“Notice of the 40th Annual General Meeting of Shareholders,” Business Report, 3. Policy to determine dividends of surplus

[Details of the correction]
The following information was omitted and has been newly added as Page 66.

3. Policy to determine dividends of surplus

The Company considers the return of profits to shareholders to be an important goal for our management along with increasing medium- to long-term corporate value. To increase corporate value, the Company will make capital investments efficiently to further raise the sophistication of telecommunications networks, such as by expanding 5G SA (Standalone) areas, as well as continuing investments in AI-related businesses and other new businesses. Our basic policy is to distribute surplus twice a year as interim and year-end dividends, and to pay attention to the stability and sustainability of dividends while considering factors such as performance trends, financial condition, and cash flow position on a comprehensive basis. Under this policy, the Company aims to continuously increase dividend per share for common shares in line with profit growth during the Medium-term Management Plan from the fiscal year ending March 31, 2027 to the fiscal year ending March 31, 2031.
For the fiscal year ended March 31, 2026, the Company plans to pay a year-end dividend

per share of ¥4.301 for common shares, ¥50.001 for the Series 1 Bond-Type Class Shares, and ¥128.001 for the Series 2 Bond-Type Class Shares.
For the fiscal year ending March 31, 2027, the Company plans to pay an annual dividend per share for common shares of ¥8.80 (comprising interim and year-end dividends of ¥4.40 and ¥4.40, respectively), and a prescribed amount of dividend for the Series 1 Bond-Type Class Shares and the Series 2 Bond-Type Class Shares.

(Note) This matter is scheduled to be submitted for approval to the Board of Directors of the Company at a meeting planned for May 15, 2026.
