Notice Regarding the Impact of the Earthquake Off the Coast of Mindanao, Philippines

On June 8, 2026, an earthquake occurred off the coast of Mindanao Island in the Philippines. We offer our deepest condolences to those who lost their lives and extend our heartfelt sympathies to all those affected by the disaster. We would like to provide the following update on the current status of damage to our company and our group companies.

1. Status of Damage

We have confirmed that there are no injuries among our employees. Although commercial power was lost at one communications network site, causing a temporary service interruption, service has already been restored and there is no substantial damage. Furthermore, the tsunami had no impact on the Baler landing station currently under construction.

2. Impact on Business Performance

As of today, we believe the impact on our business performance will be minimal; however, should any significant events requiring disclosure occur in the future, we will notify you promptly.
