the basic policy for the remuneration system.

A) Remuneration governance

(1) Method to determine decision policy of compensation, etc.

The Company makes decisions at the Board of Directors about the decision policy on individual compensation, etc. regarding the amount of compensation, etc., of Directors of the Company and determination of its calculation methods, based on reports from the Remuneration Advisory Committee, which was established to enhance objectivity and transparency and to improve corporate governance.

(2) Roles and responsibilities of the Remuneration Advisory Committee

The Remuneration Advisory Committee of the Company reviews the appropriateness of remuneration levels and systems for Members of the Board of Directors and provides necessary recommendations or reports to the Board of Directors. Furthermore, to ensure a high level of independence and objectivity in all decisions related to the remuneration system, the Remuneration Advisory Committee, entrusted by the Board of Directors, determines the details of remuneration for each individual Member of the Board of Directors, including payment amounts, within the remuneration framework for each type of remuneration, as resolved at the General Meeting of Shareholders.

As a measure to ensure that the delegated authority is exercised appropriately, to ensure effective discussions while secure the independence of the Remuneration Advisory Committee, the Company endeavors to provide the Remuneration Advisory Committee with the enough objective information it requires by appointing an external compensation consulting firm, Willis Towers Watson (WTW), as an advisor and fully understands the recent environment and public trends surrounding executive remuneration. This includes utilizing remuneration benchmarks from companies of similar size, industry, and business type, as well as other information and advice from the advisor.

(3) Composition of the Remuneration Advisory Committee, attributes of the Chairperson, and methods of resolutions

Composition of the Remuneration Advisory Committee of the Company will be composed of Members of the Board of Directors selected by the Board of Directors and will be composed of a majority of Outside Directors. In addition, the Chairperson of the Remuneration Advisory Committee will be resolved by the Board of Directors and will be selected from Directors who are Independent Outside Directors.

Also, the Remuneration Advisory Committee of the Company will be attended by a majority of Directors who can participate in resolutions, and resolutions will be passed by means of a majority vote by those in attendance. However, Directors cannot exercise voting rights on resolutions where there is a special interest, and in this case, the voting rights of said Directors will not be included in the number of voting rights of Directors in attendance.

B) Remuneration program

(1) Basic policy for director remuneration system

In order to create a remuneration system that supports the embodiment of “Innovator in Electronics” through the practice of the Company’s philosophy, which aims for creating shared value with stakeholders to contribute to sustainable corporate value enhancement, the following basic policy for the director remuneration system shall be established.

- The director remuneration system should share the values of its stakeholders, including shareholders, employees, customers, society, and communities, etc.
- Short term incentive remuneration should maintain and deepen a corporate culture in which the Company’s officers and employees work together autonomously, cooperate and collaborate toward sustainable company development through the creation of innovation
- Medium- to long-term incentive remuneration should increase Director’s morale and motivation toward the creation of medium- to long-term economic value and social value
- The remuneration system should have a structure in which a highly independent Remuneration Advisory Committee proactively verifies the appropriateness of the director remuneration system structure and remuneration amounts from the perspective of medium to long-term value creation

(2) Details of remuneration for Members of the Board of Directors who are not Audit and Supervisory Committee Members

Remuneration for Members of the Board of Directors (excluding Outside Directors) (Executive Directors)

Remuneration for Executive Directors consists of fixed remuneration and variable remuneration as shown in Table 1. Variable remuneration consists of bonuses, performance-linked share-based remuneration (PSUs), and restricted stock remuneration (RSs).

The remuneration level and composition ratio is based on the “Executive Compensation Database” operated by the external remuneration consulting company, WTW (Willis Towers Watson) and determined by performing benchmarks on corporations similar to the Company’s type of industry and scale and verifying the validity.

Furthermore, the composition ratio of remuneration elements of remuneration of the President and Representative Director is largely as shown in Table 4. The composition ratio of remuneration elements for other inside Members of the Board of Directors who are not Audit and Supervisory Committee Members of the Company is set so that the ratio of variable remuneration is higher for upper-ranking positions according to the responsibilities for each position.

Table 1: Overview of Executive Directors' Remuneration System and Variable Remuneration Mechanism

Remuneration types		Overview and reasons for selection of performance-linked remuneration indicators
Fixed	Basic remuneration	- Determined according to representative rights and position - Paid monthly
Variable	Short-term Bonuses	- Cash remuneration intended to serve as an incentive for creating economic value during each fiscal year - The performance evaluation indicator is consolidated operating profit, which is the same calculation indicator as for employee bonuses and contributes to the growth of sales and revenue with the appropriate profit margins that the Company emphasizes. - The payment amount is calculated by multiplying the performance value of the performance evaluation indicator by a predetermined position-specific multiplier as described below. However, the range of variation in the payment amount is 0% to 200% of the standard amount determined for each position. $\text{Bonus payment amount} = \text{Consolidated operating profit} \times \text{Position-specific multiplier}$ - In principle, bonuses are paid in June after the end of the fiscal year.
	Medium-term Performance-linked share-based remuneration (PSU)	- Share-based remuneration intended to serve as an incentive for medium-term corporate value enhancement over three consecutive fiscal years - The performance evaluation indicators are Average ROIC (post-tax basis), Relative TSR and Sustainability Indicators. The reasons for their selection are as shown in Table 2. - In each year of service, Standard Share Units (1 unit = 1 Company Share) equivalent to a predetermined standard amount by position are granted, and three years after these are granted, the number of Confirmed Share Units to be delivered is determined by multiplying by a payment rate (varying from 0% to 200%) according to the achievement status of performance evaluation indicator targets. 50% of the Confirmed Share Units will be delivered as shares, and the remainder will be paid in cash for the purpose of covering tax expenses. However, for Sustainability Indicators, we have set an individual evaluation period of one year (the first year of the performance evaluation period). The reason is stated in the note on Table 2. $\text{Number of shares delivered} = \text{Standard Share Units} \times \text{Payment rate} \times 50\%$ $\text{Cash payment amount} = (\text{Standard Share Units} \times \text{Payment rate} - \text{Number of shares delivered}) \times \text{Share price at time of delivery}$ - In principle, Standard Share Units are granted in July.
	Long-term Restricted stock remuneration (RS)	- Share-based remuneration intended to enhance long-term value sharing between Member of the Board of Directors and shareholders and to increase motivation to contribute to the sustainable enhancement of corporate value - The transfer restriction on the granted RS will be lifted when Members of the Board of Directors and Vice Presidents retire from both positions due to expiration of term or mandatory retirement, etc. - The grant value of RS is determined according to the standard amount for each position. - In principle, RS is granted in July.

(Notes) 1. PSU is an abbreviation for Performance Share Unit.

2. RS is an abbreviation for Restricted Stock.

Table 2: Reasons for Selection of PSU Performance Evaluation Indicators, Evaluation Weights, and Payment Rates

Performance evaluation indicators	Reasons for selection	Evaluation weight	Range of payment rate	Each evaluation period
Average ROIC (post-tax basis)	Generation of economic value with an emphasis on capital efficiency	50%	0%-200%	3 years
Relative TSR	Sustainable enhancement of corporate value	30%	0%-200%	3 years
Sustainability Indicators	Generation of social value	20%	0%-200%	1 year

(Note) For Sustainability Indicators, the Company has set an individual evaluation period of one year (the first year of the performance evaluation period) from the perspective of evaluating measures for each fiscal year the social value targets set forth in the Company's Medium-Term Direction 2027. Therefore, although it will be evaluated on a single fiscal year, the Company Shares will be delivered after the end of the three consecutive fiscal years, which is the performance evaluation period. See Table 3 for details on the social value targets subject to evaluation.

Table 3: Sustainability Indicators (Social Value Targets Set Forth in the Medium-Term Direction 2027)

Social value target subject to evaluation		Medium-term targets (FY2025–FY2027)
Environment	Amount of GHG emissions	Scope 1, 2: 39% reduction (vs. FY2019) Scope 3: data refinement
	Renewable energy sourcing rate	55%
	Rate of use of sustainable resources	16%
	Resource recycling rate	41%
Diversity	Number of people with global experience	Cumulative over 3 years: 1,500 people
	Female managers	7% (the Company)
ES	Employee engagement affirmative answers	71% or higher

Table 4: Remuneration Composition Ratio for President and Representative Director

	Fixed remuneration	Variable remuneration		
		< ————— Performance-linked ————— >		
Remuneration composition ratio	Basic remuneration Approx. 28%	[Short-term] Bonuses Approx. 25%	[Medium-term] Performance-linked share-based remuneration (PSU) Approx. 33%	[Long-term] Restricted stock remuneration (RS) Approx. 14%
Payment format	Cash	Shares + Cash	Shares	

(Notes) 1. This remuneration composition ratio is based on the standard amount for bonuses and share-based remuneration.
2. 50% of the performance-linked share-based remuneration will be paid in cash for the purpose of covering tax expenses.

Remuneration for Outside Directors

Remuneration for Outside Directors (excluding Audit and Supervisory Committee Members) independent of the Company's business execution consists only of basic remuneration, in light of their role. The level is determined with reference to benchmark results and other information from companies of similar industry or size. However, each Outside Director will be paid additional allowances, such as a Chairman's allowance or a Committee Member's allowance, depending on their responsibilities, such as being the Chairman of the board or a member of a voluntary committee.

(3) Individual remuneration for Members of the Board of Directors who are Audit and Supervisory Committee Members

Remuneration for Members of the Board of Directors (including Outside Directors) who are Audit and Supervisory Committee Members consists only of basic remuneration, in light of their role. Individual remuneration is determined according to discussions between Members of the Board of Directors who are Audit and Supervisory Committee Members, pursuant to the provisions of Article 361, Paragraph (3) of the Companies Act.

(4) Guidelines for the holding of shares

From the perspective of strengthening the sharing of value with shareholders, the Company has recommended shareholdings as follows for Executive Directors. At the end of the current fiscal year, the President and Representative Director holds shares equivalent to 4.6 times his fixed remuneration.

President and Representative Director: His or her target shall be to hold shares equivalent to 3.0 times fixed remuneration, within five years of being appointed to the relevant position, and must continue to hold, at minimum, shares at or above the required level after reaching the standard.

Other Executive Directors: Their target shall be to hold shares equivalent to 1.5 times fixed remuneration, within five years of being appointed to the relevant position, and must continue to hold, at minimum, shares at or above the required level after reaching the standard.

(5) Repayment of remuneration, etc. (malus and clawback clause)

In order to ensure the soundness of the directors' remuneration system, the Company has established the malus and clawback clause, which stipulates that, based on the decision of the Board of Directors following deliberations by the Remuneration Advisory Committee, all or part of variable remuneration will be forfeited or repaid regardless of whether it has been paid or delivered under certain circumstances, such as misconduct or retrospective adjustments to financial statements due to fraudulent accounting. Remuneration types to which this provision applies were the right to receive a bonus before it was paid and the share-based remuneration before the lifting of transfer restrictions after the 86th Ordinary General Meeting of Shareholders held in June 2022. However, after the 89th Ordinary General Meeting of Shareholders held in June 2025, they are variable remuneration paid or delivered from fiscal 2025 onward, and the target period is the fiscal year in which the relevant event occurred and the three preceding fiscal years.

2) Relationship between remuneration results and business performance

i. Total compensation, etc. by category, total compensation by type and number of eligible Directors

Category	Total amount of compensation, etc. (Millions of yen)	Total amount per type of compensation, etc. (Millions of yen)				Number of eligible Directors (Persons)
		Basic remuneration	Bonus	Performance-linked share-based remuneration	Restricted stock remuneration	
Members of the Board of Directors (excluding those who are Audit and Supervisory Committee Members)	577	279	166	31	100	8
Members of the Board of Directors who are Audit and Supervisory Committee Members	90	90	—	—	—	4

- (Notes)
1. Out of the total shown above, total compensation, etc., provided to six Outside Directors, is 108 million yen (only basic remuneration).
 2. The amount of compensation, etc. for Members of the Board of Directors (excluding those who are Audit and Supervisory Committee Members) does not include employee salaries provided to Members of the Board of Directors concurrently serving as employees.
 3. By resolution at the 80th Ordinary General Meeting of Shareholders held on June 29, 2016, the maximum amount of compensation (excluding share-based remuneration) is 700 million yen or less for Members of the Board of Directors (excluding those who are Audit and Supervisory Committee Members). However, this does not include employee salaries and bonuses provided to Members of the Board of Directors concurrently serving as Vice Presidents. At the conclusion of the said General Meeting of Shareholders, the number of Members of the Board of Directors (excluding those who are Audit and Supervisory Committee Members) was eight (of which, one was an Outside Director).
 4. By resolution at the 80th Ordinary General Meeting of Shareholders held on June 29, 2016, the maximum amount of compensation is 100 million yen or less for Members of the Board of Directors who are Audit and Supervisory Committee Members. At the conclusion of the said General Meeting of Shareholders, the number of Members of the Board of Directors who are Audit and Supervisory Committee Members was four (of which, three were Outside Directors).
 5. The total number of Confirmed Share Units under the performance-linked share-based remuneration shall be limited to 200,000 shares per year, as approved at the 89th Ordinary General Meeting of Shareholders held on June 27, 2025, and the total number of Company Shares to be delivered to eligible directors shall be limited to 100,000 shares per year; and

the maximum total amount of monetary remuneration claims and funds for tax-purpose cash to be paid to eligible directors per year has been resolved to be the amount calculated by multiplying the upper limit of the total number of Confirmed Share Units, which is 200,000 shares per year, by the delivery time stock price. At the conclusion of said General Meeting of Shareholders, the number of eligible directors (excluding those who are Audit and Supervisory Committee Members and Outside Directors) is five.

6. By resolution at the 81st Ordinary General Meeting of Shareholders held on June 29, 2017, the maximum amount of compensation for the restricted stock remuneration is 300 million yen or less, and the maximum number of shares is 60,000 shares per year. Shares are not granted to Members of the Board of Directors who are Audit and Supervisory Committee Members or Outside Directors. At the conclusion of the said General Meeting of Shareholders, the number of Members of the Board of Directors (excluding those who are Audit and Supervisory Committee Members and Outside Directors) was seven. In addition, at the 85th Ordinary General Meeting of Shareholders held on June 29, 2021, the restricted period under the restricted stock remuneration plan was approved to change from “a period of minimum three years and maximum five years that starts from the payment date of common shares of the Company allotted under the agreement on allotment of shares with transfer restrictions entered into between the Company and each Eligible Director (hereinafter referred to as “Allotted Shares”) determined in advance by the Board of Directors of the Company” to “the period from the payment date of Allotted Shares to the date on which any of the Eligible Directors retires from both positions of Member of the Board of Directors and Vice President of the Company.” At the conclusion of the said General Meeting of Shareholders, the number of Members of the Board of Directors (excluding those who are Audit and Supervisory Committee Members and Outside Directors) was six.
7. The amount of remuneration, etc., of the performance-linked share-based remuneration represents the expense recognized for the performance-linked share-based remuneration that includes the current fiscal year in its performance evaluation period. No shares were delivered or cash was paid out as performance-linked share-based remuneration during the current fiscal year, and the first delivery and payment are expected to occur after the end of the fiscal year ending March 31, 2028.
8. The state of the Company Shares granted as share-based remuneration for the current fiscal year is as stated in “2. (5) Shares granted as compensation for the execution of duties during the current fiscal year.”

ii. Total compensation, etc. of persons whose total compensation, etc. is 100 million yen or more

Name (Category)	Company category	Total amount per type of compensation, etc. (Millions of yen)				Total amount of compensation, etc. (Millions of yen)
		Basic remuneration	Bonus	Performance- linked share-based remuneration	Restricted stock remuneration	
Norio Nakajima (Member of the Board of Directors)	The Company	70	57	13	35	177
Hiroshi Iwatsubo (Member of the Board of Directors)	The Company	49	36	7	23	117
Masanori Minamide (Member of the Board of Directors)	The Company	47	36	7	23	115

(Note) The amount of remuneration, etc., of the performance-linked share-based remuneration represents the expense recognized for the performance-linked share-based remuneration that includes the current fiscal year in its performance evaluation period. No shares were delivered or cash was paid out as performance-linked share-based remuneration during the current fiscal year, and the first delivery and payment are expected to occur after the end of the fiscal year ending March 31, 2028.

iii. Targets and results of performance evaluation indicators for performance-linked compensation with the current fiscal year as the evaluation period

(1) Bonuses

The performance evaluation indicator for bonuses based on the current fiscal year is consolidated operating profit for fiscal 2025. The Company has not set a target value for this performance evaluation indicator, as it has determined that calculating payment rates based on the degree of target achievement is not suitable for its bonus system.

The reasons for this are as follows.

- The Company's performance value is significantly influenced by market conditions
- To enhance the sense of unity between officers and employees, which is the source of the Company's value creation, the Company has determined that a system that maintains a certain degree of alignment with the calculation method for employee bonuses (Note 1) is appropriate (Note 2)

The actual consolidated operating profit for fiscal 2025 was 281,835 million yen.

- (Notes)
1. The Company's employee bonuses are calculated by multiplying a performance-linked indicator tied to consolidated operating profit by a predetermined constant.
 2. As described in "(1) B) Remuneration program (1) Basic policy of the Director remuneration system," the Company aims to share the values with its stakeholders, including shareholders, employees, customers, society, and communities, etc. by ensuring linkage with the officers and employees for short-term incentive remuneration, while emphasizing alignment with the creation of medium- to long-term economic value and social value for the medium- to long-term incentive remuneration.

(2) Performance-linked share-based remuneration

The performance-linked share-based remuneration uses average ROIC (post-tax basis), relative TSR, and sustainability indicators as performance evaluation indicators. The evaluation period consists of three consecutive fiscal years, and the actual results of the performance evaluation indicators will be finalized after the end of fiscal 2027, following the completion of the three-year period.

For details regarding the content of the performance indicators selected as the basis for calculating the amount of performance-linked share-based compensation, the reasons for their selection, and the calculation method for the performance-linked remuneration amount, refer to "(1) B) Remuneration programs (2) Individual remuneration for Members of the Board of Directors who are not Audit and Supervisory Committee Members."

iv. Matters related to the determination of the details of fixed individual compensation, etc., of Members of the Board of Directors for the current fiscal year

Composition, status of attendance, and activities of the Remuneration Advisory Committee held in the current fiscal year are as follows.

The Remuneration Advisory Committee of the Company, on determination of details of fixed individual compensation, etc., for Members of the Board of Directors of the Company for the current fiscal year, through the activities listed below, secured sufficient deliberation details. The Board of Directors of the Company, receiving a report from the Remuneration Advisory Committee stating appropriate determination of the details of fixed individual compensation, etc., for Members of the Board of Directors of the Company for the current fiscal year were made, judged that the details of fixed individual compensation, etc., for Members of the Board of Directors followed decision policy.

[Composition and status of attendance]

Name	Position	Status of attendance
Yuko Yasuda ◎	Outside Member of the Board of Directors	12/12 (100%)
Masanori Minamide	Representative Director	12/12 (100%)
Takashi Nishijima	Outside Member of the Board of Directors	12/12 (100%)
Naoko Munakata	Outside Member of the Board of Directors (Audit and Supervisory Committee Member)	12/12 (100%)

- (Notes)
1. ◎ after the name means the person is the chairperson.
 2. The Nomination Advisory Committee and the Remuneration Advisory Committee held a joint meeting four times during FY2025. The number of attendance includes attendance in four joint meetings for Yuko Yasuda, Masanori Minamide, Takashi Nishijima, and Naoko Munakata.

[Activities]

Main contents of discussion	Period
Determination of the amount of individual bonus for directors for the 89th fiscal term	May
Reporting of decision policy on director remuneration for the 90th fiscal term	April
Consideration and reporting of the reference amount of director remuneration for the 90th fiscal term	April, May, and June
Consideration and reporting of position-specific multiplier for bonus for the 90th fiscal term	May
Consideration and reporting of the confirmation of progress in social value targets and targets for share-based remuneration for the 90th fiscal term share-based remuneration	May
Consideration and determination of the individual reference amount for directors for the 90th fiscal term	June and July
Determination of activity plans for the Committee for the 90th fiscal term	July
Verification of the latest trends surrounding director remuneration	November
360-degree evaluation of President and Representative Director and determination of the evaluation on President and Representative Director for the current fiscal year (jointly with the Nomination Advisory Committee)	June, December, and January
Review of director remuneration based on its issues and trends	November, January, and March

- (Notes)
1. The 89th term refers to the period starting from the 88th Ordinary General Meeting of Shareholders held on June 27, 2024 until the 89th Ordinary General Meeting of Shareholders held on June 27, 2025.
 2. The 90th term refers to the period starting from the 89th Ordinary General Meeting of Shareholders held on June 27, 2025 until the 90th Ordinary General Meeting of Shareholders scheduled to be held on June 29, 2026.
 3. In June, December, and January, a joint meeting for the Nomination Advisory Committee and the Remuneration Advisory Committee was held in addition to the meeting of the Remuneration Advisory Committee.

(5) Key activities of Outside Directors

Name (Category)	Attendance at meetings of the Board of Directors	Attendance at meetings of the Audit and Supervisory Committee	Key activities and outline of duties performed in relation to expected roles
Outside Director Yuko Yasuda	12/12	—	Yuko Yasuda actively provided opinions and made proposals on many agenda items at meetings of the Board of Directors based on her perspective as an expert in the fields of executive personnel assessment, development, and corporate governance, as well as her abundant experience as a corporate manager. In addition, she has fulfilled appropriate roles in ensuring the validity and appropriateness of decision-making, as well as the oversight functions, such as by raising issues and providing advice regarding governance system, further improvement of effectiveness of the Board of Directors, human capital including human resource diversity and engagement, and sustainability, and raising issues and making proposals from the standpoint of management strategies with a view to medium- and long-term prospects. As a member of the Remuneration Advisory Committee, she attended all 12 meetings of the committee held during the current fiscal year, taking on the oversight functions with respect to the decision-making process on and operation of matters including the remuneration plans and levels for the Company's Members of the Board of Directors, as well as specific individual remuneration, from an objective and neutral standpoint. She has played an active role in managing the Remuneration Advisory Committee, leading the fair and transparent management of the committee as the chairperson. Additionally, as a member of the Nomination Advisory Committee, she attended all 12 meetings of the committee held during the current fiscal year, taking on the oversight functions with respect to the decision-making process on and operation of matters including the criteria and procedures for nominating candidates for Members of the Board of Directors of the Company, the nomination of candidates for Members of the Board of Directors and other officers, and the successor plan for President and Representative Director, from an objective and neutral position.
Outside Director Takashi Nishijima	12/12	—	Takashi Nishijima actively provided opinions and made proposals on many agenda items at meetings of the Board of Directors based on his abundant experience and insight as a corporate manager and chairman of a company operating global business related to industrial automation. In addition, he has fulfilled appropriate roles in ensuring the validity and appropriateness of decision-making, as well as the oversight functions, such as by raising issues and providing advice regarding the governance system, the status of the Board of Directors, the business portfolio, and business opportunities, and raising issues and making proposals from the standpoint of business and management strategies with a view to medium- and long term prospects. As the Chairman of the board, he has contributed to has contributed to the performance of its functions, by setting the agenda, organizing the key issues, and leading engaging discussions at Board meetings. As a member of the Nomination Advisory Committee, he attended all 12 meetings of the committee held during the current fiscal year, taking on the oversight functions with respect to the decision-making process on and operation of matters including the criteria and procedures for nominating candidates for Members of the Board of Directors of the Company, the nomination of candidates for Members of the Board of Directors and other officers, and the successor plan for President and Representative Director, from an objective and neutral position. Additionally, as the Chairman of the Nomination Advisory Committee, he has been actively involved in management of the committee, leading its fair and transparent operation. In addition, as a member of the Remuneration Advisory Committee, he attended all 12 meetings of the committee held during the current fiscal year, taking on the oversight functions with respect to the decision-making process on and operation of matters including the remuneration plans and levels for the Company's Members of the Board of Directors, as well as specific individual remuneration, from an objective and neutral standpoint.

Name (Category)	Attendance at meetings of the Board of Directors	Attendance at meetings of the Audit and Supervisory Committee	Key activities and outline of duties performed in relation to expected roles
Outside Director Hiroyuki Ina	12/12	—	Hiroyuki Ina actively provided opinions and made proposals on many agenda items at meetings of the Board of Directors based on his abundant experience and knowledge obtained through his engagement in the management of the electronic system and device business for many years at a company expanding its business related to automotive technologies, systems and products globally. In addition, he has fulfilled appropriate roles in ensuring the validity and appropriateness of decision-making, as well as the oversight functions, such as by raising issues and providing advice regarding product development, quality management, and communication with customers, and raising issues and making proposals from the standpoint of business and management strategies with a view to medium- and long-term prospects.
Outside Director who is an Audit and Supervisory Committee Member Takatoshi Yamamoto	12/12	10/11	Takatoshi Yamamoto actively provided opinions and made proposals on many agenda items at meetings of the Board of Directors and meetings of the Audit and Supervisory Committee based on his abundant experience and insight into the corporate analysis of companies mainly in the electronics industry in Japan and overseas as a securities analyst as well as his abundant experience in international corporate management. In addition, he has fulfilled appropriate roles in ensuring the validity and appropriateness of decision-making, as well as the oversight and supervisory functions, such as by raising issues and providing advice regarding business portfolio, business investments, and disclosure from the perspective of an investor, and making proposals from the standpoint of management strategies with a view to medium- and long-term prospects. In addition, as a member of the Nomination Advisory Committee, he attended all 12 meetings of the committee held during the current fiscal year, taking on the oversight and supervisory functions with respect to the decision-making process on and operation of matters including the criteria and procedures for nominating candidates for Members of the Board of Directors of the Company, the nomination of candidates for Members of the Board of Directors and other officers, and the successor plan for President and Representative Director, from an objective and neutral position.
Outside Director who is an Audit and Supervisory Committee Member Naoko Munakata	12/12	11/11	Naoko Munakata actively provided opinions and made proposals on many agenda items at the meetings of the Board of Directors and meetings of the Audit and Supervisory Committee based on her insight and abundant experience in government administration of such fields as industrial and trade policies and intellectual property policies as well as abundant experience in organizational management in central government ministries and agencies. In addition, she has fulfilled appropriate roles in ensuring the validity and appropriateness of decision making, as well as the oversight and supervisory functions, such as by raising issues and providing advice regarding geopolitical risks, information security risks, and technological advantages, providing advice on intellectual capital strategies, and raising issues and making proposals from the standpoint of management strategies with a view to medium and long-term prospects. As a member of the Remuneration Advisory Committee, she attended all 12 meetings of the committee held during the current fiscal year, taking on the oversight functions with respect to the decision-making process on and operation of matters including the remuneration plans and levels for the Company's Members of the Board of Directors, as well as specific individual remuneration, from an objective and neutral standpoint.
Outside Director who is an Audit and Supervisory Committee Member Seiichi Enomoto	12/12	11/11	Seiichi Enomoto actively provided opinions and made proposals on many agenda items at meetings of the Board of Directors and meetings of the Audit and Supervisory Committee based on his perspective and abundant experience as a certified public accountant and an expert in the fields of internal controls and risk management. In addition, he has fulfilled appropriate roles in ensuring the validity and appropriateness of decision-making, as well as the oversight and supervisory functions, such as by raising issues and providing advice regarding systems of internal controls and risk management, and making proposals from the standpoint of management strategies with a view to medium- and long-term prospects.

- (Notes)
1. For the fiscal year under review, in addition to the number of meetings of the Board of Directors in the table above, one resolution is deemed to have been made by the Board of Directors by written resolution based on the provisions of Article 370 of the Companies Act and Article 25 the Articles of Incorporation of the Company.
 2. The Nomination Advisory Committee and the Remuneration Advisory Committee held a joint meeting four times during FY2025. The number of attendances in the Nomination Advisory Committee and the Remuneration Advisory Committee includes attendance in the four joint meetings for Yuko Yasuda, Takashi Nishijima, Takatoshi Yamamoto, and Naoko Munakata.

4. Matters Concerning the Independent Auditor

(1) Name of Independent Auditor

Deloitte Touche Tohmatsu LLC

(2) Independent Auditor Compensation, etc., for the current fiscal year

	Category	Amount of compensation, etc.
(1)	Compensation, etc., as Independent Auditor	Millions of yen 248
(2)	Total amount of cash and other beneficial property payable by the Company and its subsidiaries	278

- (Notes)
1. The Audit and Supervisory Committee has given its consent to the amount of compensation, etc. for the Independent Auditor for the current fiscal year upon receiving explanation on quotation of compensation from the Independent Auditor and internal related departments, and conducting necessary verification on the content of the Independent Auditor's audit plans, the performance status of its accounting audit duties, and whether the calculation basis, etc. of quotation of compensation is appropriate.
 2. In the audit agreement between the Company and the Independent Auditor, audits based on the Companies Act and audits based on the Financial Instruments and Exchange Act are not distinguished, and as they are not distinguishable in practice, the amount in (1) is the total of these amounts.
 3. Of the Company's significant subsidiaries, Murata Electronics North America, Inc., Murata Company Limited, Murata (China) Investment Co., Ltd., Murata Electronics Trading (Shanghai) Co., Ltd., Wuxi Murata Electronics Co., Ltd., Shenzhen Murata Technology Co., Ltd., Murata Energy Device Wuxi Co., Ltd., Foshan Murata Materials Co., Ltd., Murata Electronics Europe B.V., Murata Electronics (Thailand), Ltd., Philippine Manufacturing Co. of Murata, Inc., and Murata Electronics Singapore (Pte.) Ltd., Murata Integrated Passive Solutions SAS, and Murata Manufacturing Vietnam Co., Ltd. are audited (such as audits defined by the Companies Act or the Financial Instruments and Exchange Act [including corresponding foreign laws and regulations]) by certified public accountants or Independent Auditors (including parties that hold corresponding foreign certifications) other than the Independent Auditor serving the Company.

(3) Policy for dismissal or nonrenewal of the Independent Auditor

If the Audit and Supervisory Committee determines that any of the items in Article 340, Paragraph (1) of the Companies Act applies to the Independent Auditor and that dismissal is appropriate, the Independent Auditor shall be dismissed upon unanimous approval of the Audit and Supervisory Committee.

Additionally, if the Audit and Supervisory Committee determines that the Independent Auditor cannot appropriately fulfill its duties, the Audit and Supervisory Committee shall determine the content of a proposal to be submitted to a General Meeting of Shareholders regarding the dismissal or nonrenewal for the Independent Auditor.

5. Policy on determining dividends of retained earnings, etc.

The Company's basic policy for returning profits to shareholders is to prioritize dividend payments. The Company intends to achieve a dividend on equity (DOE) of 5% by 2027 while enhancing the value of the Company and improving its financial strength over the long term.

The Company pays dividends of earnings twice a year, an interim dividend and a year-end dividend. In accordance with Article 459, Paragraph 1 of the Companies Act, the Articles of Incorporation of the Company stipulate that the dividends of retained earnings may be determined based on the Board of Directors' resolutions, not (necessarily) on the resolution of the General Meeting of Shareholders, but that in principle, interim dividends must be determined based on the Board of Directors' resolutions and year-end dividends based on the resolution of the General Meeting of Shareholders.

The Company distributed an interim dividend of 30 yen per share for the current fiscal year. For a year-end dividend for the year, we plan to pay 35 yen per share, which is to be submitted as a proposal at the 90th Ordinary General Meeting of Shareholders scheduled to be held on June 29, 2026.

Also, considering the acquisition of its treasury shares as a measure to return profits to shareholders, the Company implements it as appropriate in order to improve capital efficiency.

Unappropriated retained earnings are effectively utilized for future business development, such as research and development expenses for technological innovation and capital investment for the production of new products or products for which demand is expected to grow.

Systems to Secure the Appropriateness of Company Operations

The Company's Board of Directors has defined a basic policy regarding the maintenance of a system to secure the appropriateness of operations (internal control system), as shown below. Based on this, the Company works to appropriately maintain and operate the internal control system.

[Systems to Secure the Appropriateness of Company Operations]

- (1) System to secure compatibility between execution of duties of Members of the Board of Directors and employees with laws and regulations and the Articles of Incorporation
 - 1) The Company shall appoint a number of Outside Directors to strengthen operational execution decisions of the Board of Directors and monitoring functions of business execution by Members of the Board of Directors.
 - 2) The Company shall establish an organizational committee to evaluate the maintenance and operational conditions of the internal control system, and work to maintain and continuously improve the internal control system.
 - 3) In order to fulfill corporate social responsibilities (CSR), the Company shall establish an organizational committee which manages activities regarding CSR areas such as compliance and environment, etc., and promote CSR management of the Company and its subsidiaries (the "Companies") continuously and systematically.
 - 4) The Company shall establish an organization responsible for promotion of CSR activities. This organization will work in tandem with organizational committees related to CSR, and act as a central group to spread CSR within the Company and handle issues with the outside of the Company.
 - 5) In order for Members of the Board of Directors, Vice Presidents, and employees to adhere to laws and regulations and the Articles of Incorporation, and conduct business activities based on higher ethical standards, the Company shall define and work to spread Corporate Ethics Policy and Code of Conduct and regulations regarding compliance.
 - 6) In order to ensure early detection and prevention of non-compliant behavior, the Company shall establish a reporting hotline within and outside of the Company, and ensure that measures are in place such that there is no detriment to reporters.
 - 7) The Company shall clearly define within its Corporate Ethics Policy and Code of Conduct to firmly refuse correspondence and contact with anti-social activities and organizations and to not resolve unreasonable requests received from anti-social forces via the use of cash, etc., and will appropriately deal with such events based on the policy and the code.
 - 8) The Company shall establish an independent internal auditing department to evaluate and monitor the effectiveness of the internal control system.
- (2) System to store and manage information regarding the execution of duties by Members of the Board of Directors
 - 1) Minutes and group approval documents of the Board of Directors and other important documents concerning the execution of duties by Members of the Board of Directors shall be stored based upon internal regulations of the Company, and shall be suitably made available for viewing by Members of the Board of Directors.
 - 2) Basic items regarding storing and managing documents shall be defined within the internal regulations of the Company, and documents contained in the above item shall be appropriately stored and managed.
 - 3) A meeting structure shall be established to deliberate the necessity and content of timely disclosure of company information, and company information shall be disclosed in a timely and appropriate manner.
- (3) Regulations and other systems regarding management of risks of loss
 - 1) Regulations shall be defined regarding risk management, and the division that supervises each business function shall conduct risk management.
 - 2) Organizational committee regarding risk management shall be established and deliberations regarding the Companies' risk management structure and operational status and examination of measures for company-wide risk projects of the Companies shall be conducted at the organizational committee regarding risk management.
 - 3) Twice a year, the departments in charge of each risk will extract and evaluate the risks that the Companies are currently facing or are expected to in the near future and formulate countermeasures. The Risk Management Committee will organize these matters and direct additional measures as necessary.

- (4) System to secure efficient execution of duties by Members of the Board of Directors
 - 1) The Company shall formulate medium- and long-term policies and based on such long and medium term policies formulate yearly policies, budgets, and action plans, and manage the progress and confirm status of the achievement.
 - 2) The Company shall implement a Vice President system, and by separating decision making for management policies and important business execution from daily business execution, strengthen monitoring functions and business execution functions.
 - 3) To conduct appropriate decision making, approval regarding matters that are defined in the internal regulations of the Company shall be conducted via group approval procedures, through deliberation by concerned Members of the Board of Directors and Vice Presidents, etc.
 - 4) As a body to supplement decision making by the Board of Directors and Representative Directors, the Company shall establish the Management Committee.
 - 5) Various information regarding the status of business execution shall be provided to concerned Members of the Board of Directors, Vice Presidents, and employees periodically or as required, and a system to share information shall be established.

- (5) System to secure appropriate business in the Companies, composed of the Company and its subsidiaries
 - 1) The Companies shall share corporate policy that acts as a fundamental management policy, in addition to strictly enforcing and sharing Corporate Ethics Policy and Code of Conduct established to materialize the corporate policy, and regulations regarding compliance.
 - 2) The Companies shall establish regulations and procedures regarding common decision making. Based on these, deliberations will be made with subsidiaries regarding the business operations of subsidiaries, in addition to sharing various information regarding business operations of the Companies. Projects that meet the criteria of the agenda will be discussed and deliberated by the Management Committee and the Board of Directors.
 - 3) Divisions that supervise the various business functions of the Company shall define frameworks, processing procedures, and judgment standards for duties to ensure that duties within the Companies are performed appropriately and efficiently, in addition to providing appropriate direction to subsidiaries as required.
 - 4) The Internal Audit Department shall evaluate and monitor whether or not duties within the Companies are conducted appropriately and efficiently, adhering to laws and regulations and the internal regulations, etc. of the Company.
 - 5) Members of the Board of Directors, Vice Presidents, and employees of subsidiaries shall report to the Company matters defined in items 2) through 4) above, and other items regarding the execution of duties.
 - 6) The Company shall direct each subsidiary to establish and operate internal control systems that are appropriate for the content and scale of each business.

- (6) Matters regarding Members of the Board of Directors and employees who assist with the duties of the Audit and Supervisory Committee, matters regarding the independence of these employees from Members of the Board of Directors who are executive directors, and matters regarding securing the ability to execute orders given to these employees
 - 1) The Company shall establish a division to assist with the duties of the Audit and Supervisory Committee, and station an appropriate number of dedicated employees to assist with the duties of the Audit and Supervisory Committee.
 - 2) These employees shall not receive supervision or orders from Members of the Board of Directors who are executive directors. Additionally, for matters regarding human resources of these employees, Members of the Board of Directors who are executive directors must consult with and obtain permission from the Audit and Supervisory Committee.

- (7) System for reporting to the Audit and Supervisory Committee and system to ensure that parties that report to the Audit and Supervisory Committee do not receive detrimental treatment as a result of reporting
- 1) Members of the Board of Directors who are executive directors, Vice Presidents, and employees shall submit to the Audit and Supervisory Committee minutes and materials from Management Committee, etc., group approval documents of the Companies, and periodic reports of business reports, etc., and also report on facts that may conflict with the Corporate Ethics Policy and Code of Conduct, status of risks and risk management, status and content of reports to the internal reporting hotline, and audit results of external public institutions.
 - 2) In the event that facts are discovered regarding the business execution of the Companies that conflict with laws and regulations, the Articles of Incorporation, Corporate Ethics Policy and Code of Conduct, or other internal regulations of the Company, or may cause significant harm to the Companies, Members of the Board of Directors who are executive officers, Vice Presidents, and employees shall immediately report to the Audit and Supervisory Committee.
 - 3) In the event that facts are discovered regarding the business execution of the Companies that conflict with laws and regulations, the Articles of Incorporation, Corporate Ethics Policy and Code of Conduct, or other internal regulations of the Company, or may cause significant harm to the Companies, officers, statutory auditors, and employees of subsidiaries or parties that received such reports from officers, Statutory Auditors, and employees of subsidiaries shall report to the Audit and Supervisory Committee.
 - 4) Apart from the previous items, if requested by the Audit and Supervisory Committee, Members of the Board of Directors who are executive directors, Vice Presidents, and employees shall submit requested documents, etc., or report as required.
 - 5) Regarding the previous items, the Company shall not give detrimental treatment to reporters as a result of reporting.
- (8) Other systems to secure the effectiveness of audits by the Audit and Supervisory Committee
- 1) Members of the Board of Directors who are executive directors shall maintain an environment that allows for Audit and Supervisory Committee Members designated by the Audit and Supervisory Committee to attend important meetings.
 - 2) Members of the Board of Directors who are executive officers and employees shall conform to the “Audit Plan” as formulated on a yearly basis by the Audit and Supervisory Committee, and cooperate to allow for effective audits.
 - 3) Members of the Board of Directors who are executive officers and employees shall cooperate with and fulfill the requests of the Audit and Supervisory Committee in the event that evaluation hearings are required with attorneys-at-law or the Independent Auditor.
 - 4) Fees, etc., incurred as a result of the execution of duties by Audit and Supervisory Committee Members shall be borne by the Company.
 - 5) Members of the Board of Directors who are executive officers and employees shall cooperate with and fulfill the requests of the Audit and Supervisory Committee during the course of cooperation between the Audit and Supervisory Committee and the Independent Auditor.
 - 6) The Internal Audit Department shall work to cooperate with the Audit and Supervisory Committee as requested.
 - 7) Representative Directors, etc., shall work to exchange information with the Audit and Supervisory Committee.

[Operational Conditions of Systems to Secure the Appropriateness of Company Operations]

- (1) System to secure compatibility between business execution of Members of the Board of Directors and employees with laws and regulations and the Articles of Incorporation
 - Based on internal regulations such as “Regulations of the Board of Directors,” the Board of Directors conducts monitoring of decision making of management policies and important business executions as well as the execution of duties of Members of the Board of Directors.
 - “Independent Outside Director Appointment Standards” have been established. Based on the standards, a number of Outside Directors are elected and they are giving their opinions based on their specialized views and abundant experience in the meeting of the Board of Directors and conducting vigorous discussions.
 - An Internal Control Committee has been established to develop the internal control system, evaluate and investigate operational conditions, and periodically report such content to the Board of Directors.
 - “Compliance Promotion Committee,” “Environmental Committee,” “Climate Change Committee,” “Social & Community Contributions Committee,” “Health & Safety Promotion Committee,” and “Human Rights Committee” have been established, as well as a “CSR Management Committee” that acts as a controlling committee. A dedicated organization responsible for promoting CSR activities has also been established.
 - Compliance-related regulations are formulated such as “Compliance Program Regulations” and “Corporate Ethics Policy and Code of Conduct,” and through measures such as selecting compliance promotion leaders in each division, an appropriate compliance system is maintained and continued while actions for further improvement are also taken. Also, regarding the Compliance Promotion Committee, the status of its activities and others are periodically reported to the Board of Directors.
 - The Company has established a reporting hotline both within and outside of the Company that receives anonymous, pseudonymous, and identifiable reports. A systematic approach is taken with regards to the treatment of reporters so that they are not subject to detrimental treatment and efforts are taken toward appropriate responses.
 - A response manual regarding anti-social forces is distributed to all offices and related companies.
 - Through establishing an Internal Audit Department independent from executive divisions and implementing third-party assessment regarding the effectiveness of internal control systems at the department, the Company works to enhance transparency and effectiveness of operations.
- (2) System to store and manage information regarding the execution of duties by Members of the Board of Directors
 - Based on internal regulations such as “Regulations on Document Storage and Preservation Management,” efforts are being made to construct a system to appropriately store and manage information. Also, “Information Security Management Regulations” and others have been established and a commitment has been made to educating employees and others in an effort toward thoroughly appropriate information management.
 - Regarding important decisions, an “Information Disclosure Committee” was established, creating a system to deliberate on the necessity of disclosing individual items and the content of disclosure in an effort toward realizing timely and appropriate disclosure.
- (3) Regulations and other systems regarding management of risks of loss
 - In addition to developing internal regulations such as “Risk Management Basic Regulations,” each department responsible for each business functions periodically surveys and evaluates the existence, content, etc., of risks across the Company and reports these to the Risk Management Committee. Regarding individual risks received in these reports, the Risk Management Committee deliberates on countermeasures and verifies the state of implementation of those measures.
- (4) System to secure efficient execution of duties by Members of the Board of Directors
 - A Medium-term Direction (three years) has been formulated and progress reports are periodically given at the Board of Directors. Yearly policies are decided by the Board of Directors and are then shared within the Company.
 - By implementing a Vice President system and having Vice Presidents conduct daily business execution, the Company aims to realize efficient decision making.
 - Regarding decision making in the Company and the Companies, a group approval system has been established that is used to carry out decision making. A dedicated information system is also used to not only realize efficient deliberations, but also to record both the results and progress of decision making to visualize the process.

- The Management Committee deliberates on management items provided by internal regulations such as important management policies, plans, business execution, etc., and also receives reports on the status of policies and budgets, evaluates them, and works on their improvement.
 - The Board of Directors periodically receives reports on the status of business execution and also a dedicated information system allows related Members of the Board of Directors, Vice Presidents, and employees to share periodic reports and others.
- (5) System to secure appropriate business in the Companies, composed of the Company and its subsidiaries
- Efforts are made to share the management policy including the corporate policy by posting them on the Intranet site as well as in internal company reports, and measures such as incorporating them in the education system. Additionally, similar efforts are being taken to spread awareness of Corporate Ethics Policy and Code of Conduct established to materialize the corporate policy.
 - As stated earlier, a group approval system has been established in both the Company and the Companies. The Company also gives advice and approval on certain matters for decisions by subsidiaries.
 - Divisions that supervise each function of the Company maintain regulations so that operations within the Companies are carried out in a standardized, efficient, and appropriate manner and appropriately guide operations and other measures taken in the course of operations.
 - The Internal Audit Department evaluates and monitors the Company and the Companies regarding the effectiveness and efficiency of operations, the credibility of financial statements, the development status of important compliance items, and the status of operations, and works to increase transparency and effectiveness. Additionally, proposals are implemented through internal control evaluations of operation process levels.
- (6) Matters regarding Members of the Board of Directors and employees who assist the duties of the Audit and Supervisory Committee, matters regarding the independence of these employees from Members of the Board of Directors who are executive officers, and matters regarding securing the ability to execute orders given to these employees
- The Company has established a division to assist the duties of Audit and Supervisory Committee, and stationed an appropriate number of dedicated employees to assist the duties of the Audit and Supervisory Committee.
 - These employees receive direction regarding their duties directly from Standing Audit and Supervisory Committee Members, and the appointment, transfer, and other personnel evaluations of these employees are made by Members of the Board of Directors who are executive officers receiving consent upon discussion with the Audit and Supervisory Committee.
- (7) System for reporting to the Audit and Supervisory Committee and system to ensure that parties that report to the Audit and Supervisory Committee do not receive detrimental treatment as a result of reporting
- Minutes and materials from the Management Committee, etc., group approval documents, and periodic business reports are available for inspection as necessary by Standing Audit and Supervisory Committee Members. Additionally, a system is in place where Standing Audit and Supervisory Committee Members may attend meeting bodies such as the Management Committee, CSR Management Committee, Internal Control Committee, Information Disclosure Committee, Compliance Promotion Committee, and Risk Management Committee at any time, and their minutes, audit results from internal and external bodies, and others are delivered and reported to Standing Audit and Supervisory Committee Members. Furthermore, documents, information, etc., requested by the Audit and Supervisory Committee are individually submitted and reported.
 - In the event that Members of the Board of Directors who are executive officers, Vice Presidents, and employees of the Company, as well as Members of the Board of Directors, Statutory Auditors, Vice Presidents, and employees of subsidiaries of the Company discover facts regarding the business execution of the Companies that conflict with laws and regulations, the Articles of Incorporation, Corporate Ethics Policy and Code of Conduct, or other internal regulations, or that may cause significant harm to the Companies, a system where such reports can be made to the Audit and Supervisory Committee is developed, and reporters are not given detrimental treatment as a result of reporting. Furthermore, a hotline allowing for direct reports and consultations with Standing Audit and Supervisory Committee Members has been established as a reporting and consultation hotline for compliance violations.
- (8) Other systems to secure the effectiveness of audits by the Audit and Supervisory Committee
- As noted above, Standing Audit and Supervisory Committee Members are allowed to attend important meetings such as the Management Committee.

- Audit plans formulated by the Audit and Supervisory Committee are reported to the Board of Directors and shared with Members of the Board of Directors. Members of the Board of Directors actively cooperate with audits by the Audit and Supervisory Committee and hearings from attorneys-at-law and the Independent Auditor.
- The Company secures budgets necessary for the execution of duties by Audit and Supervisory Committee Members and bears fees, etc., actually incurred as a result of the execution of duties by Audit and Supervisory Committee Members.
- The Audit and Supervisory Committee, the Independent Auditor, and the Internal Audit Department periodically meet, and a sufficient level of cooperation is realized.
- Representative Directors are sharing the status and results of the Audit and Supervisory Committee's audits in the meeting with the Audit and Supervisory Committee on a regular basis and actively exchanging opinions.

Notes to the Consolidated Financial Statements

(Basis of preparation of Consolidated Financial Statements)

1. Scope of consolidation and application of the equity method

1) Number of consolidated subsidiaries: 82

Major consolidated subsidiaries:

Fukui Murata Manufacturing Co., Ltd.
Izumo Murata Manufacturing Co., Ltd.
Toyama Murata Manufacturing Co., Ltd.
Kanazawa Murata Manufacturing Co., Ltd.
Okayama Murata Manufacturing Co., Ltd.
Komoro Murata Manufacturing Co., Ltd.
Tohoku Murata Manufacturing Co., Ltd.
Murata Electronics North America, Inc.
Murata Company Limited
Murata (China) Investment Co., Ltd.
Murata Electronics Trading (Shanghai) Co., Ltd.
Wuxi Murata Electronics Co., Ltd.
Shenzhen Murata Technology Co., Ltd.
Murata Energy Device Wuxi Co., Ltd.
Foshan Murata Materials Co., Ltd.
Murata Electronics Europe B.V.
Murata Electronics (Thailand), Ltd.
Philippine Manufacturing Co. of Murata, Inc.
Murata Electronics Singapore (Pte.) Ltd
Murata Integrated Passive Solutions SAS
Murata Manufacturing Vietnam Co., Ltd.

2) Number of affiliated companies

1 (Companies accounted for by equity method 1)

2. Changes in scope of consolidation and application of the equity method

(Consolidated subsidiaries)

2 companies were included in consolidation.

2 companies were excluded from consolidation.

3. Significant accounting policies

(1) Standards for preparation of consolidated financial statements

The consolidated financial statements of the Company are prepared in accordance with the International Financial Reporting Standards ("IFRS"), pursuant to Article 120, Paragraph (1) of the Company Accounting Ordinance. Some of the disclosure items required by the IFRS are omitted, pursuant to the second sentence of the said Paragraph.

(2) Inventories

Inventories are measured at the lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs required of completion and the estimated selling expenses. Cost is determined primarily based on the periodic average method and includes purchase costs, costs of conversion, and all costs incurred in bringing the inventories to their present location and condition.

(3) Financial instruments

1) Financial assets

(i) Initial recognition and measurement

The Companies classify financial assets as financial assets measured at amortized cost, debt and equity financial assets measured at fair value through other comprehensive income or financial assets measured at fair value through profit or loss. This classification is determined at initial recognition.

The Companies recognize a financial instrument on the trade date when the Companies become a party to the contractual provisions of the financial asset.

All financial assets are measured at fair value, plus transaction cost, except for those classified as financial assets measured at fair value through profit or loss.

(a) Financial assets measured at amortized cost

Financial assets are classified as financial assets measured at amortized cost if both of the following conditions are met.

- Assets are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows.
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(b) Financial assets measured at fair value

Financial assets other than financial assets measured at amortized cost are classified as financial assets measured at fair value.

[1] Debt financial assets measured at fair value through other comprehensive income

Debt financial assets measured at fair value are classified as debt financial assets measured at fair value through other comprehensive income if both of the following conditions are met.

- The financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

[2] Equity financial assets measured at fair value through other comprehensive income

Equity financial assets measured at fair value are classified as equity financial assets measured at fair value through other comprehensive income if an irrevocable election has been made at initial recognition to recognize changes in fair value in other comprehensive income rather than in profit or loss.

[3] Financial assets measured at fair value through profit or loss

Financial assets measured at fair value other than [1] and [2] are classified as financial assets measured at fair value through profit or loss.

(ii) Subsequent measurement

After initial recognition, financial assets are measured based on the classification as follows.

(a) Financial assets measured at amortized cost

Financial assets measured at amortized cost are measured using the amortized cost based on the effective interest method.

(b) Financial assets measured at fair value

[1] Debt financial assets measured at fair value through other comprehensive income

Subsequent changes in the fair value of such financial assets, other than impairment gains or losses and foreign currency exchange gain or loss, are recognized in other comprehensive income until the financial assets are derecognized or reclassified. Upon derecognition of such financial assets, previously recognized other comprehensive income is reclassified to profit or loss.

[2] Equity financial assets measured at fair value through other comprehensive income

Subsequent changes in the fair value of such financial assets are recognized in other comprehensive income. Dividends from such financial assets are recognized as part of finance income in profit or loss for the current fiscal year.

[3] Financial assets measured at fair value through profit or loss

Subsequent changes in the fair value of such financial assets are recognized in profit or loss.

(iii) Derecognition of financial assets

The Companies derecognize financial assets when contractual rights to cash flows from the financial assets expire, or when the Companies transfer substantially all the risks and rewards of ownership of the financial assets. If the Companies retain control over the transferred financial asset, the Companies recognize the asset and related liability to the extent of their continuing involvement.

(iv) Impairment of financial assets

For financial assets measured at amortized cost, allowance for doubtful accounts is recognized for expected credit losses.

At the end of each period, the Companies assess whether the credit risk associated with each financial asset has increased significantly since initial recognition, and if the credit risk has not increased significantly since initial recognition, the Companies recognize expected credit losses for 12 months as allowance for doubtful accounts. On the other hand, if the credit risk has increased significantly since initial recognition, an amount equal to the lifetime expected credit losses is recognized as allowance for doubtful accounts. However, for trade receivables and contract assets that do not contain a significant financial component, allowance for doubtful accounts is always recognized in an amount equal to the lifetime expected credit losses, regardless of whether the credit risk has increased significantly

since initial recognition.

The Companies determine whether credit risk has increased significantly based on changes in the risk of a default occurring, and in making this determination, the Companies consider downgrades of internal credit ratings, deterioration in the business performance of counterparties, and information on the elapse of due dates, etc.

Expected credit losses are recognized at the present value of the difference between all contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive.

The Companies estimate expected credit losses on financial assets in a manner that reflects the following:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes
- Time value of money
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions

In case of being affected by significant economic fluctuations, etc., necessary adjustments are made to the expected credit losses measured above.

The carrying amount of a financial asset is directly reduced if the Companies do not have a reasonable expectation of recovering the entirety or a portion of a financial asset.

2) Fair value of financial instruments

The fair value of financial instruments traded in an active market at each reporting date is determined by reference to quoted prices in a market or prices provided by dealers. The fair value of financial instruments for which there is no active market is determined using appropriate valuation techniques.

3) Derivatives and hedge accounting

Derivatives are initially recognized at fair value on the date the derivative contract is entered into and are remeasured at fair value at the end of each fiscal year after initial recognition.

The Companies use forward exchange contracts to fix cash flows related to recognized financial assets and liabilities and future transactions.

There are no derivatives to which hedge accounting is applied for the above derivatives.

(4) Property, plant, and equipment

The acquisition cost includes costs directly attributable to the acquisition of the asset, costs of dismantling and removing, and restoration of assets. The cost model is used for measurement after initial recognition, and the assets are carried at acquisition cost, less accumulated depreciation and accumulated impairment losses. Depreciation of each asset other than land and construction in progress is recognized on the straight-line method over their respective estimated useful lives.

Estimated useful lives, residual values, and depreciation methods are reviewed at each fiscal year end, and any changes are applied prospectively as changes in accounting estimates.

(5) Goodwill and intangible assets

1) Goodwill

The Companies initially measure goodwill at the fair value of the consideration for transfer, including the recognized amount of any non-controlling interests in the acquiree measured as of the acquisition date, less the net amount of identifiable assets acquired and liabilities assumed as of the acquisition date.

Goodwill is not amortized, but tested for impairment at the same time each year or whenever an indication of impairment exists.

Goodwill impairment losses are recognized in the consolidated statement of profit or loss and are not subsequently reversed.

Goodwill is stated at acquisition cost, less accumulated impairment losses, in the consolidated statement of financial position.

2) Intangible assets

Intangible assets acquired individually are measured at acquisition cost on initial recognition. Intangible assets acquired in a business combination are measured at fair value as of the acquisition date. The cost model is used for measurement after initial recognition, and the intangible assets are carried at acquisition cost, less accumulated amortization and accumulated impairment losses.

Research and development expenses incurred within the Companies are expensed as incurred, except for expenditures for development activities that meet all of the following capitalization requirements:

- Technical feasibility of completing the intangible asset so that it is available for use or sale
- Intent to complete and use or sell the intangible asset
- Ability to use or sell the intangible asset
- Probable future economic benefits generated from the intangible asset
- Availability of adequate technical, financial, and other resources required to complete the development and use or sell the intangible asset
- Ability to reliably measure expenditures attributable to intangible assets during the development period

Intangible assets with finite useful lives are amortized using the straight-line method over their estimated useful lives.

Estimated useful lives, residual values, and depreciation methods are reviewed at each fiscal year end, and any changes are applied prospectively as changes in accounting estimates.

(6) Leases

In the case of becoming the lessee under a lease contract, right-of-use assets and lease liabilities are recognized at the commencement of the lease. The initial measurement of the lease liabilities is measured at the present value of the total lease payments not paid as of the commencement date, and right-of-use assets are measured at acquisition cost, adjusted for initial direct costs incurred by the lessee, such as lease payments paid up to the commencement date, to the amount of lease liabilities initially measured.

After the commencement date, right-of-use assets are depreciated using a straight-line method over the lease term and depreciation is charged to cost of sales; selling, general and administrative expenses; and research and development expenses in the consolidated statements of profit or loss. For lease liabilities, lease payments are allocated between interest expense and repayment of the lease liabilities based on the interest method, with interest expense recorded in finance costs in the consolidated statement of profit or loss. However, for short-term leases with a lease term of 12 months or less and leases with a small underlying asset, the right-of-use assets and lease liabilities are not recognized and the total lease payments are recognized as expenses over the lease term either by a straight-line method or on another regular basis.

(7) Impairment of non-financial assets

The carrying amount of the Companies' non-financial assets, excluding inventories and deferred tax assets, etc., is assessed at the end of each reporting period for any indication that the assets may be impaired, and if any indication of impairment exists, the recoverable amount of such assets is estimated. For goodwill and intangible assets with indefinite useful lives or not yet available for use, the recoverable amount is estimated at the same time every year, regardless of whether there is any indication of impairment.

The recoverable amount of a cash-generating unit or group of cash-generating units is the higher of its value in use or its fair value, less costs to dispose of. The value in use is calculated by discounting estimated future cash flows to present value using a pre-tax discount rate that reflects the time value of money and the risks specific to the asset.

Assets that are not tested individually in impairment testing belong to the smallest cash-generating unit that generates cash inflows that are largely independent of the cash inflows of other assets or groups of assets from continuing use of the asset. When testing goodwill for impairment, the cash-generating units to which goodwill is allocated are aggregated so that impairment is tested to represent the lowest level within the Companies to which the goodwill relates. Goodwill acquired in a business combination is allocated to each of the cash-generating unit or group of cash-generating units that is expected to benefit from the synergies of the integration.

The Companies' corporate assets do not generate independent cash inflows. When there is any indication that corporate assets may be impaired, the recoverable amount of the cash-generating unit to which the corporate assets belong is determined.

An impairment loss is recognized in profit or loss when the carrying amount of the cash-generating unit or group of cash generating units exceeds its estimated recoverable amount. Impairment losses recognized in relation to a cash-generating unit or group of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the unit and to the other assets of the unit pro rata on the basis of the carrying amount of each asset in the unit.

No impairment losses related to goodwill are reversed. For other assets, previously recognized impairment losses are evaluated at the end of each reporting period to determine whether there is any indication that the loss may have decreased or no longer exists. If there has been a change in the estimates used to determine the asset's recoverable amount, the impairment losses are reversed. Impairment losses are reversed up to the carrying amount of the asset after deducting the required depreciation and amortization from the carrying amount if no impairment loss had been recognized.

(8) Employee benefits

Short-term employee benefits are not discounted, but are charged to expense when the related services are rendered.

For bonuses and paid leave costs, the Companies have a legal or constructive obligation to pay them and recognize as a liability the amount estimated to be paid under those plans when reliable estimates can be made.

The obligation for long-term employee benefits other than post-employment benefits is calculated by discounting to present value the amount of future benefits earned by employees for services rendered in prior and current fiscal years.

The Companies have both defined benefit plan and defined contribution plan as retirement benefit plans for employees. The net asset or liability for a defined benefit plan is calculated as the present value of the defined benefit plan obligation less the fair value of the plan assets. The asset ceiling for this calculation is limited to the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The Companies calculate the present value of defined benefit plan obligation and related current service cost and past service cost using the projected unit credit method.

The discount rate is calculated based on the market yield of high-quality corporate bonds at the end of the period corresponding to the discount period, setting the discount period based on the period up to the expected date of benefit payments each fiscal year in the future.

The remeasurement of the net amount of defined benefit liability or asset is recognized in a lump sum in other comprehensive income in the period in which it occurs and is immediately reclassified from other components of equity to retained earnings.

Past service cost is recognized as profit or loss in the period in which it is incurred.

The cost of defined contribution retirement benefits is recognized as an expense when contributions are made.

(9) Provisions

Provisions are recognized when, as a result of past events, the Companies have a present legal or constructive obligation, it is probable that an outflow of economic resources will be required in order to settle the obligation, and a reliable estimate can be made of the

amount of the obligation. When the time value of money is significant, estimated future cash flows are discounted to present value using a pre-tax discount rate that reflects the time value of money and the risks specific to the liability. The unwinding of the discount due to passage of time is recognized as finance costs.

(10) Revenue recognition

The Companies recognize revenue from contracts with customers, excluding interest and dividend income and other income under IFRS 9 “Financial Instruments,” by applying the following steps as prescribed in IFRS 15 “Revenue from Contracts with Customers.”

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation

The Companies sell electronic components that comprise the Companies’ operating segments (Components, Devices and Modules, and Others) and related products. With regard to the sales of products, the Companies recognize revenue at the time of delivery of a product, since they consider that the customer obtains control over the product and performance obligations are satisfied at the time of delivery of the product. In addition, revenue is recognized at the amount of consideration promised in the contract with the customer, less discounts, rebates, returned goods, etc.

4. Significant accounting estimates and judgments

In preparing the consolidated financial statements in accordance with IFRS, management is required to make judgments, estimates, and assumptions that affect the application of accounting policies and the amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and their underlying assumptions are continuously reviewed. The effects of a change in any accounting estimate are recognized in the period of the change and future periods.

The following are items that are recorded in the consolidated financial statements for the current fiscal year based on accounting estimates and may have a material impact on the consolidated financial statements for the following fiscal year:

(1) Impairment of property, plant and equipment

The balance of property, plant and equipment for the current fiscal year is as stated in the consolidated statement of financial position.

For property, plant and equipment, the Companies assess whether there is any indication of impairment of assets at the end of each reporting period, and estimate the recoverable amount of the asset if any indication of impairment exists.

The recoverable amount of a cash-generating unit or a group of cash-generating units is recognized at the higher of its value in use or its fair value less disposal costs. Value in use is calculated by discounting estimated future cash flows, which are calculated based on the assumption of remaining useful lives, future cash flows, growth rate, etc., of the asset, to the present value using a pre-tax discount rate that reflects the time value of money and the risks inherent in the asset.

An impairment loss is recognized in profit or loss when the carrying amount of the cash-generating unit or group of cash-generating units exceeds its recoverable amount.

The recoverable amount of property, plant and equipment is determined based on management’s best estimates and judgments, but any unforeseeable changes in future business plans, economic conditions, etc., may have a significant impact on the consolidated financial statements for the following fiscal year.

(2) Impairment of goodwill

The balance of goodwill for the current fiscal year is as stated in the consolidated statement of financial position.

The Companies estimate the recoverable amount of goodwill at the same time each year regardless of an indication of impairment and put it to an impairment test if there is any indication of impairment.

The recoverable amount for testing goodwill impairment is calculated based on value in use. Value in use is calculated, with future cash flows, which reflect past experience and external information and estimated based on the management-approved future business plans and growth rates for up to next five years, discounted to the present value using a discount rate based on a pre-tax weighted average cost of capital for the cash-generating unit or group of cash-generating units. Growth rates are determined by reference to long-term inflation forecasts, etc., in the industry or country where the cash-generating unit or group of cash-generating units belongs.

An impairment loss is recognized in profit or loss when the carrying amount of the cash-generating unit or group of cash-generating units exceeds its estimated recoverable amount.

The recoverable amount of goodwill is determined based on management’s best estimates and judgments, but any unforeseeable changes in future business plans, economic conditions, etc., may have a significant impact on the consolidated financial statements for the following fiscal year.

5. Other significant matters concerning the preparation of consolidated financial statements

Amounts of less than one million yen are shown rounded to the nearest million yen.

(Note to Consolidated Statement of Financial Position)

1. Allowance for doubtful notes and accounts deducted directly from assets

Trade receivables 3,952 million yen

2. Accumulated depreciation of property, plant and equipment and impairment loss 1,997,480 million yen

3. Contingent liabilities

Regarding the unauthorized access to our IT environment and acquisition of information by a third party recognized on February 28, 2026, this matter may potentially affect the Companies' future financial position and business results, depending on the outcome of discussions with our business partners and other factors. And as the potential financial effect cannot be estimated with sufficient reliability at this time, it has not been reflected in the consolidated financial statements.

The Companies' systems are operating normally, and our production and sales activities have not been affected.

4. Breakdown of other components of equity

(Unit: million yen)

Financial assets measured at fair value through other comprehensive income	8,403
Exchange differences on translation of foreign operations	247,231
Total	255,634

(Note to Consolidated Statement of Changes in Equity)

1. Total number of common shares issued as of March 31, 2026 1,963,001,843 shares

2. Matters concerning dividends

1) Amount of dividends paid

Resolution	Type of shares	Total amount of dividends (Millions of yen)	Dividend per share (yen)	Record date	Effective date
June 27, 2025 Ordinary General Meeting of Shareholders	Common shares	55,871	30	March 31, 2025	June 30, 2025
October 31, 2025 Meeting of the Board of Directors	Common shares	54,849	30	September 30, 2025	November 28, 2025

2) Of dividends with a record date during the current fiscal year, and with an effective date during the following fiscal year

Planned resolution	Type of shares	Source of funds for dividends.	Total amount of dividends (Millions of yen)	Dividend per share (yen)	Record date	Effective date
June 29, 2026 Ordinary General Meeting of Shareholders	Common shares	Retained earnings	63,710	35	March 31, 2026	June 30, 2026

(Note to financial instruments)

1. Status of financial instruments

1) Capital management

The Companies manage capital with the aim of maintaining a sound financial position on the one hand and a high capital efficiency on the other.

In capital management, the Companies have positioned return on equity attributable to owners of the parent and return on invested capital (ROIC) (post-tax basis) as important management indicators, and are working to improve them.

2) Financial risk management

The Companies are exposed to financial risks (credit risk, liquidity risk, foreign currency risk, interest rate risk, and market price fluctuation risk) in the course of their management activities, and manage risks based on certain policies to mitigate such financial risks. The Companies enter into forward foreign exchange contracts to hedge foreign currency fluctuation risks, but do not hold such contracts for trading purposes.

3) Credit risk management

Credit risk is the risk that causes financial loss to the Companies when a counterparty of a financial asset held by the Companies goes into default for contractual obligations.

The Companies manage due dates and outstanding balances by customers, while they also monitor the credit status of major customers, based on the Companies' credit management regulations periodically.

In addition, the Companies make foreign exchange contracts only with financial institutions, etc., with a high level of creditworthiness, and these transactions' effect on credit risk is thus limited.

Furthermore, the Companies are not exposed to any credit risk excessively concentrated in a specific counterparty or group to which a specific counterparty belongs.

The carrying amount of financial assets presented in the consolidated financial statements represents the maximum exposure to credit risk of financial assets held by the Companies.

The Companies hold no properties as collateral or other credit enhancements with regard to these credit risk exposures.

4) Liquidity risk management

Liquidity risk is the risk that the Companies become unable to meet their repayment obligations on financial liabilities that are due on the due date.

The Companies manage liquidity risk by preparing appropriate repayment funds, securing credit facilities that are available to use at any time from financial institutions, and by continuously monitoring projected and actual cash flows.

5) Foreign exchange risk management

Since the Companies conduct business globally, fluctuations in foreign exchange rates are mainly U.S. dollar significantly influencing their operating performance.

The Companies strive to reflect exchange rate fluctuations in overseas sales prices to reduce exchange rate fluctuation risks. They have also concluded exchange contracts for a certain percentage of foreign currency denominated transaction amounts while taking into consideration exchange rate hedge costs to offset the influence of exchange rate fluctuations on profit and loss based on trends in foreign exchange rates and events that affect foreign exchange rates. Although hedge accounting is not applied to foreign exchange forward contracts, the Companies believe that the transactions effectively offset the influence of exchange rate fluctuations.

6) Interest rate risk management

The Companies pay interest on financing necessary for working capital and capital expenditures in conducting their business activities. The interest rate risk is deemed to be immaterial to the Companies at present, as the impact of interest payments on the Companies is minimal.

7) Market price fluctuation risk management

The Companies are exposed to share price fluctuation risk as they hold listed shares of business partner companies in order to

maintain and strengthen business relationships with them. The Companies review their holdings on an ongoing basis, taking into account their relationship with the business partner companies, by regularly monitoring the fair value and the financial condition of such companies.

2. Fair values of financial instruments

For financial instruments measured at fair value, the Companies classify the fair value into the following three levels according to the observability of the inputs used in their measurement.

Level 1: Market prices in active markets for identical assets or liabilities

Level 2: Fair value calculated directly or indirectly using observable prices other than Level 1

Level 3: Fair value calculated using valuation techniques that include unobservable inputs

1) Financial instruments measured at amortized cost

The carrying amounts and fair values of financial instruments measured at amortized cost are as follows.

Financial instruments measured at fair value and financial instruments with fair value being nearly equal to their carrying amount are not included in the following table.

(Unit: million yen)

	Carrying amount	Fair value
Financial liabilities measured at amortized cost		
Long-term borrowings (including current portion)	2,576	2,570
Total	2,576	2,570

The fair value of long-term borrowings (including current portion) is determined based on the present value of future cash flows discounted at the interest rate to be applied if similar new contracts were entered into, and is classified as Level 2.

2) Financial instruments measured at fair value

The fair value hierarchy of financial instruments measured at fair value is as follows:

(Unit: million yen)

	Level 1	Level 2	Level 3	Total
Assets:				
Financial assets measured at fair value through profit or loss				
Equity securities and investments in capital, etc.	—	—	14,579	14,579
Financial assets measured at fair value through other comprehensive income				
Equity securities	23,102	—	1,004	24,106
Total	23,102	—	15,583	38,685
Liabilities:				
Financial liabilities measured at fair value through profit or loss				
Derivative liabilities	—	864	441	1,305
Total	—	864	441	1,305

Transfers between levels in the fair value hierarchy are recognized on the date an event or change in the situation resulting in the transfers arises. There were no material transfers between Level 1 and Level 2 in the current fiscal year.

(i) Information about fair value measurements of financial instruments classified as Levels 2 and 3

Derivatives classified as Level 2 are valued based on the prices quoted by counterparty financial institutions.

Equity securities and investments in capital, etc. classified as Level 3 are valued using appropriate techniques that comprehensively take into account the most recently available information about the investee, including its projected future profitability and net asset value.

Derivatives classified as Level 3 are those recognized in connection with the settlement of cash flows arising from differences between the fixed electricity price based on a virtual PPA agreement and the wholesale market electricity price, and they are evaluated by a proper technique, whereby future prices in the wholesale market, expected power generation by renewable

energy generation facilities, and such are considered.

No significant changes in fair value are expected from changing unobservable inputs for financial instruments classified as Level 3 to reasonably possible alternative assumptions.

(ii) Reconciliation of financial instruments classified as Level 3 from the beginning balance to the ending balance

The reconciliation of the beginning balance to the ending balance of the fair value measurement categorized as Level 3 is as follows:

(Unit: million yen)	
	Equity securities and investments in capital, etc.
Balance at beginning of year	13,108
Purchase	2,871
Gains or losses	
Profit or loss	346
Other comprehensive income	275
Sale or settlement	(1,017)
Balance at end of year	15,583

Other than those listed above, derivatives are also included in financial instruments classified as Level 3, and their changes arise from profit or loss.

Gains or losses recognized in profit or loss are included in finance income or finance costs in the consolidated statement of profit or loss.

(Notes to revenue recognition)

1. Disaggregation of revenue

The Companies sell electronic components that comprise the Companies' operating segments and related products. Operating segments are classified based on the Companies' business strategies, and the Companies recognized the Components segment, the Devices and Modules segment and Others. The Companies break revenues from contracts with customers into the categories of Capacitors and Inductors / EMI Filters derived from Components Business, and the categories of High-Frequency Device and Communications Module, Battery and Power supply and Functional Device derived from Modules Business.

The relationship between disaggregated revenue and segment revenue is as follows:

(Millions of yen)

	Amount
Capacitors	936,418
Inductors and EMI filters	223,316
Components	1,159,734
High-Frequency Device and Communications Module	394,829
Battery and Power supply	154,063
Functional Device	107,074
Devices and Modules	655,966
Others	15,156
Total	1,830,856

With regard to the sales of products, the Companies recognize revenue upon delivery of a product since they consider that the customer obtains control over the product and performance obligations are satisfied at the time of delivery of the product. In addition, revenue is recognized at the amount of consideration promised in the contract with the customer, less discounts, rebates, returned goods, etc. The Companies mostly receive transaction consideration within one year after performance obligations are satisfied, and there are no significant financial components included.

2. Contract balances

The breakdown of receivables from contracts with customers and contract liabilities is as follows:

(Millions of yen)

	Beginning of the current fiscal year (April 1, 2025)	End of the current fiscal year (March 31, 2026)
Receivables from contracts with customers	294,419	328,159
Contract liabilities	5,031	7,239

Receivables from contracts with customers are included in trade receivables in the consolidated statement of financial position. Contract liabilities are primarily the balance of consideration received from customers before transferring control to customers, and are included in other current liabilities in the consolidated statement of financial position. The amounts of revenue recognized in the current fiscal year that were included in the balance of contract liabilities at the beginning of the period are 4,882 million yen. Furthermore, the amounts of revenues recognized in the current fiscal year from the performance obligations satisfied (or partially satisfied) in prior periods were immaterial. There were no significant changes in the balance of contract liabilities during the current fiscal year. The balance of contract assets is immaterial.

3. Transaction price allocated to the remaining performance obligations

The Companies have omitted information on remaining performance obligations per application of practical expedient because there are no material transactions for which the expected duration of any individual contract would exceed one year. The Companies' contracts with customers have no significant consideration that is not included in the transaction price.

(Notes to amounts per share)

1. Equity attributable to owners of parent per share	1,493.58 yen
2. Basic earnings per share	127.66 yen

(Significant subsequent events)

Purchase and cancellation of treasury shares

The Company resolved, at a meeting of the Board of Directors held on April 30, 2026, to purchase treasury shares in accordance with provisions of Articles of Incorporation pursuant to Article 459, Paragraph (1) of the Companies Act, and to cancel treasury shares in accordance with Article 178 of the said Act.

1. Reasons for the purchase of treasury shares

To improve capital efficiency.

2. Details of purchase

(1) Type of shares subject to purchase:	Common shares
(2) Total number of shares available for purchase:	75,000,000 shares (maximum) Percentage of total number of shares issued (excluding treasury shares): 4.12%
(3) Total amount of purchase of shares:	150,000,000,000 yen (maximum)
(4) Purchase period:	From May 11, 2026 to January 29, 2027 (trade date basis)

3. Details of cancellation

(1) Type of shares subject to cancellation:	Common shares
(2) Total number of shares to be cancelled:	All shares of common shares to be repurchased pursuant to 2 above.
(3) Scheduled date of cancellation:	February 26 2027

(Notes to impairment of non-financial assets)

The “other expenses” in the consolidated statement of profit or loss for this period includes the impairment loss on non-financial assets amounting to 50,414 million yen.

Of the impairment losses, 43,798 million yen was recorded for the business related to SAW filter products comprising the “Devices and Modules” segment.

With regard to the business related to SAW filter products, with the fact that the shift toward higher-frequency technologies in the telecommunications market has been slower than initially expected, the Companies calculated the recoverable amount of the cash generating unit in this period based on the business plan reflecting the situation. As a result, the recoverable amount of the cash generating unit was deemed to be less than the carrying amounts, and an impairment loss was recorded in the amount of 43,798 million yen for “Goodwill.”

The recoverable amount of the cash-generating unit is calculated based on the value in use. The value in use is measured based on past experience and reflecting external information, by discounting the estimated amount of cash flows based on the growth rates and the business plan within five years approved by management to the present value using the discount rate based on the pretax weighted average cost of capital for the cash-generating unit. The pretax discount rate was 11.1%.

The growth rates are determined with reference to the long-term expected inflation rate and other factors in the industry or country to which the cash-generating unit belongs. The growth rate was 1.5%, and does not exceed the long-term average growth rate of the market.

(Notes to business transfer)

The micro primary battery business (“Business”), which was part of the “Devices and Modules” segment and was operated by the Company and its wholly owned subsidiary, Tohoku Murata Manufacturing Co., Ltd., was succeeded by a wholly owned subsidiary newly established by the Company through an absorption-type company split, and all shares of the subsidiary were transferred to Maxell, Ltd., effective March 1, 2026.

1. Breakdown of assets and liabilities at the time of loss of control

	(Millions of yen)
	Amount
Assets	
Current assets	2,118
Non-current assets	527
Total assets	2,645
Liabilities	
Non-current liabilities	437
Total liabilities	437

2. Cash flows resulting from the loss of control

	(Millions of yen)
	Amount
Consideration received in cash (Note)	8,000
Cash and cash equivalents among assets at the time of loss of control	(10)
Proceeds from the transfer of the Business	7,990

(Note) A price adjustment of 99 million yen between the value as at the contract date and the value as at the closing date is recorded under “other financial liabilities” in the Consolidated Statement of Financial Position.

3. Gain or loss resulting from the loss of control

The gain on the transfer recognized in connection with the disposal of the Business amounted to 5,693 million yen and was recorded as “Other income” in the consolidated statement of profit or loss for the current fiscal year.

Balance Sheets

(As of March 31, 2026)

(Millions of yen)

Item	Amount	Item	Amount
Assets	1,515,912	Liabilities	632,646
Current assets	777,254	Current liabilities	593,169
Cash	230,049	Trade accounts payable	127,593
Trade accounts receivable	365,978	Short-term borrowings	389,141

Notes to Unconsolidated Financial Statements

(Notes to significant accounting policies)

1. Valuation standards and valuation methods of assets

(1) Valuation standards and valuation methods of marketable securities

Shares of subsidiaries and affiliated companies	Moving-average method
Other marketable securities	
Securities other than shares, etc., without market prices	Market value method based on market prices (Valuation differences are reported as a component of net assets, and the cost of securities sold is calculated using the moving-average method)
Shares, etc., without market prices	At cost based on the moving-average method

(2) Valuation standards and valuation methods of derivatives

Derivatives	Market value method
-------------	---------------------

(3) Valuation standards and valuation methods of inventories

Finished goods	At cost based on the moving-average method (balance sheet amounts are calculated by writing down the book value of assets that have decreased in profitability)
Products, raw materials, work in process, and supplies	At cost based on the weighted-average method (balance sheet amounts are calculated by writing down the book value of assets that have decreased in profitability)

2. Depreciation method for noncurrent assets

(1) Property, plant and equipment

Straight-line method	
Primary useful lives are as follows.	
Buildings	10 to 50 years
Machinery and equipment	4 to 17 years

(2) Intangible assets

Straight-line method
Software for internal use is amortized by the straight-line method based on an estimated useful life of 3 to 5 years.

3. Standards for recording of allowances

(1) Allowance for doubtful notes and accounts

To provide for possible losses resulting from uncollectible receivables such as trade accounts and loans, the estimated uncollectible amount is recorded based on historical default rate with regard to general accounts, and by individually assessing possible collectability for certain receivables such as loans with default possibility.

(2) Provision for share-based payments

To provide for the issuance of the Company's shares and other equity instruments to Members of the Board of Directors and Vice Presidents, the Company has recorded the estimated amount to be issued at the end of the current fiscal year.

(3) Termination and retirement benefits

To provide for retirement benefits to employees, benefits are recorded based on the estimated amount of termination and retirement liabilities and pension assets as of the closing date.

Prior service cost is recorded as expenses using the straight-line method based on the average remaining years of service of employees as of the time of occurrence. Actuarial differences are amortized using the straight-line method over the period of 5 years within the average remaining years of service of employees commencing the following fiscal year after incurrence.

(4) Provision for loss on contracts

To provide for potential losses arising from future contract performance, the Company has recorded a provision for estimated losses calculated on a reasonable basis.

4. Revenue and expense recognition standards

The Company conducts sales of electronic items, including Components (such as MLCCs, inductors, and EMI suppression filters) and Devices and Modules (such as multilayer resin substrates, high-frequency modules, SAW filters, lithium-ion secondary batteries, and sensors), and related merchandise and products. With regard to the sales of merchandise and products, the Company recognizes revenue at the time of delivery of merchandise or a product since it considers that the customer obtains control over the merchandise or product and performance obligations are satisfied at the time of delivery of the merchandise or product. Furthermore, for domestic sales, because shipment through delivery is within the usual timeframe, revenue is recognized after shipment to the domestic delivery area designated by the customer. In addition, revenue is recognized at the amount of consideration promised in the contract with the customer less discounts, rebates, returned goods, etc. Also, transaction consideration is generally received within one year of when performance obligations are satisfied, and important financing components are not included.

5. Other significant matters concerning the preparation of unconsolidated financial statements

Amounts of less than one million yen are rounded down.

(Notes on significant accounting estimates)

Evaluation of investments and loans extended to affiliated companies

1. Amounts stated in the financial statements for the current fiscal year

Shares of subsidiaries and associates	317,194 million yen
Investments in capital of subsidiaries and associates	17,457 million yen
Long-term loans receivable	64,472 million yen
Allowance for doubtful notes and accounts	5,823 million yen

2. Helpful information in understanding significant accounting estimates

In evaluating shares of subsidiaries and associates and investments in capital of subsidiaries and associates, if the substantial value, which is calculated based on the amount of net assets per share, decreases approximately 50% or more relative to the acquisition cost due to financial deterioration of an affiliated company, the Company recognizes impairment loss by reducing to the substantial value, except when the recoverability is supported by sufficient evidence. In evaluating loans to subsidiaries and associates that financially deteriorate, the Company records the estimated uncollectible amount as allowance for doubtful accounts, in compliance with “3. Standards for recording of allowances” in (Notes to Significant Accounting Policies).

Worsened business results and financial conditions due to certain changes in economic conditions, etc., unforeseeable at the time of estimation, may affect evaluations and the amounts of relevant allowances in the financial statements for the following fiscal year.

(Notes to unconsolidated balance sheets)

1. Accumulated depreciation of property, plant and equipment	265,643 million yen
2. Short-term monetary claims with affiliated companies	413,027 million yen
Long-term monetary claims with affiliated companies	66,201 million yen
Short-term monetary liabilities with affiliated companies	507,129 million yen
3. Guarantee obligations	84 million yen

Warranty	Guaranteed amount (Millions of yen)	Liability guaranteed
pSemi Corporation	78	Trade notes and accounts payable
Shenzhen Murata Technology Co., Ltd.	5	Trade notes and accounts payable
Total	84	-

4. Contingent liabilities

Regarding the unauthorized access to our IT environment and acquisition of information by a third party recognized on February 28, 2026, this matter may potentially affect the Companies' future financial position and business results, depending on the outcome of discussions with our business partners and other factors. And as the potential financial effect cannot be estimated with sufficient reliability at this time, it has not been reflected in the consolidated financial statements. The Companies' systems are operating normally, and our production and sales activities have not been affected.

5. Tax purpose reduction entry

Accumulated reduction entry in the current fiscal year, directly deducted from non-current assets acquired by using government subsidies, etc.

Buildings	4,744 million yen
Structures	21 million yen
Machinery	87 million yen
Vehicles	0 million yen
Tools, furniture and fixtures	13 million yen
Land	1,786 million yen

(Notes to unconsolidated income statements)

1. Transactions with affiliated companies

Business transactions	1,766,910 million yen
Net sales	1,022,742 million yen
Purchase turnover	744,167 million yen
Non-business transactions	272,273 million yen
Interest income	831 million yen
Dividend income	256,678 million yen
Commission income	242 million yen
Asset transfer	4,108 million yen
Interest expense	5,970 million yen
Product replacement and repair costs	2,899 million yen
Asset purchase	989 million yen
Other	551 million yen

2. Gain on sale of shares of subsidiaries and associates

In connection with the transfer of the micro primary battery business to Maxell Ltd. as described in the "Notes to Consolidated Financial Statements (Notes on business transfer)," a gain of 6,913 million yen on the sale of shares of subsidiaries and associates is recorded as extraordinary income.

3. Impairment losses

An impairment loss of 21,454 million yen in business related to SAW filter products was recorded as an extraordinary loss. With the fact that the shift toward higher-frequency technologies in the telecommunications market has been slower than initially expected, the recoverable amount of "intangible assets" in the SAW filter business was deemed to be less than the carrying amounts, and an impairment loss was recorded. The recoverable amount is determined as the net realizable value, based on the valuation by external valuation experts, and is calculated using the income approach (excess earnings method).

(Notes to statements of shareholders' equity)

Type and number of treasury shares as of March 31, 2026

Common shares	142,709,692 shares
---------------	--------------------

(Notes to tax effect accounting)

1. Breakdown of primary causes for occurrence of deferred tax assets and liabilities

Deferred tax assets		Deferred tax liabilities	
Accrued bonuses	3,634 million yen	Other marketable securities valuation adjustment	4,230 million yen
Inventories	4,136 million yen	Prepaid pension cost	7,751 million yen
Accrued expenses	1,134 million yen	Other	404 million yen
Accounts payable—other	8 million yen	Total deferred tax liabilities	12,386 million yen
Accrued enterprise tax	1,659 million yen	Elimination with deferred tax assets	(12,386) million yen
Termination and retirement benefits	9,913 million yen	Net deferred tax liabilities	- million yen
Provision for loss on contracts	1,175 million yen		
Shares of subsidiaries and associates	6,322 million yen		
Tangible and intangible assets	8,519 million yen		
Deferred tax adjustment	246 million yen		
Investment securities	1,166 million yen		
Other	4,223 million yen		
Deferred tax assets subtotal	42,141 million yen		
Valuation allowance for total deductible temporary differences, etc.	(10,288) million yen		
Total deferred tax assets	31,852 million yen		
Elimination with deferred tax liabilities	(12,386) million yen		
Net deferred tax assets	19,466 million yen		

2. Difference between effective statutory tax rate and income tax rate after application of tax effect accounting

Effective statutory tax rate	30.5 %
(Adjustments)	
Exemption for dividend income	(22.9) %
Tax exemption for R&D promotion tax system	(5.5) %
Foreign withholding tax	1.3 %
Valuation allowance for deferred tax assets	(0.7) %
Other	(0.4) %
Income tax rate after application of tax effect accounting	2.3 %

3. Accounting treatment of corporate income tax and local corporate tax or accounting treatment of tax effect accounting concerning them

The Company has applied the Group Tax Sharing System. Additionally, following “Practical Solution on the Accounting and Disclosure Under the Group Tax Sharing System” (ASBJ PITE No. 42, August 12, 2021), the Company performs accounting treatment of corporate tax and local corporate tax or accounting treatment of tax effect accounting concerning them, and disclosure.

Transaction conditions and standard for determining transaction conditions

(Note 1) Determined via the same method as general transactions, in consideration of market prices.

(Note 2) Borrowing and lending of funds includes transactions via the cash management system (CMS), and the interest rate is determined in consideration of market interest rates.

As the fund management operations business for the Japanese subsidiaries is concentrated within the Company, there are borrowings from each company and lending of funds to each company.

(Note 3) Transaction amounts are the average balance over the course of the current fiscal year.

(Note 4) Interest rates for borrowing and lending of funds is determined in consideration of market interest rates.

(Note 5) The Company records 1,617 million yen as provision of allowance for doubtful accounts of subsidiaries.

The balance of allowance for doubtful accounts of subsidiaries at the end of the current fiscal year is 5,823 million yen.

(Notes to amounts per share)

Net assets per share	485.23 yen
Net income per share	177.77 yen

(Notes to revenue recognition)

Notes on information on the basis for understanding revenue arising from contracts with customers are omitted because the same content is described in the Consolidated Financial Statements "Notes to the Consolidated Financial Statements, (Notes to revenue recognition)."

(Significant subsequent events)

Notes are omitted because the same content is described in the Consolidated Financial Statements "Notes to the Consolidated Financial Statements, (Significant subsequent events)."
