※The Group's performance is significantly affected by fluctuations in economic conditions and the market environment, so earnings forecasts are not disclosed.

※The preliminary results figures shown above are estimates based on reasonable judgment at the present time, and actual results may differ from the preliminary figures.

2. Reason for difference from results for the same period of the previous fiscal year

Operating revenue increased 40.5% year on year, mainly due to higher U.S. equity revenue. As a result, operating profit, ordinary profit and quarterly profit attributable to owners of parent were all higher than those of the same period of the previous year. In addition, ordinary profit (loss) has been positive for 55 consecutive quarters.
