UNISOL Holdings Corporation (the "Company") hereby announce that, at the Board of Directors meeting held today, the Company resolved to revise its dividend forecast per share for the fiscal year ending December 31, 2026, as described below. Results for the previous year (fiscal year ended December 31, 2025)	30.00	71.00	101.00

2. Reason for revision

The Company has formulated a new Medium-Term Management Plan, "UNISOL II" (covering the fiscal years ending December 31, 2027 through December 31, 2029), which outlines shareholder returns totaling 18 billion yen as part of our financial and capital strategy aimed at optimizing capital efficiency and achieving our ROE targets.

While the Company has previously positioned flexible shareholder returns in accordance with profit levels and financial conditions as one of its dividend policies, in conjunction with the formulation of this new plan, we have decided to implement a portion of the shareholder return measures ahead of schedule. Consequently, the Company will increase the year-end dividend for the fiscal year ending December 31, 2026, by paying a commemorative dividend.

Regarding this dividend increase, taking into consideration that Furusato Industries, Ltd. and Maruka Corporation (currently UNISOL Corporation), the predecessor entities at the time of our business integration, will mark the 80th anniversary of their founding and establishment in 2026, we have decided to pay a commemorative dividend of 80 yen per share.

Our ability to sustain our business over such a long period is a direct result of the long-standing support of our shareholders and all other stakeholders, for which we express our deepest gratitude. Moving forward, we will continue to strive for sustainable growth and the medium- to long-term enhancement of corporate value to meet the expectations of all our stakeholders.
