Note 1: The figures above are based on preliminary operating data, and may differ from actual results.
Note 2: Existing store sales data is based on stores that have been continuously operating for at least 12 months as of the end of the month; data from stores that closed or temporarily suspended business during the month are not included.
Note 3: JINS also generates revenue from wholesale, e-commerce, and other operations. Sales growth may thus differ from that reported on the income statement.

■Topics

In May, sales across all of the company's eyewear stores in Japan increased +26.4% YoY, and sales at existing stores rose +17.2%.
During the month, our success in capturing growing inbound demand and seasonal needs—driven by the implementation of various promotional campaigns—along with two additional holidays compared to the previous year, contributed to the growth in existing store sales.
As of the end of May, the total number of eyewear stores in Japan was 581.
